E. RIDDLE & Co.,
EDITORS and PROPRIETORS.

PITTSBURGH:
THURSDAY MORNING, NOV. 12, 1857.

READING MATTER ON EACH PAGE OF THIS PAPER.

We received yesterday morning from one of the Stockholders in the Merchants & Manufacturers' Bank the following report of the Committee appointed to investigate matters in said Bank. The report strikes us as plain and practical, and its conclusions are in accordance with the general public sentiment; but it seems to us to lack directness when it speaks of the liability of a cerisin "party" for the losses incurred by the Bank. The party alluded to is, we suppose, the late President of the Bank, and there should have been no hesitancy in saying so, without circumlocution.

We may add, before subjoining the report, that the Committee reported to the meeting a list of names from which to select a ticket for Directors, to be voted for at the annual election on Monday next.

To the Stockholders of the Merchants and Manufacturers' Bank:

GENTLEMEN—The committee appointed at your meeting of the 3d instant, to make certain investigations, report, That we have examined the principal matters which were prominent in the discussions of the former meeting with as much care as the limited time allotted would permit. The character of the assets of the bank, and especially of those acquired under the arrangement with O'Connor & Brother is the chief subject of interest to you and to the public, and received the largest share of our attention. Although from our examination we believe that some of the paper, not included in the transfer of O'Connor & Brother, is not of that undoubted character we should prefer to find, yet in the main its general standing is good, and we do not apprehend any serious or extensive loss, and we think it would be proper to recommend to the incoming Board of Directors, a thorough scrutiny into the assets, in order to reduce or further secure those liabilities, upon a large amount of paper, dependent mainly upon the same persons and firms.

The liabilities of O'Connor & Brother, by the agreement, are liquidated at $185,000, to be secured by paper and other securities nominally amounting to $215,000. Of this sum, an amount a little over $210,000 has been already delivered to the Bank. It is not possible for us to come to an accurate calculation of the cash value of these assets, but from our examination of their character we may pronounce more than one-half of the nominal sum as ultimately available. Allowing, therefore, a very broad margin for losses, both upon those and the general assets of the Bank, we are led to believe that, while the bill-holders, depositors and other creditors, are undoubtedly safe, the capital of the institution will be unimpaired. We see no reason, from anything within the range of our search, why the large surplus fund of the Bank should not be sufficient to cover all losses, and leave some excess over the par value of the stock.

We are sorry that our examinations have not enabled us to acquit all those who have had charge of the bank from a want of proper care of its interests; but we should be wanting in candor, and in fidelity to the commission entrusted to us, to say that we find nothing reprehensible in the supervision of its affairs, or that we cannot discover any consequent pecuniary liabilities. On the contrary, we think there is much ground afforded by an inspection of the books and accounts themselves, to make it the duty of the incoming Board of Directors to enforce this liability, which, by the arrangement with O'Connor & Brother, is not released as to one party.

We have seen nothing in our researches to lead us to doubt the correctness of the general statement of the Board, submitted at your former meeting, and therefore consider it unnecessary to add further than the expression of our opinion as to the value of the assets, already given.

JOHN BISSELL,
THOMAS BAKEWELL.
GEORGE DARSIE,
GEORGE W. JACKSON,
DANIEL AGNEW,
Committee.

KANSAS STILL BEFORE THE POWERS.—The future political status of the Territory of Kansas yet troubles the powers that be. The great and mighty of the land, such potentates for example as the Governor of Florida, with his immense constituency of eye-gougers, sand-killers, and alligators, speaks oracularly from the executive chair and the Democracy say they are "struck with the force and high tone" of the great State paper of Hon. Madison S. Perry, for that we believe is the said Governor's name.—Of course "the violated rights of the South," the "chivalric sons of the South," the "invaded constitution" and that sort of "high toned" palaver, make up the substance of the Governor's Inaugural. The news of the returns from Johnson county appears to have penetrated as far as Tallahassee, and, without taking into consideration the fact that Walker was obliged to do what was very painful to him, viz: reject the said returns, Gov. Perry denounces Gov. Walker for assuming powers unconstitutional and in derogation of the "rights of the South." He ought also to denounce the "Cincinnati Directory" which was at the bottom of all the troubles in Johnson county.

