Frank Leslie's New Family Magazine for December, has been upon our table a day or two but we have not until now, had an opportunity of noticing it. It is full of valuable matter of current interest, having a chapter on India, with illustrations. Among them is a bird's eye view of the whole country where this revolution is now raging giving a view of the rivers, mountains, and cities which form the natural features of that great land. This Magazine is of quarto form and contains nearly 100 pages of reading matter for 25 cents each or \$25 per annum.
