WEDNESDAY ...

...AND LIES.—The disturbance which has been created in the democratic ranks by the attempt to force a constitution upon Kansas against the will of its people, is a remarkable political development, and worthy of special note. We have our suspicions as to what the result will be—a yielding of this northern opposition, bold and determined as it seems, and an acquiescence in the demands of the South, for the sake, of course, of saving the Union. Already the *Union*, of this city, which uttered some bold words of protest at first, has caved in and gone over to the side of the administration. So has the Harrisburg *Union*, and the Albany *Argus*, and so, we fear, will they all; but it is nevertheless well to see and know how the land lies,—now, that we may judge the present by the lessons of the future.

The list of leading democratic papers which oppose the Calhoun Constitution, embraces the Philadelphia *Press*, New Hampshire *Patriot*, Buffalo *Courier*, New York *Herald*, Detroit *Free Press*, Chicago *Press*, Louisville (Ky.) *Democrat*, Indianapolis *Sentinel*, Milwaukie *News*, Dubuque *Express*, Springfield *Register*, (Illinois), Pittsburgh *Post*, Toledo *Commercial*, Cincinnati *Enquirer*, and Columbus, (Ohio,) *Statesman*. These are representative papers; many of the smaller cry follow in their wake.

The Columbus (O.) *Statesman* says:

"We have received many letters from active, influential and unwavering Democrats, adjuring us to stand fast by the principles of our party and popular sovereignty, and asking us whether the Democracy will reject the constitution of the twenty-eight traitors when it is presented to Congress. *In reference to our position, our friends may be assured that it is taken for better or for worse, and will be maintained to the last extremity.*"

Col. Forney's *Press* says:

"As yet, there has been no known authoritative enunciation of his (Buchanan's) policy since the adoption of the Calhoun Constitution. What we do know, however, is, that the Democratic party of the free States, so far as we can ascertain their sentiments, are in a large degree inexorably opposed to this Constitution. A recent visit to our native county of Lancaster, and the adjoining county of York, and a sojourn, of several days in each, among the substantial people of those counties, as well as an intimate knowledge of their sentiments, induce us to declare that on this subject there is scarcely to be found a dissenting opinion."

Hon. S. S. Cox is the Congressman from the Columbus (Ohio) district. The *Statesman* says of him:

"*Mr. Cox assures us that he has had the fullest communication with his constituents, and he does not found a single Democrat in favor of admitting the State under it, until it has been fairly and fully submitted to the people—a fact of which we are perfectly and unmistakably assured.*" This is decisive. There can err ignorantly—no mistake can be made, by any true friend of popular sovereignty, from the East, West, North or South."

Concerning Mr. Douglas, the Chicago *Journal* says he left there on Wednesday night, "full of wrath and fury at the course of the Administration, and with an openly avowed purpose to oppose the doctrines enunciated by the Washington Union to the bitter end."

Perhaps so; but we shall wait for better evidence of this unexpected honesty on the part of the Senator. We incline to believe that the following, from the Chicago *Press*, is a fair guess at the purpose of the little giant:

"Prior to that gentleman's departure from this city, he summoned his leading journalists to a private interview in which he doubtless instructed them to keep comparatively quiet until further orders. Mr. Douglas is a candidate for the Presidency in 1860, and also for re-election to the Senate by the next Legislature. He goes to Washington, first, to drive a trade for the former office. If successful in that, the other becomes of but secondary consequence, and he will run the chances of getting that as matters stand. Mr. Douglas is ready to force to the ledge of his agent in Kansas, Calhoun, and give his adhesion to the Lecompton Constitution, provided Mr. Buchanan, Mr. Cobb, and other aspirants for the Presidency in 1860, will give way to his claims. If they will not do so, then Mr. Douglas is ready to set up in opposition to the Administration, to unite with the Republicans and the *clergy* (think of him kicking the Lecompton constitution out of Congress, and referring the whole subject back again to the people of Kansas, as the means most likely to secure his return to the Senate. The fact that Mr. Calhoun, the warm, personal and political friend of Douglas, headed the triumphant party in the Lecompton Convention, and that the *Times* and *Sun-Dispatcher*, the Senator's well known organs in Illinois, have denounced the action of that Convention, place by him, Douglas in a position to go either way as his personal interests may seem to demand. That he will be influenced by no higher consideration than this, his past history fully demonstrates, and that he has labored to put matters into their present shape for the express purpose of making capital for himself, no one who knows him well will doubt."