Next to Gov. Perry comes another power in the land. The Richmond *Enquirer*, whilom the champion of Squatter Sovereignty, thus discourseth:

"This trouble is all the legitimate result of attempting to make, so to speak, "a silk purse out of a sow's ear," of attempting to organize a sovereign State, a law-observing, order loving, Constitution-respecting commonwealth out of a heterogeneous motley of speculators, backwoodsmen, rowdies, and cut-throats. Kansas ought to be ruled with a rod of iron and the strong arm of imperial power for a dozen years yet to come, without so much as a constable being elected by "the people" (God save the mark!) during the whole time. Then the polls might be opened and the people left "perfectly free to frame their own institutions in their own way." Then there might be an orderly, just, and satisfactory settlement of all vexed questions by competent suffrage. There cannot be until then."

That is the Squatter Sovereignty of Francis Joseph, of Austria, and if Slavery demand it, that is the rule the Constitution-loving national Democracy will set up in any and every territory of the Union.

IRISH POTATOE CROP.—By the steamer Canada we have some additional news as regards the potatoe crop, viz:

"It is reported that the potatoe crop in Ireland was very light, the returns being not more than half of 1856, but the superior quality of the new crop over that of last year very largely makes amends for the decrease in bulk. The disease is not so disastrous as was expected."

We also learn that the crop is not so badly injured in France as was at first feared, and in consequence, the edict prohibiting the export of breadstuffs from France has been withdrawn.—The effect of this will be to keep down the price of wheat and corn in England.

ROBBING THE GRAVE.—Martin Quinlan, the city Sexton of Chicago, a Democratic Irishman holding his appointment from the late democratic Mayor of that city, has been detected in rifling the graves of their dead and shipping them off in wagons. He was caught in the very act, nine bodies having been taken up by him in one night to be sold for dissecting purposes. He was sent to jail.

WILL HE GET IT?—Mr. Gardner Furniss, who has gained considerable notoriety from his unenviable and disgraceful connection with the Woodman case, as lately developed in New York, is an applicant to the President for appointment as Secretary of Legation to the Hague. He is said to have very strong supporters among the leading democrats of New York.

THE U. S. TROOPS UNDER ARMS AT THE CUSTOM-HOUSE.—On Monday, Mr. Cisco, Assistant Treasurer of the Sub-Treasury, telegraphed to Washington for authority to use the Government troops on Governor's Island and the marines at the Navy Yard in case of any demonstration of the working men—one of their speakers last week asserting that there were $30,000,000 in specie in the banks and Treasury, to which they were entitled. In reply to this, early this morning 62 of the Government troops, under the command of non-commissioned officers, and 58 marines, under command of two officers, made their appearance, marched up to the Custom-House, and took up their quarters on the ground floors. Their arms were then stacked, and sentinels posted to keep out the crowd. One of the officers remarked that they did not find their quarters very comfortable, in less than twenty-four hours U. S. troops may be expected from Boston and Washington.—*N. Y. Trib. Tuesday afternoon.*

Meetings of the Unemployed.

The workmen out of employment assembled pretty numerously in Tompkin's-square yesterday morning. They are divided into two parties, one supporting the old Committee appointed by them to represent their wants, headed by M'Guire, Noll and others, the others supporting the new Committee appointed for the same purpose on Saturday and repudiating the Committee first appointed, claiming that they are actuated by selfish motives and only want political notoriety. These last are led by D. Gordon Peter Donnelly and the others who formed the deputation which visited the Mayor on Saturday. At about nine o'clock yesterday morning Gordon and Donnelly addressed the crowd, urging them to stand by each other until they obtained the relief which was promised them by the Mayor.

Messrs. M'Guire and Noll also spoke to the people; those opposed to them manifested considerable disapprobation while they were speaking. The burden of their talk was quiet, abstinence from violence (as well as food) and patience until work was obtained. All who really wanted work were invited to sign a paper to that effect. Most of those present refused to sign. "What work have *they* to give us?" said Gordon; "the Common Council haven't done anything yet." After all the leaders had their say the informal meeting was broken up. Many of the workmen, however, still hang around in Tompkins-square, which by common consent appears to be their rendezvous.

