ELI HANNA, committed to prison the other day on a charge of horse stealing by Justice Howard, of Lawrenceville, made a well-nigh successful attempt to escape from the jail, yesterday, by following a visitor to the gate, and pushing out after him. When the trick was discovered by Mr. Mitchell, Hanna resisted being looked up, and it was with a great deal of difficulty that he was finally secured. The hobbles were put un him twice, and he contrived to break them off, with a brick-bat which he found in the cell, Heavier, chains were then mixed. break them off, with a brick-bat which he found in the cell. Heavier: chains were then uffixed to his aboles, and rivited, but he threatened that he would have them off before morning. He is a large, gaint, "desperate looking fellow, and appears to have had a good deal of experience

Mons. Godard will make his 367th balloon ascensify to-day, from the Diamond in Allegheny City. The price of admission to the areas whence the ascent will be made is 20 ceats. As such, as excursion, is a great novelty, particularly as a descent par parachute will be made by Mons, A. Godard from the height of 8000 feed, the proposed performance must of necessity utities an immense erowd of people from the cities can their vicinity. The Canada (balloon) is a splendid affair, requiring 35,000 cubic feet of of gas to expand and buoy it. Several smaller ones will be sent on as avant couriers to indicate

which Contains 20,000 Cable feet of of gas to expand and houy it. Soveral smaller ones will be sent on as avant couriers to indicate the direction of the wind and the currents air, previous to the grand assension. Several persons will accompany the adventirous seronant on his voyage, which we trust may prove a sitecessful one and terra firms receive the whole company safe and sound when all is over.

Narrow Recape.—An old lady, verging on seventy years of age, came very near losing her life yesterday at Altoona. The mail train was standing on the track, when the old lady having occasion to cross over the road, and not wishing to take the trouble of walking round the train, she foolishly attempted to pass under the bag, gageless, and that, too at the very moment the engineer whilstled "up brakes." Fortunately she was discovered, and the signal to move countermanded in time to prevent her death.

MASONIC HALL.

of New York paid out its last dollar and certified all checks presented and then yielded. The American Exchange Bank paid all demands, but everal others that out their customers at three o'clock. The Bank of North America was protested this afternoon. The Com. Exchange Bank refused to pay specie.

At the Stock Exchange, stocks all took a rise under the belief that the banks will all suspend to morrow. Ten o'clock P. M.—It is reported on pretty good authority that the Bank Presidents are now in session and have resolved to suspend.

WASHINGT S CITY. Oct. 13 .- Official information WASHINGT'S CITT. Oct. 13.—Official information has been received that hundreds of persons have left Leavesworth for the purpose of settling on the lands of the Delaware Indians, whose rights the United States are pledged to protect. Instructions will be sent to the Indian Agents in Kansas to enforce the law. If their efforts fail the U.S. troops will be employed to expel the intruders. Only about \$5000 worth of U.S. stock was received to day for redemption, principally from New York brokers.

W. E. CHILDS & CO'S

PATENT ELASTIC FIRE AND WATER-PROOF

CEMENT TO THOSE OF ING.

ARE NOW PREPARED TO CONTRACT AND PUT ON AT THE SHORTEST NOTICE the above Elastic Fire and Water-Proof Compact Rounding. It being the only article yet invented that will successfully resist the action of the attriosphere in cycy climate. IT IS PERFECTLY FIRE AND WATER-PROOF.

IT IS PERFECTLY FIRE AND WATER-PROOF.

Ind in point of durability, we believe it is equal, if not superior, to any Metallic Roofing. We can put it on over Old. The

Tar, Iron or Shingle Roofs, it making no difference how flat or steep the roof may be. This

Roofing is warranted to prove as above represented. We will put it on for

Sta DOLLARE PERSONARE (ZEN PERSONARE)

We will apply it upon Tin and Iron Roofs for TWO DOLLARS PER SQUARE, being on account of its durability the

heavest paint that can be used. We will apply it upon Tin and Iron Roofs for TWO DOLLARS PEH SQUART, using the account of the speed paint that can be used.

28. We invite all who are building, and also those who wish their Roofs Repaired, to call at our office, 133 Third Street, and examine samples and satisfy themselves in regard to the durability and practicability of this Roofing.

J. G. PERRIN,
S. A. JOHNSON,
No. 133 Third street, between Wood and Smithfield,
Pittaburgh, Penna. I have made a chemical examination of some specimens of W. E. CHILDS & COS ROOFING, left at my office, the results of which are as follows:

In the material is compounded so as to remain pliable for a great length of time.

In the material is compounded so as to remain pliable for a great length of time.

In the consistency is not readily influenced by the temperature, consequently it would not be liable to melt and run of the consistency is not readily influenced by the temperature consequently it would not injure it.

On The consistency is not readily influenced by the temperature consequently it would not injure it.

It from the action of the weathed but slightly alkaline. It would not destroy the converse, but on the contrary protect 4th. It is Water Proof, and to a large extent Fire-Proof; that is, sparks and fire brands falling upon it tould not fame. It is my opinion such a roof will last for years if put of carfully and receiving groups stiention.

It is provided in the contraction of the contract

In my opision such a roof will last for yearsifput on carefully and recoiving groups attaining upon it could not faliespectfully,

JOSPHI M. LOCKE, Charmiet,

Laboratory No. 123 Wainut street, Officiansti, Ohio.

Cincinnati Adexic Royal Ins. Co., Feb. 6th, 1867.

I have examined W. E. Childe & Co's Elastic Fire and Water-Proof Coment Roofing, and as far as I can judge, consider
it a good invention, and am willing to insure buildings thus protected upon the same terms as I inch those covered with

metal.