The *Pennsylvanian* makes steady war upon the *Press* and its confrères in this fight, denouncing them as Black Republicans and all that sort of thing; while the Washington *Union* assails them as factionists and cracks the whip over them as refractory slaves who can be chastised into obedience. The administration is evidently a good deal alarmed at the tokens of rebellion; but still entertains the conviction that it can force all the rebellious into the party traces. Let us wait and see.

THE HARPIES.—In the old books which by right of antiquity the world calls "classic," the tale of the Harpies is related. Terrible birds were they, of dire aspect—most hideous to behold. They were not less filthy than greedy, and whatever they left of their plunder was so sadly befouled that only dire necessity could ever force the hungry victim of their rapacity to partake of. The feast was spread; the guests invited; the bowls of wassail crowned with flowers; the voluptuous guest already reclined on his cushion of rare workmanship; music filled the air; the old singer with his harp foretold the glories of the future and recounted the deeds of the past. But as soon as the favored voluptuaries stretched forth their jeweled hands to the repast, the air grew dark with the rush of flapping wings; the devourers covered all the scene with their terrible presence, what they wished they took; what they did not desire they spoiled.

The ancient Harpies were mythical but nevertheless representative. They have kept their progeny in full life through many generations. The latest exemplification of their power which we have seen is that which the South has afforded to the dough-face locofoco organ-grinders and time-servers that disfigure the face of society in almost every city and town of the free States. How were they bidden to the feast of popular sovereignty one year ago! The tables were spread and the viands prepared, when, lo! today the Harpies descend and despoil the feast. True, it was in the beginning one of bitterness, but it had been spread with such taste and sweetened so with places of delightful ease that at last all came to the banquet content. The Harpies have already devoured the choice bits and left the poor creatures that still linger disgusted about the board to pick up what few crumbs they can manage to swallow. The wry faces with which this is performed are more amusing than painful to behold. The despoiled rights of an innocent people, torn, plundered and outraged, are already called by some name euphonious, and swallowed with concealed grimaces but with feigned delight. The Harpies from the land of fillibusters and plunderers have taken their fill, and, worse even than those of old, cram their own disgusting leavings down the throats of those who would like to look on only. Now, let the poor wretches who are obliged to eat what Harpy Toombs and his satellite, Buchanan, have defiled for 'em, go on and stuff themselves with the food which not even swine would eat without pain. To us it will be pleasant to see them do it.

A FATHER AND SON SENT TO THE NEW YORK STATE PRISON.—The Buffalo *Commercial* says that in that city, on Saturday, a young man by the name of Halsey Woodworth was sentenced by Judge Sheldon to Auburn for the term of six years and six months, for passing counterfeit money. But a week before, his father was sentenced to the same prison for two years and ten months, for burglary.

WASHINGTON, NOV. 30, 1857. The disagreement between the President and Gov. Walker is confirmed. All the interviews and intervention resulted in no approximation of views, each insisting on his original position. Gov. Walker considers the suggestion made to vote on the Slavery clause, and then refer back the remaining part of the Constitution by an act of Congress, as compromising the question and aggravating the difficulties. He is in favor of meeting the issue in the present form, and avows the purpose of opposing its acceptance with all his influence. The President is equally determined to sustain the Convention, regarding it as the most practical mode of reaching the conclusion. He will make it a test in the party.

The forthcoming Message will emphasize these opinions, the President being encouraged thereto by the promise of the united support of the South. He will not remove Walker, being content with censuring his position. Walker will not resign, but will remain here to contest the point before Congress.

Senator Broderick openly avows his general opposition to the Administration, and letters from Senator Douglas look in the same direction, with qualifications. He will reach here on Tuesday and speak for himself.

An attempt may be made to introduce Kansas into Democratic caucus before proceeding to nominations for Speaker and Clerk, owing to the unexpected case the issue has now assumed.

The list of leading democratic papers which oppose the Lecompton Constitution, embraces the Philadelphia *Press*, New Hampshire *Patriot*, Buffalo *Courier*, New York *Herald*, Detroit *Free Press*, Chicago *Press*, Louisville (Ky.) *Democrat*, Indianapolis *Sentinel*, Milwaukie *News*, Dubuque *Express*, Springfield *Register*, (Illinois), Pittsburgh *Post*, Toledo *Commercial*, Cincinnati *Enquirer*, and Columbus, (Ohio,) *Statesman*. A DREADFUL SPECTACLE.—It will be remembered that the Russian line of battle ship Lafort lately capsized at noon day in the Bay of Finland, carrying down twelve hundred persons, of whom nearly four hundred were females. A writer in the London *Times* from St. Petersburg, says:

