S. B. CATARACT, BALTIMORE BOROCOM, Missouri River, Oct. 14, 1857.

Messrs. Editors: The election in Kansas has resulted in a most glorious triumph of right over wrong of the people over the usurpes, and of principle over mobrule. The Free State candidate for Congress, Col. Parrott, is elected by 8000 or 9000 majority. We have a large majority in both branches of the Legislature, and the co-organization in all the counties in the Territory but three and in two of the three the proslavery party carried the election not withstanding the great pressure in the money market, and will continue to rise now that the government has come back to the people, and life and property is to be respected and protected by the laws.

life and property is to be respected and protected by the laws.

The pro-slavery party made a desperate effort to bolster up its broken fortunes, the scattered fragments of that miserable old party were got together and the deformed mass was baptized "National Democracy," by which many good men were deceived into its support; but all this would not do; the stinking carcass of the old defunct party could not be cloaked by its new name so as-to get even a respectable vote in Kansas.

name so as-to get even a long transfer who may wish good homes, that Kansas is now free, and that she offers the best field for ladustry and enterprise within the bounds of the Republic.

Very truly, &c. W. Y. R. AMOUNT OF SPECIE IN THE COUNTRY .- I becomes important at the present time to ascer-tain how much specio there is in the country; in other words the amount of that currency

in other words the amount of that currency which cannot be depreciated or in any way disturbed by any explosions. The specio basis of the banks is known to be about sixty millions, and the inquiry turns to the amount in general circulation among the people. On this point the Philadelphia North American says:

We have taken the pains, for our own satisfaction, to look over the official figures for a series of years, in order to approximate a safe opinion upon this subject, and they developsome results of striking interest at the present juncture, which ought to inspire feelings of encouragement even in the most desponding. Notwithstanding the onormous depletion of precious neatals during, the last seven years, it will be seen that the coinage in that period exceeded the exports by an amount almost equal to the whole c image during the proceeding o the whole coinage during the proceeding fifly-eight years

TENTHOUSAND MINERS WANTED:—We hope it will be borne in mind in these "hard times, that the Galena Lead Mines are among the richest and most productive in the world—that the quantity of lead ore is inexhaustible, and only wants the labor "to bring it in sight"—that mineral is worth thirty dollars per thousand in sovereigns as soon as it is on the top of the ground. The suspension of work on all the Railroads in the country, and the general depression of all the great industrial interests, must throw tens of thousands of men out of employment. We say to them all, come out to our lead mines—take your spades, picks and gads, and go to the say to them all, come out to our lead mines—
take your spades, picks and gads, and go to the
wilggings." Within fifteen miles of Galena, ten
thousand men can profitably employ themselves
in mining this coming winter. The prices of
living will be down to the lowest point, and a
miners outfit for the winter will cost but a tritle.
Let no man complain of want of employment so,
long as our hills and valleys abound in lead ore,
only awaiting the hand of industry to be converted into gold.—Vallena Advertiser.

A Biranlar Sentencer for Life.—The trial of John Fellinger, an aged German, charged with-burglary in the first degree, under aggrevating circumstances, was concluded in New York on Friday, the jury rendering a verdict of guilty. The Recorder in passing sentence said that he hat evidence before him that the prisoner had served a long term of imprisonment in Germany for crimes of a similar character; that he was a sotorious burglar; that he had nearly committed two murders, and that it was his imperative duty to prevent such riben from being at large. He sentenced Fellinger to imprisonment in the State prison at hard labor for the term of his natural life. is natural life.

EXPORTS AND IMPORTA.—The foreign-exports for the week ending on Thursday amounted in value to \$374,680. Included in these exports were 20,475 barrels of cour, 26,295 bashels of wheat, 275 barrels of corn meal, 4,442 bushels of corn, and 1,700 hogsheads of tobacco. Of the flour, 13,160 barrels, the whole of the wheat, and of the corn 2,494 bushels, were shipped to Great Britain. We are glad to record this movement of produce as indicative, we hope, of the coming activity in commerce.—Bull. Amer.

Harris' majority......11,352 MIR. CUNNINGHAM IN NEW YORK.—The statement in some of the newspapers that Mrs. Cunningham had left. New York city to avoid standing trial is entirely untrue. Her counsel states that the only reason for non-attendance at court n Tuesday last, was ill health, as the state of he weather would not warrant her going out.— She will make her appearance on the next day her case is called in court.

LOOK AHEAD.—Let no one make up his mind that the present state of things is going to con-tinue very long. Business cannot stop always. It will revive, and now courage and hope take it will revive, and new courage and nope takes the place in men's bosoms now held by despondency or despair. Men cannot and they will not always groan, or grieve, or fret over hard times or saything else. They will arouse and start afresh.

Good news to sugar consumers is at hand by the arrival at New Orleans of the steamship Black Warrior, from Havana, by which it ap-pears that sugar of all kinds had declined still further, and holders will lose heavily. SEVERAL of the manufacturing establishments in Newark, N. J., and vicinity, design recommencing operations this week, and will employ a large portion of their old hands. This is encouraging.

RACY CORRESPONDENCE BETWEEN THE PARSI-DEST AND MR. DOUGLAS.—Little Douglas does not get all the help he wants from head-quarters in his preparations for the next Senatorial elec-tion. He has accordingly notified the President that he has but one relative in office, and that he does not wish the appointment of his father-in-law, Mr. Cutts, to count against Illinois. He complains that he has "felt keenly and deeply the neelect and invistice" of previous administhe neglect and injustice" of previous adminis-trations in this respect. Other States have had a superabundance of spoils, while the ever faith-ful State of Illinois has been put on short allow-spect. He says in conclusion:

ful State of Illinois has been put on short allowance. He says in conclusion:

"Hence I feel bound to say to you, in all frankness and kindness, that any appointments you may make, or person you may retain in office, other than the citizens of Illinois—no matter how near they are to me—must not be considered as any compensation for the omission to appoint such Democrats from this State as I, in common with the rest of the delegation, have or may recommend. I have not yet felt inclined to complain of the apparent neglect of the just claims of this State in the distribution of the parronage under your administration, having patronage under your administration, havin full faith that you would do us justice in th nture appointments.

Mr. Buchanan having, in point of fact, just dismissed Gen. McConnell, the right hand man of Douglas, from a post he held at Washington, and having made nearly all his Illinois appointments in opposition to the wishes of the Sonator, replies to the above in the following decidedly rich and very brief epistle: edly rich and very brief epistle:

WASHINGTON, Sept. 7, 1857.

My Dear Sir: I have received your letter of the 4th inst., by which you seem to apprehend at that should I appoint Mr. Cutts 2d Comptroller, this appointment might be charged to Illinois. You need entertain no apprehension on the subject. Should I make the appointment, which is not improbable, it will be my own individual appointment, proceeding entirely from my re-
