PITTSBURGH: MONDAY MORNING, NOV. 16, 1857.

THE GREAT DEMOCRATIC LIE. -No lie, within the memory of men now engaged in the field of favor of Freedom in Kansas. Although often refuted and exposed it has been as often revamped, and many honest men have come to believe it true. It carried Pennsylvania, Illinois, Indiana and New Jersey in 1856, and it has given the nigger Democracy its show of aph in the fall elections of 1857. But at last, the Democracy themselves have furnished cent that puts the question at rest for ver. We refer to the Report of the Committee

Slavery in the Kansas Constitutional Contion, every member of which is a National rat. That report we published the other day, accompanied with the fact that it passed that intensely democratic body almost unaniusly. It is a fair and untrammelled expression Democratic opinion—of a body of Democrats thout the taint of a single member suspected f Black Republicanism, sitting under the probe taken forward by railroad.

the locofoco party are nast or eccusivered any oratified of such an arrangement. The two parties combined, it will be seen, have a majority of 995; but avery large proportion of those who voted for Gardner did it under the assurance that he was an anti-slavery man, and they will not suffer themselves to be transferred like cattle to the shambles of locofocolsm. We have no fears for the result; a Republican will-be elected to succeed Mr. Banks.

GOVERNIMENTAL DUPLICITY.—Not long since President Buchanan issued a diplomatic circular, to be communicated to all European nations, conveying the assurance that this government would not permit any armed bodies of men to depart from its coast with an intention of making war upon any other neighboring people; retinable to Missoury Democrat, writes and solve the prevent him. He was arrested just before sailing, it is true, but immediately released on trifling ball; and although a U. S. vessel was stationed in the neighborhood of New Orleans, ostensibly to prevent his departure, it yet managed not to see him and permitted him to slip by unmolested. This duplicity on the part of our government cannot be hidden from the eyes of the world, and must subject us, as a nation, to universal scorm and coalempt.

Kansas.—The Leavenworth correspendent of the Missouri Democrat, writes as follows concerning the scheme of the bogus Constitutional Convention:

"If this foul play is attempted there will be rouble in Kansas. The people are ready for anything, and if other strokes are planted at their rights and liberties, serious consequences will ensure the convention look to the east of the promisory nation that the average of the sourcer would not have coursed, but no power under the case of the mention of the course of the more of the more of the mention of the part of our government cannot be hidden from the eyes of the world, and must subject us, as a nation, to universal scorm and contents.

will ensue. They are not to be trified with longer. The indignation against the usurpers' convention is deep and wide spread, and too much goading will arouse a thundering storm in the territory that cannot easily be suppressed. The convention look to the next Congress for an endorsement of their proceedings, let them be outrageous as they may. In this they may or may not be mistaken; but of this we are assured, that no power under the canopy of heaven—bogus conventions, congresses, federal governments, or federal bayonets—can force the proposition of Kansas to accept a constitution framed and adopted by such a convention as that which recently sat, in blasphemous mockery, at the banks of Kentucky, Indiana and Ohio have relief their circulation to the extent of cight millions dollars, since the monetary troubles commenced—a terrible contraction and one which fully explains the scarcity of money, especially when it is remembered that the same contraction has been going on everywhere. The orunity is now doing business (or trying to do it) with at least fifty millions of dollars less in oirculation than there were three months ago.—The Price Current expects that the banks will soon re-issue this paper; but this is an expectation without a basis. Banks are like individuals—they will take—care of themselves; and they will not issue paper with the certainty of the score of mismanagement will, it is believed, be developed, and whatever may be the intensive, and stabs. The Rev. gentleman was particularly hated by a few locofook keepers of low and obscure doggaries who have eraded the law and whose business it is to murder. These wretched creatures, leaders of the remnant of "democracy" left there, are supposed to have perpetrated the offence. A reward of \$500 has been offered for the defection of the guilty parties.

Light Breaking on Egypt.—The old-line Whigs of the Egyptian counties of Illinois, who last year went for Buchanan, are beginning to see their error and unite with the Republicans. With a long life of public service, full of honors and usefalness, and with prospects as bright as the sun, and as terrible to his enemies as an army with hanners. W. II. Seward has been damaged and desorted by the folly and apathy of the very men who should have rallied around him and made his heart glad with a Republican victory in this contest."

If the success of the Republicans of New York was so essential to Mr. Seward, why did he not politics, has been so obstinately adhered to as help them to obtain it, instead of cruising away that which said the Democratic party was in mouth during the campaign.

The Newburyport Herald, a rabid hunker paper during the late campaign in Massachusetts, is fast coming to its senses. Speaking of the Re-

publicans, it says "There appears to be no doubt that in a fair contestto-day, they would carry every Statethey did last year, and by quite as large majorities. If the parties can be reduced to two, with the ad-ditional States that will be admitted before 1860, they will be in a negition to stortly content the they will be in a position to stoutly contest the next Presidency."

WAR TO BE MADE ON THE BANES.—The annexed dispatch from Washington City appears in the Philadelphia Prew:

"WASHINGTON, Nov. 11, 1857.

"It is rumored that Mr. Buchanan, is his first annual message to Congress will take bold ground on the currency question; that he will reading the principles laid down so clearly in his celebrated speech on the Independant Teansury bill. He believes that it was the intention of the framers of the Constitution to establish a hard-money currency, and that the laction of Congress since has been a steady departure from that intention. It will be his object to retrace the false steps taken, and to bring the Government back to the true ground."

"The issue will be made in the next Congress since that have the contitutional power to intender the late banks have the contitutional power to intender the late banks have the contitutional power to ground, "The issue will be made in the next Congress should be presented for extend the proposed to have fled and escaped, the flow of the faste banks have the contitutional power to prove the United States. KANSAS.—We find in the Lawrence Republican of the 5th a table of the official returns of the late election in Kansas, so far as they had been received up to the 3d inst., from which we learn that Itansom, Dem., received 324, and Parrott, Republican, 6020 votes, making together 12,450. This is exclusive of the 1500 of the same kind in McGee county, but it includes 500 in Leavemworth county, which are known to be fraudulent, and about 100 in Marshall county, besides many more which have not yet been exposed. It is said that some two thousand Missourians went over the border to vet, which, deducted from the actual total of Ransom, would leave 1824. Out of same thirty counties heard from the Republicans have carried all but Leavenworth, Atchison, Marshall, Johnson, and Bourbon, and as localofficers were elected for each county, they have thus secured possession of all the offices in the great majority of the counties. The free State vote is much less than it would have been, in consequence of large numbers of actual settlers being disqualified from exercising the right of suffrage by the regulations. If they could all vote the aggregate would probably exceed the whole number y polled at the late contest by both sides. As it is, their total will probably reach 9000. LEWIS & EDGERTON.

THE BEGINNING. —In the intelligence, receive ditional States that will be admitted before ISOO, they will be in a position to stoutly contest the next Presidency."

The receipts of wheat at Chicago for the week ending the 10th, were about 1,000,000 bushels, all of which has gone forward by lake. The breaks in the N. Y. canals will, however, put an end to transportation by that channel to the seaboard, and all the grain now afloat will have to be taken forward by railroad.

THE BEGINSING.—In the intelligence, received yesterday, of the destruction of three trains of wagons of the Utah Expedition, by the Mormons, we have the beginning of the disasters which this ill-provided, blunderingly managed expedition is destrided to encounter. Where will be the end 'Simultaneously with the commencement of overt hostilities by the Mormons, the straggling army is menaced by the formidable perils of a mountain winter, their track being covered with snow, their forage becoming scarce, and their animals beginning to give out, in consequence,