"Such persons as were on deck at the time were of course at once washed away, but the divers found no less than 1,100 corpses in the cabins, lower decks, and in the hold of the vessel, all clinging to some portion of the timbers of the ship, or to each other. The horror of the fearful sight appears to have been aggravated by the circumstance that the bodies were already far gone in decomposition, and, with few exceptions, the eyes were widespoon and glaring. The effect of this dreadful spectacle on the divers was such that one of them was totally unable for many days to recount the ghastly scenes he had witnessed down in that hive of putrefying corpses, and on his persistent refusal to repeat his visit there, was sent home."

OUR PRODUCE EXPORTS.—From Jan. 1st to Nov. 27th, 1856, our exports of produce from New York amounted to $145,313,003; during the same period this year they were only $23,768,783, or about one-half. Flour shows a falling off of one-half, Wheat two-thirds, and Pork falls off in still greater proportion. Look at this table:

	1856.	1857.
Cotton	$ 9,236,955	$2,244,367
Flour	18,824,579	5,618,116
Wheat	12,973,386	4,277,616
Corn	2,898,284	1,668,802
Corn Meal	266,695	179,521
Rye Flour		13,557
Beef	971,792	793,781
Pork	5,146,422	978,183
Grand Total	$46,313,002	$23,768,782

Those who think we are going to pay our debt to Europe in produce would need to consult a table thoroughly.

A FEELING of profound regret pervades the business community of Philadelphia at the announcement of the long continued and well-known domestic commission house of Thomas & Morris have suspended. This was the oldest domestic commission house in that city, and passed firmly through the crisis of 1837. Mr. Thomas retired from the firm some years ago upon an ample fortune, and subsequently became President of the Commercial Bank, in which position he remained until his death. The business of the firm has been continued by Mr. James Martin, with whom the superior credit enjoyed by the firm continued undoubted up to the present suspension. This, we learn, has been brought about by the utter impossibility of making sales of an immense stock of goods on hand, upon which acceptances are running to maturity, and a wise determination not to make sacrifices for money outside of the regular channels. Mr. Martin is a prominent member of the Society of Friends, and no name stood higher or was better known in monetary circles in Philadelphia.—*N. Y. Trib.*

THE ENGLISH LANGUAGE.—The Dublin University Magazine says:—"Dictionary English is something very different not only from common colloquial English, but even from that of ordinary written composition. Instead of 40,000 words, there is probably no single author in the language from whose works, however voluminous, a ten or ten thousand words could be collected. Of the 40,000 words there are certainly many more than one-half that are only employed, if they are ever employed at all, on the rarest occasions. We should not, any of us be surprised to find, if we counted them, with how small a number of words we manage to express all that we have to say, either with our lips or even with the pen. Our common literary English probably hardly amounts to 10,000 words; our common spoken English hardly to 5000."

THE Cincinnati *Commercial* says that suits were commenced in the United States Circuit Court on Saturday, by the heirs of Leeds & Co. of New York, against eight Banks of that State for the recovery of various sums of money amounting in the aggregate to $397,000 for drafts in that amount endorsed by them, which were drawn on E. Ludlow, Cashier of the Ohio Life and Trust Company Bank, and made payable to their order, and also for money advanced to their friends—the drafts being unpaid at maturity. The Banks sued are the Bank of Xenia, Ross County Bank, Bank of Marietta and the Mad River Valley, Chillicothe, Logan, Athens and Piqua branches of the State Bank.

THE financial pressure is materially affecting the interests of the shipping men on Cape Cod. The Barnstable *Patriot*, in an Editorial on the subject, states that not less than $460,000 worth of oil is now stored at Provincetown, awaiting purchasers. The very low prices of fish, unparalled for several years, and the difficulty of knowing whom to trust in these times of mercantile peril, almost entirely withdraws buyers, and keeps back large dues from fishermen and their families.

A CURIOUS will case is pending in Dallas Co., Ala. Ephraim Pool, last summer, died after a short illness, but procured the services of a friend to draw his will. By that instrument he bequeathed a fortune of $60,000 to two mulatto women and their children, his own offspring, and gave the drawer of the will a negro for his trouble, besides making him sole trustee, with direction to send these slaves to a free State. The heirs of Pool contest the will on the ground that he was of unsound mind.