About noon the unemployed in the City Hall Park became much more excited than they had been during the morning. They congregated in front of the City Hall, where many of them expressed the opinion that the Mayor had been humbugging them, and that he could give them work immediately, and pay them from the treasury, if he were so inclined. Some of the most violent talked of entering the Hall, forcing the Mayor out, and making him give them work immediately. While these remarks were passing, the numbers in front and on the City Hall steps were increasing. Marshal Stevens, seeing and hearing of what was going on, came out, and told them it was not in the power of the Mayor to give them employment without the consent of the Common Council, and that they had better maintain order until the Common Council could act.

At this time a Brooklyn engine company, with their engines stopped in front, and having stretched their hose began playing upon the City Hall. This had the effect to disperse the crowd into little knots about the Park. Meanwhile, Mayor Wood had sent a requisition for a Police force. Fifty men were sent immediately, and subsequently a larger force. They were stationed throughout the Hall, but their services were not required.

The Committee on Lands and Places met at 2 o'clock, and the Bread Committee at 3 o'clock. From each of these the unemployed had great hopes. Their leaders crowded into the Committee-Rooms, while the rest lay around on the grass smoking their short pipes, or sat on the chains, looking not over anxious as to the results. The meetings of both Boards of the Common Council, at 6 o'clock, served to attract them to these positions until nightfall, when they scattered to their homes unsatisfied.

The officers of the United States Government in this City have taken measures to repel any attempt that may be made by a mob to destroy or appropriate Government property. Some of those who addressed the unemployed last week, it will be remembered, made threats concerning the $20,000,000 in specie said to be in the vaults of the Sub-Treasury. Mr. Rynders, the United States Marshall yesterday informed our reporter that Mr. Cisco, the Assistant-Treasurer, had telegraphed to the United States Government asking to be authorized to call upon the troops on Governor's Island, and the Marines at the Navy Yard, to protect Government property in case of need. Mr. Rynders says if any demonstration is made against any Government property, he will immediately call out the United States troops.

In both branches of the Common Council last evening elaborate reports were presented and adopted upon the Mayor's Message. Both Boards recommended that every possible effort be made to place the public works of the City in such a condition as to give as much employment for labor as possible,—while they discourage any extravagant hopes of aid or relief from the City Government.

A serious split has already taken place in the ranks of the Unemployed. Part of them begin to see that have been merely the dupes of designing party politicians, who are endeavoring to make capital out of their distresses and who care nothing for their misfortunes, and will do nothing for their relief. The ultra communistic notions of the German radicals who have embraced this opportunity to advocate pillage and plunder, have disgusted others of more rational and sober views, who are not disposed thus to be led into adding crime to misfortune and plunging themselves and their families into still deeper wretchedness.

There is to be a grand meeting of them all at Tompkins square this morning, and it is natural to suppose that last night's proceedings of the Common Council will, at the outset, discourage and exasperate them. They have been repeatedly urged by Mayor Wood to await the action of this body, and assumed that it would relieve their wants, and carry his recommendations into effect. These promises have not been kept, at it was evident to every intelligent person from the beginning they could not be.—*N. Y. Times, Tuesday.*

Special Despatch to the N. Y. Tribune.

WASHINGTON, Monday, Nov. 9, 1857. The movements of your hunger mobs produce intense alarm here. Mayor Wood's course is reprobated by the President.

A consultation between the President and Secretaries, respecting the danger in New York, was held this afternoon. The same marines who did such terrible execution here on the 1st of June have been ordered to depart to-morrow morning. All the military officers belonging to the New York station are ordered to return to their quarters immediately.

A despatch has been sent to Gen. Scott requesting him to take efficient measures for the protection of the Custom House and Sub-Treasury.

Troops have been ordered from Boston also, but none from Philadelphia, because similar disturbances to those dreaded in New York are thought possible there.

