The Party of Plunder. There never were any questions before the appealed so directly to laboring men in this may give the party an appearance of strengthit may give the party an appearance of strength in the country as those which will be before them for their decision at the ballot-box on Toseday nort. We call upon the thousands—we think we may say to-day THOURANDs, who within the last few weeks have been left without employment, from the stopping of mills and manufactories in all parts of these two cities, carefully to weigh all parts of these two cities, carefully to weigh the answer which have forced upon until is lamentable state of affairs. No country could have been in a more prosperous condition than was this under the tariff of 1842. Every branch of industry was fear in the growth of the country, dragging forth from sunless mines the elements which were to perform their parts in securing the permanent prosperity of all business, after they should have been fashioned by well rewarded skill into shapes of use and beauty. But the leaders of the same party which now rules the desiting of the country was not content to dress in the products of home industry and wait a little till our own workshops and mills should supply all that was necessary to carry on great works of public improvement. The tariff of 2846 must come in to open our ports to the profuse of the same party which now rules the desiting of the country was not content to dress in the products of home industry and wait a little till our own workshops and mills should supply all that was necessary to carry on great works of public improvement. We are now only fighting the battle of free upon whose exertions a tender wife and crying children depend for daily bread shall not be reduced to competition with your "ten-cents-aday" laborer under the grinding systems of Europe. The English and French shippers of tron and cloths and silks, who wring from the upon whose exertions a tender wife and crying ron and cloths and silks, who wring from the hard hand of toil its forced service to supply our open markets with their fabrics and fill their coffers with our gold, have proved again too much for us, and crash after crash resounds daily through the land, of our reputed rich men now forced to taste the bitter cup of adversity while our streets throng with unemployed laborers and each day but multiplies our difficulties; How can the honest man look at this result of the ruinous policy of the Locofoco crusade against the free laborer and not contribute his vote and his influence to inaugurate a new and a better state of things? One need look no further than in our very midst to find the true spirit of this self-etyled Democracy. They are doing everything in their power to depreciate the value of property in this county, to undermine the credit of the people and to sow broadcast in the public mind the seeds of moral corrections and infidity which which the true is the value of property in this county, to undermine the credit of the people and to sow broadcast in the public mind the seeds of moral corrections. while our streets throng with unemployed labo cast in the public mind the seeds of moral corruption and infidelity which shall bear bitter
fruits for years to come if the crop is not nipped
in the bud. We ask you, fellow-citizens, who
are the loud-mouthed demagogues that are making a virtue of dishonesty and circulating libels
upon the character of our people far and yide,
but this same party whom we have shown and also. but this same party whom we have shown you again and again is responsible for all the finan cial difficulties under which as a county we are ishoring, and who now turn around and endead to shift the burden of their sins upon the shoulders of the Republican party? Who but the nigh to ruin! Let the honest men of this county Tuesday next, against all this crop of demn

Specie Paying.
We observe in the National Intelligencer Monday a statement that the banks of a large number of counties which it enumerates, i Among these counties Allegheny county is mentioned. It is not true that all the banks of this county have suspended. The old Bark or Pittsburg goes on as usual, never having refused to pay specie on any of its obligations which were known to be hearing upon it to the close of business on Saturday. We understand either during the present unfortunate crisis or close of business on Saturday. We understan that those payments have been made at least in

In Fayette county the Brownsville Bank also pays specie; stands well as far as we know, and is considered in good condition. The same is true of the Farmers' & Drovers' Bank of Waynesburg and the Kittanning Bank. We have been prompted to these remarks by a statement which has obtained currency in the East and been circulated by the Philadelphia press to the disadvantage of this city and to the section of the se and been circulated by the Philadelphia press to the disadvantage of this city and to the scrious annoyance of the people who may carry abroad the paper of specie paying banks of our city and vicinity and be unable to pass it in the face of statements multiplied on every hand like this which we notice at the commencement of this article, only to contradict.

We hear of no mercantile failures of importance to-day. The notes of the Oneith Central and Worthington Banks of this State: Windham County and Bank of North America, Seymour, Ct., and Bank of Springfield, Massachusetts, are thrown out to-day.

The Leoislature.—We see the Radical Demogrates of Philadelphia have had a meeting to demounce, in advance, any legislative relief to the suspended Banks, and showed a strong determination to make it a party question.

In this view of the case we hope the Republican members of the Legislature will besitate the fore joining issue with them. It is hardly before joining issue with them. Curiosities of Literature.—The Mystreis.

The following extracts from letters under the sign manual of Mr. Buchanan discloses the eminent consistency of this distinguished head of the great National Democratic party. That which Mr. Buchanan firmly maintained to be orthodox in 1848 and 1856, it strikes him with amaxement in 1857 to find that any one should venture to assert!

JAMES BUCHANAN IN 1848.

"James Buchanan IN 1850.

"This legislation—the Kagasa and Nebraska bill—is founded on principles as ancient as Free Government itself, and in accordance with them has simply declared that the people of a Territory, like those of a State, shall decide for themselves whether Slavery shall or shall not exist within its limits."—Acceptation of Nomination for the Presidency.

PRESIDENT BUCHANAN IN 1857.

"Blavery existed at that period—when the Kunasa and Nebraska bill was passed—and still exists in Kansas under the Constitution of the United States. This point has at last been decided by the highest tribunal known to our laws. How it could ever have been seriously doubted in a mystery.