MANUFACTURE OF COTTON SEED.—Oil for illuminating purposes, made from cotton seed, has been introduced into this vicinity, and is much preferred to whale oil. Its cost at retail is about $1.25 per gallon. This oil is manufactured at an establishment in Providence. The hulls of the seed are first taken off, and these are made into sheathing paper, while the remains, after pressing for oil, make a good article of oil cake for cattle. Thus the hitherto useless cotton seed is converted into three useful articles.—*Woonsocket (R. I.) Pat.*

"HOW JURORS ARE SELECTED.—In a trial in New York in an insurance case, it was found in the course of the proceedings that one of the jurors did not understand a word of English. It appeared that a brother juror interpreted the evidence for him. A citizen's hold upon the property he has acquired by his industry must be very slight, when it is called into question in a court where such things can occur.

Another Pittsburgher testifying to the wonderful curative powers of Boerhaave's Holland Bitters.

Mr. Jacob Wertz, Third street, below Market, says:

"For a year past I have been afflicted very severely with anything; I have tried almost every remedy, and the regular men of several physicians, but without alleviation, until I found relief almost unexpectedly to a cure. I found it effectual in removing the extreme debility occasioned by this disease, and generally as a tonic it has few equals and no superiors."

Dr. KEYSER'S SHOULDER BRACES—From Pittsburgh Dispatch, April 10th, 1856,—For more than 3 years past we have constantly worn the Washington Suspender Brace, manufactured by Dr. Geo. H. Keyser, of No 140 Wood street, in this city, and would heartily recommend it to all who are compelled to follow a sedentary occupation. As we have before remarked, in calling attention to its merits, it answers for a brace and suspenders, the weight of the pantaloons being secured as to continually tend to bring the shoulders to their natural position and expand the chest. Women, many of whom are annually suffering the weight of enormous "skirts," should also procure these braces. Be particular in procuring the kind as Dr. GEO. H. KEYSER'S, Wholesale Druggist, 140 Wood street, sign of the Golden Mortar. Price 25 cents.

For Deaf Persons—ACOUSTIC ARTICLES.—These entirely invented instruments that enable the deaf to hear in spite of deafness, are in advance of anything yet known, or likely to become of any real service to deaf persons. By means of an artificial drum, the power of hearing is affected, and all the circumstances that attend trumpets and tubes, are entirely dispensed with. They are worn by ladies so as not to be perceptible to others, and are hardly felt when worn. Apply to

DR. FITCH IN PITTSBURGH.

On and after WEDNESDAY MORNING, Dec. 2 through the Months of DECEMBER and JANUARY,

DR. CALVIN M. FITCH

May be consulted at his Rooms at the

ST. CLAIR HOTEL, PITTSBURGH, PA.,

On TUESDAY, WEDNESDAY, THURSDAY and FRIDAY of each week; but except in cases of emergency no calls will be received on MONDAY and SATURDAY of each week, to the extent of his correspondence and other necessary writing rendering it impossible that DR. FITCH should leave those days to himself, without interruption.

DR. FITCH would earnestly remind those who may be laboring under incipient or seated diseases of the Throat or Lungs, of the importance of giving themselves timely attention, as it is only when taken in season in the time that these diseases can be treated with any just hope of success, and the delay of a few weeks will not unfrequently render hope nearly fatal, as otherwise curable cases.

DR. FITCH would also add that as he is accustomed to deal frankly with his patients, he need only say who are afraid to learn their true condition, the actual state of their lungs, and their probable chances of recovery.

An Infallible Cough Remedy.—I had been sick three months, not able to do anything, with a cough and muffled condition of the windpipe; I tried several of the best physicians in this city without receiving any benefit, many of them said my lungs were affected. I was confined to my bed during the greater part of this time, I expectorated a great deal of matter from my lungs. The first two doses of your Pectoral Syrup that I took, I could not take without laying down in my bed, but before I had taken two bottles I was entirely cured. I have been well ever since. My sickness commenced about the first of March, of this year. I am now, and was at the time of my sickness, living at Thomas Patterson's, in Union street, near the Diamond.

THE HEALTH OF AMERICAN WOMEN.

For many years I have been troubled with general weariness and languor, both mental and physical; caprice, listlessness, dull headache, pain in the head and temples, coldness and tendency to stiffness, palpitation of the heart, very easily fluttered or excited, appetite variable, stomach and bowels deranged, with pain. Any mental or physical exertion was sure to bring on all the symptoms, and I had in addition, fullness of the womb, and great pain in that region. One physician after another attended me. That I gave no ear to a patient and persevering use of my SIMMONS LIVERWORT AND CATHOLICON fortunately cured me and I have no words sufficient to express my thankfulness.
Mrs. JULIA ANNE JOHNSON.