THE weather having turned cool, and being favorable for the pork business, two of the slaughtering establishments commenced operations, last night. The Cincinnati Chronicle of the 5th says that sixteen hundred head, and had 1,885 in the pens this evening. At another house about 200 were slaughtered. Should the weather continue favorable the business will progress without interruption, the arrivals being fair for the season and a large number having been contracted for delivery this month, they will be pushed forward without delay. The market presented a heavy appearance to-day. A lot of 800 head on the spot was offered at $5,50 per 100 lbs. net, without finding a purchaser. There were buyers at $5,00, and $5,25 would have been paid, perhaps, had the holder manifested a disposition to accept that figure. Packers are generally quite indifferent about operating. There is not, we think, a single eager purchaser in market.—*Cin. Gaz.*

THE figures of the Bank Statement show much the same features as that of the previous week, a large increase in the specie and deposit lines. Our Banks are now abundantly strong enough to resume specie payments were it not for the suspended condition of the Country Banks. A few of them are willing to resume at once, but the rest consider their true policy to be to await the gradual recuperation of the country, and not to resume before 1st April next. The comparison with last week is as follows:

	Loans & Dis.	Specie.	Circulation	Deposits
Oct. 31.....	$95,317,754	$12,883,441	$6,324,748	$93,483,664
Nov. 7.....	95,866,241	16,492,152	6,434,313	99,884,773
Increase.	$548,487	$3,608,711	$109,564	$7,421,109

—*N. Y. Tribune.*

BOSTON BOARD OF TRADE.—The Boston board of trade has had a meeting, at which the repeal of the usury laws and the modification of the banking system, by having only one bank of issue for the State, with the bills based on specie or State securities, were advocated. Resolutions were also presented favoring the forwarding of produce from the West in payment of bills, in view of the present disordered state of exchange. It is stated that money can be had in that city on first class names, with good collaterals, at from one to one and a half per cent. a month.

THE MORMONS PREPARING FOR REBELLION.—A correspondent of a Western paper, in speaking of the Mormons, says:

"I have information from a source which will not admit of a doubt, that the Mormons who have recently left California, took with them nearly eight tons of powder and lead, also a ton of revolvers, all of which had been purchased from time to time in that State, and taken quietly over to Carson Valley during the last six months."

THE reopening of some of the manufacturing establishments in Massachusetts continues. The Iron Works Company, Fall River, started their rolling mill and nail factory on the 2d inst., after a suspension of a few weeks, and the American Linen Works will start in a short time. The Lodi Print Works in New Jersey also expect to resume on the 16th, with some 300 to 500 hands.

AMERICAN ABSENTEES.—A traveller who passed last week one hundred miles by rail, on the Pittsburgh and Chicago road, through Ohio, East of Fort Wayne, expresses himself astounded at the extent of wilderness held by absentees. Nowhere in Canada West, he says, are to be found such tracts of unbroken forest.—*Cin. Gaz.*

POTATOES FOR THE SOUTH.—Several vessels at the wharves in Augusta and at Hallowell, Me., are being loaded with potatoes for the Southern markets. The prices range from thirty-seven cents to fifty cents a bushel, according to the variety and quality.

On Monday last, the Sheriff sold the Philadelphia and Sunbury Railroad, extending from Sunbury to Mount Carmel, or where it intersects the Mine Hill extension. The sale was made by the holders of the second mortgage bonds, and was, of course, subject to the first mortgage, which amounts to $700,000. The property was knocked down to E. S. Wheelen of Philadelphia, who represents the parties interested in the first and second mortgages.

ROCK ISLAND FOR SALE BY AUCTION.—We are gratified in being able to state that the Island of Rock Island will be offered for sale at public auction, at an early day. The Government will give timely notice, so that any persons in this region wishing to secure a slice can have the opportunity. Suits will be instituted against those persons who have been despoiling it of timber, as well as against the squatters who refuse to vacate the premises.—*Rock Island Argus.*

RAISINS have fallen in the Boston market to $2,25 per box for fresh Malaga. Last year, at this time, they brought $4,25, and the consequence was that plum puddings and mince pies were very scarce at Thanksgiving. They may be scarce this season, from another cause. Pumpkins, however, are very cheap in Boston, selling at six to seven dollars a *ton*.

