S. RIDDLE & Co EDITORS and PROPRIETORS. PITTSBURGH: TUESDAY MORNING, NOV. 17, 1857. CHANGES FOR THE UNEXPLOYED. - The Chicago Tribune says : We learn from all quarters of the interior not farm laborers were never more in demand "We learn from all quarters of the interior that farm laborers were never more in demand at this season of the year than at the present time. Capt. Schneider, editor of the Staats Zeitsag, of this city, in an article addressed to lais constity readers, offered his services in procuring and sending them such help as they might individually need. Since then he has been overwhelmed with letters from all quarters of the Northwest, which bring his profered services into active use; and we are glad to my shall be has been instrumental in securing sung big ounity readers, offered his services in procuring and sending them such help as they
inglit individually need. Since then he has
been overwhelmed with letters from all quarters
of the Northwest, which bring his profered
iservices into-active use; and we are glad to my

withing the has been instrumental in securing small
withing the help of the security of the se afford, and the man who has other mouths to feed than his own can, by accepting the offer, keep the wolf from his door. Those who do not accept such an offer, when they have the chance, will destroy much of the commiseration that would otherwise be felt for them.

All troubles have their corresponding benefits; and one of the benefits that ought to flow from our present trouble is a change of the cur-All troubles have their corresponding benefits; and one of the benefits that ought to flow from our present trouble is a change of the current of labor from the town to the country instead of from the country to the town. If we lose this benefit we lose nearly all that this reverse should teach us. Hitherto the whole tendency of population has been townward—While the villages, towns and cities have been growing, the country has been either stationary in population or decreasing. Its natural increase instead of being turned to the cultivation, and improvement of the soil, has found its way to the more attractive contres of population—The result is that we find, on the one hand, every profession in the towns overrun with adventurers, and every business brought to the brink of ruin by over-competition and overtrading; while on the other hand the country is suffering for lack of laborers and is unable to produce enough to meet, at reasonable prices, the wants of superabundant consumers. It is time, now, to reverse the rule. The towns are over-peopled, and sught to disgorge their idle, uncompleyed workers into the fields that are waiting and suffering for the work of their thands. We may thus, in time, restore a proper equilibrium between the two.

The individual who, under present circumstances, advises the unemployed to remain in the city, and note oacept profered labor unless it be fully and abundantly compensated as it was previous to the suspension of our Banks and the consequent prostration of all the industrial interests of the city and State, is an enemy of the work workers and an elementary we about 1. watering for him are the Fulton and Saratoga—the latter at San Juan and the former at Chiriterate of the cell yand Sinde, its an enemy of the workingman—a denagogue who should be included and spurmed. The only safe and honest rule in to take work therever you can get it and the country aplarge will be immensely the gainer if the thousands of unemployed can be sindeced not only to go to the country for work but to seitle there and become producers instead of consumers.

Secretary and a sectional vois in the Secretary and the secretary of the sectional vois in the Secretary being being the control of the Secretary and the secretary of the sectional vois in the secretary being and the south of the section and the south will not go anywhere in the analytic producers in the special producers in the section at vois in the secretary protected than another; to see that the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North in his favor. It is no galants him and the North would be consolidated against the South, said the North would be consolidated against the South, and the North would be consolidated against the South, and the North complication are supposed to south were consolidated against the South, and the North would be consolidated against the South, and the North complication are supposed to south would be consolidated against the South, and the South complication are supposed to south would be consolidated against the South, and the South complication are supposed to south would be consolidated against the South, and the Sou the South, and the South consolidated agains the North, which so largely contributed to pu the Democratic candidate into the Presidency is 1856. Sectionalism, or a geographical party, that evil in our system which the patriots of the

the evil in our system which the patricts of the revolutionary era anticipated with dismal fore-todings, and against which Washinorov admonished his countrymen in his Farewell Address. And it would be a sad thing to sectionalize this country on a question like the Oxford and McGotte for and the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the purity of the ballot-box, and in favor of the principle that the majority of the people should rule; for, however men may mysiffy the issue, this is the great principle involved."

All this is very well as a matter of sentiment; yet how is such a state of things to be avoided, if the South chooses, as it doubtless will, to make common cause sgainst Walker? The North would, in that case, be compelled to make common cause sgainst wolker? The North would, in that case, be compelled to make common cause sgainst another is for one or the other to give way; but the South will not, and the result would be a sectional array, growing out of the very nature fore, a sectional array, growing out of the very nature fore, a sectional quarrel is inevitable. And so it must be, so long as silavery continues to be the great question in our politics. In this case, according to the showing of the Press itself, the self-respect of the people is involved in sustaining Gov. Walker. A gross fraud or series of frauds is committed in Kamase, for the purpose of benefitting the pre-alavery candidates for the serifortial legislature and giving that party a majority in it; Gov. Walker shall be cashiered for the fall of the fall and the control of the fall of the fall of the press itself, the serifortial legislature and giving that party and the pression of the fall of the pression of the c evolutionary era anticipated with dismal for-odings, and against which Washingron admordefeats these francis; the South admits the frauds, but inasmuch as they were in favor of Slavery, demands that Walker shall be cashiered for this agency in defeating them; and the North resists the demand from a pure love of fair play. Now, it is not the fault of the North that sha stands alone in such a case; and if the result of maintaining her stands abould be a sectional discontinuous control of the North that sha the fault of the said in bona stands alone in such a case; and if the result of maintaining her stand should be a sectional discontinuous control of the fault of the fault of the Island City Eank, has been arrested on a civil suit, and in the fault of the Island City Eank, has been arrested on a civil suit, and in the James O'Brien, late president of the Island City Eank, has been arrested on a civil suit, and in the James O'Brien, late president of the Island City Eank, has been arrested on a civil suit, and in datally of suits for \$10,000 committed to jail. It is accertained that not over \$100,000 (one-third) of the capital for \$10,000 committed to jail. It is accertained that not over \$100,000 (one-third) of the capital for \$10,000 committed to jail. maintaining her stand should be a sectional division line between parties, the fact may be regretted but cannot be avoided. It grows legitimakely out of the struggle which Slavery is over making for predominancy, and he is not a true man who does not meet it and act upon it, withont regard to the bugaboo cry of "Sectionalism." This absurd fear of Sectionalism in the North therewith for usury.—N. Y. Post.

The Curan Question.—If our Washington continues the most disgraceful to its reputation. Eq., is to be appointed American Minister at Madrid, mainly for the purpose of prosecuting this project which he has so much at heart. Just in this project will be a section. Right is right, always; no matter what lines of latitude may mark the territory of those who maintain it. The fact that in all the South no leading man dare stand up in defence of Gev. Walker is the stronget possible evidence of a spicked and dangerous element in our politics and of the issecsity that falls upon all good cit-(they have none of it in the South,) always and of the ascessity that falls upon all good citirens to combine against it, without regard to the idle gries that may result from the inciden

Mundra is Cosnocros Courty, Onto.—James Filch was murdered on Saturday evening last by Van R. Taylor. The families lived neighbors, and their daughters got into a quarrel in Fitch's doorway, when Fitch, who was chopping wood, ran to separate them, with his are in his hand. Taylor hearing the disturbance ran and seized the axe from Fitch and knocked him down with it by a severe bluw on the hreast, and then with it by a severe blow on the breast, and then gave him another blow on the side of his head which broke in his shull, and he lived only about four hours. Taylor was immediately arrested; and is now lodged in jail awalting his

tal fact that the dividing line between the terri-