I can truly say that I have been a sufferer for many years with whites and deranged menstruation. After a while I became very irritable, as I said before, indigestion, wasting back, heart and sinking and dragging sensation, pain between the shoulder blades extending down the spine, loss of appetite in the stomach and bowels, with cold hands and feet and dreadful nervousness. The least excitement would make me feel as if I should fly into a thousand pieces. I took doctor's medicine everything, one after another, without the benefit. One bottle of MARSHALL'S UTERINE CATHOLICON changed some of my symptoms for the better, and now I am entirely and radically cured. I wish that every woman could know what it will do. CHARISSA GARDNER.

MARSHALL'S UTERINE CATHOLICAN has saved my life, as I verily believe. Skilled doctors and medicine until it seemed useless to try longer, when I met with a lady who did by me as I would do by my own sister, and I found it my salvation. My symptoms were a perfect Pandora's box of misery, such as pain in the back, bearing-down pain at the time of the issues, headache, constipation, feeling as if the back and limbs were bruised or broken, sympathetic and vomiting sick, sinking, faintness, fatigue on walking a little distance, dizziness, especially when stooping, great irritability of temper, almost constant inclination to pass water, great restlessness and dislike to see or feel company. I was not only entirely cured myself of all these symptoms, which I have given an account of my sufferings, but I have known so many others cured in our town that I feel bound to let you know that others who are similarly situated may also find relief.
EMMA VOSBURGH.

For a long time I had Uterine complaints with the following symptoms: I was nervous, exhausted and irritable; I was subject to spells of pain, and which I will try to describe. The pain was in the right organs, and a feeling as if something was going to fall out; sometimes I felt as much on account of a feeling of fullness, aching and dragging, and shooting pains in the back, loins, and extending down the legs. The jolting produced by riding caused great pain; also headache, with nausea and pains in the side, stomach and bowels. I was troubled with the same; very fleet of the body, of mercantile peril, almost entirely withdraws buyers, and keeps back large dues from fishermen and their families.

A CURIOUS will case is pending in Dallas Co., Ala. Ephraim Pool, last summer, died after a short illness, but procured the services of a friend to draw his will. By that instrument he bequeathed a fortune of $60,000 to two mulatto women and their children, his own offspring, and gave the drawer of the will a negro for his trouble, besides making him sole trustee, with direction to send these slaves to a free State. The heirs of Pool contest the will on the ground that he was of unsound mind.

MANUFACTURE OF COTTON SEED.—Oil for illuminating purposes, made from cotton seed, has been introduced into this vicinity, and is much preferred to whale oil. Its cost at retail is about $1.25 per gallon. This oil is manufactured at an establishment in Providence. The hulls of the seed are first taken off, and these are made into sheathing paper, while the remains, after pressing for oil, make a good article of oil cake for cattle. Thus the hitherto useless cotton seed is converted into three useful articles.—*Woonsocket (R. I.) Pat.*

"HOW JURORS ARE SELECTED.—In a trial in New York in an insurance case, it was found in the course of the proceedings that one of the jurors did not understand a word of English. It appeared that a brother juror interpreted the evidence for him. A citizen's hold upon the property he has acquired by his industry must be very slight, when it is called into question in a court where such things can occur.

Prof. O. J. Wood & Co.—Gentst Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to-day we were compelled to send to Boston for a quantity, (the fifteen you forwarded all being sold,) which we filled under a quantity from you. *Every bottle we have sold seems to have produced three or four new customers*, and the approbation, and patronage it receives from the most substantial and worthy citizens of our vicinity convince us that it is A MOST VALUABLE PREPARATION.
Send us as soon as may be one gross of $1 size; and one dozen $2 size; and believe us yours very respectfully,

HICKORY GROVE, St. Charles Co., Mo., Nov. 19, 1856.
PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.
Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The baby ing his sufferings, advised us to use your Restorative, we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say, that our boy, has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the sc and hair. We are, yours, respectfully,
GEORGE W. HIGGINBOTHAM.

GARDINER, Maine, June 22, 1855.
PROF. O. J. WOOD—Dear Sir: "I have had two bottles of Prof. Wood's Hair Restorative, and can gratify say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was a man of seventy. My hair was entirely gone, and I was completely bald. Now I can recommend it to the world without the least fear, as my case, was one of the worst kind. Yours respectfully,
DANIEL L. MURPHY.