IT was stated on "Change" to day that an English capitalist is stopping at the Broadway, who has *one million of a half dollars* which he has brought to this city to invest at ten per cent. in real estate security. We understand he had numerous applicants to-day.—*Cin. Com.*

THE Harrisburgh *Union* says that the Philadelphia Bank has filed a complaint against the Pennsylvania Bank, under the provisions of the Relief bill, as an insolvent institution.

Special Notices.

Nervousness or Weakness of any kind.—Many of our readers are troubled with Nervousness or Weakness of any kind, they should procure a bottle of BOERHAVE'S HOLLAND BITTERS. We have tried it, and can recommend it confidently, as a medicine giving almost instantaneous relief.—*Daily Enterprise.*

☞Sold at $1 per bottle, or six bottles for $5, by the proprietors, BOLL, PAHE, Jr., & Co., Manufacturing Pharmaceutists and Chemists, Pittsburgh, Pa., and Druggists generally. See advertisement. no6d&wT

Candor compels us, when considering the wants of the afflicted, to recommend that which is best known and tried, and to recommend Dr. J. Hostetter's Celebrated Stomach Bitters, would only be adding to what has already been heralded far and wide, not only by the isolated certificates, but by the people of the land, endorsed by the physicians and the press, that Hostetter's Bitters have no equal in restoring and imparting health to enfeebled men. Ladies and children find this medicine invaluable in many of their ills of debility, to which they are subject, especially during the summer season; in such cases it should be taken in small quantities before meals.

For sale by Druggists and dealers generally everywhere, and HOSTETTER & SMITH, 256 Penn st sel4dawT

To Nervous Sufferers.

A retired Clergyman, restored to health in a few days, after many years of great nervous suffering, is anxious to make known the means of cure. Will send (free) the prescription sought. Direct the Rev. JOHN M. DAGNALL No. 186 Fulton street, Brooklyn N. Y. oc6-3moddaSmwT.

For Deaf Persons.—ACOUSTIC APHRODYNEON—A new invented instruments that enable the deaf to hear in spite of deafness, are in advance of anything yet known, or likely to become of any real service to deaf persons. By means of an artificial drum, the power of hearing is affected, and all the circumstances that attend trumpets and tubes, are entirely dispensed with. They are worn by ladies so as not to be perceptible to others, and are hardly felt when worn. Apply to

DR. KEYSER'S SHOULDER BRACES—From Pittsburgh Dispatch, April 10th, 1856.—For more than 3 years past we have constantly worn the Washington Sus pender Brace, manufactured by Dr. Geo. H. Keyser, of No 140 Wood street, in this city, and would heartily recommend it to all who are compelled to follow a sedentary occupation. As we have before remarked, in calling attention to its merits, it answers for a brace and suspenders, the weight of the pantaloons being so placed as to continually tend to bring the shoulders to their natural position and expand the chest. Women, hundreds of whom are annually injured by the weight of enormous "skirts," should also procure them for that purpose. Be particular in procuring the kind mentioned, as many of the braces sold are humbug. Sold at Dr. GEO. H. KEYSER'S, Wholesale Druggist, 140 Wood st., sign of the Golden Mortar. Je26-dwaF

If you value your teeth and a pure breath, wealthy gumsort, and comfable mouth, go to KEYSER'S, 140 Wood street, and buy a bottle of WARD'S TOOTH WASH and TOOTH POWDER. 1e26-dwaF

TOOTHACHE is instantly cured by a few drops of Dr Keyser's Tooth Ache Remedy. Prepared and sold a the drug store DR. KEYSER, 140 Wood st., Je26-dwaF *Sign of the Golden Mortar.*

THE HEALTH OF AMERICAN WOMEN —For many years I have been troubled with general weariness and languor, both mental and physical; caprice, listlessness, dull headache, pain in the head and small of back, coldness and tendency to stiffness, palpitation of the heart, very easily flustered or excited, appetite variable, stomach and bowels deranged, with pain. Any mental or physical exertion was sure to bring on all the symptoms, and I had to desist from my occupation, or else submit to a great deal of pain. One physician after another exhausted his skill and gave me up. A patient and persevering use of MARSHALL'S UTERINE CATHOLICON fortunately cured me and I have no words sufficient to express my thankfulness
Mrs. JULIA ANNE JOHNSON.

I can truly say that I have been a sufferer for many years with whites and deranged menstruation. After a while I had other troubles, such as pale face, indigestion, wasting away, general languor and debility, pain in the small of the back, a sort of aching and dragging sensation, pain between the shoulder blades extending down the spine, loss of appetite, trouble in the stomach and bowels, with cold hands and feet and dreadful nervousness. The least excitement would make me feel as if I should fly away. I tried doctors and drugs, and everything, one after another, without the benefit. One bottle of MARSHALL'S UTERINE CATHOLICON changed some of my symptoms for the better, and now I am entirely and radically cured. I wish that every woman could know what it will do. CLARISSA OBER.

MARSHALL'S UTERINE CATHOLICON has saved my life, as I verily believe. I tried doctors and medicine until it seemed useless to try longer, when I met with a lady who recommended the Catholicon so strongly that I deemed it my duty to try it. I was mostly troubled with deranged menstruation. My symptoms were principally pains in the back and abdomen, bearing down pain at the time of the illness, bloating, colic, nausea, constipation, feeling as if the back and limbs were bruised or broken, eructations and vomiting anxiety (life seemed to be a burden,) disturbed sleep, faintness, shudderings, fears, fatigue on walking in the morning, faintness, constipation, pressure of blood in the head, dizziness, especially when stooping, great irritability of temper, almost constant inclination to pass water, great restlessness and desire to weep or feel unhappy. I was not only entirely cured myself of all these symptoms, which I have given as an imperfect account of my sufferings, but I have known so many others cured in our town that I feel bound to let you know, that others who were similarly situated may also find relief.
EMMA YOSBURGH.

For a long time I had Uterine complaints with the following symptoms: I was nervous, emaciated and irritable; I seemed to abound in complaints, some of which I will try to give you: pain in the lower organs, and a feeling as if something was going to fall out; inability to walk much on account of a feeling of fullness aching and dragging, and shooting pains in the back, loins, and extending down the legs—the jolting produced by riding caused great pain; spasmodic shootings and pains in the side, stomach and bowels; headache, with ringing in the ears; every fiber of the body seemed sore; great irritability; became nervous, I could not bear the least excitement without being prostrated for a day; I could scarcely move about the house, and did not take pleasure in anything. I had given up hope, having tried everything, as I supposed in vain, but a friend called my attention to MARSHALL'S UTERINE CATHOLICON. I took it, hoping against hope. Most fortunately it cured me, and there is not a healthier or more grateful woman in the country. I trust all will use it. It is truly the woman's friend indeed. SOLOMON MANN.
CARLISLE, Ill., June 25, 1852.

I have used Prof. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming, as I thought, prematurely grey, but by the use of his Restorative it has resumed its original color, and have no doubt permanently so.

A Beautiful Head of Rich Glossy Hair
COMPLETELY PRESERVED
TO THE GREATEST AGE.

AND WHO THAT IS GREY WOULD not have it restored to former color or bald, but would have the growth restored, or troubled with dandruff and itching, but would have it removed, or troubled with scrofula, scald head, or other eruptions, but would be cured, or with stiff headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon and entirely over the head; she continued to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects, therefore, my skepticism and doubts in reference to its character and value are entirely removed, and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or grey (by reason of sickness or age,) to original color and beauty, and by all young persons who would have their hair beautiful and glossy.
Very truly and gratefully yours, SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blandield before I got a bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the worst test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly yours,
SOLOMON MANN.

Prof. WOOD'S Hair Restorative, and have admired its wonderful effects. My hair was becoming, as I thought, prematurely grey, but by the use of his Restorative it has resumed its original color, and have no doubt permanently so.
