A "bill of rights" when just, is valuable, because it is off and is better than a new declaration." Our North-western Synods are anchoring on the ground taken in 1818, that they may not be drifted South, by the pro-slavery current that has set in; nor steered thither by pillots who have got on board the Presbyterian ship since that time.

Permit the insertion of a paragraph, but yet a small part of the document re-affirmed by the Synod recently, which is as follows:

"From this view of the consequences resulting from the practice into which Christian people have most unresistingly fallen, of enslaving a portion of their brethren of mankind—for the face of the earth—it is manifely the duty of all Christians who enjoy the of slavery, both with the dictates of humanity agreed a fastery, both with the dictates of humanity agreed a fastery, both with the dictates of humanity agreed a fastery, both with the dictates of humanity agreed a fastery, both with the dictates of humanity agreed a fastery, both with the dictates of humanity agreed the faster of the document receiving any beach, and the faster of manifeld for the face of the earth—it is manifeld for the face of the earth—it is maintained to the present day, when the inconsistence of slavery, both with the dictates of humanity agreed the faster of the document received as the continuous and the state of the document received as the continuous and the properties and the first care there are the present day to the faster that the properties and the distance that the present day to the faster that the present day that the properties and the misse, Litt WILL INSURE AGAINST ALL KINDS OF · NO. 191 PENN STREET, Marine and Inland Risks. \$1,712,7 Washington, Dec. 10.—The action of the President in removing Secretary Stanton, of Kansas, creates a daw storm among the Doug Insites. The fire-enters of the South are quite indignant at Stanton, and, it is rumored, that they agreed, in informal meeting, to keep Minnesota out of the Union, unless Kansas can be admitted with the Lecompton Constitution. They see plainly, what is generally conceded here, that the assembling of the Territorial Legislature of Kansas will destroy, to a great extent, the Kansas programme of the Administration, and they are very much pureled to know what course to pursue. In addition to passing an act to submit the two Constitutions to the people, the Legislature of Kansas will organize Thre old principle of English law, that "no Delaware Mutual Safety Insurance Company, lisposition to meet with prompiness all liabilities.

In addition to passing next to submit the two Constitutions to the people, the Legislature of Kansas will organize the militis of the Territory, and provide for such protection of voters at the polls as will defeat many of the designs of the pro-slavery men.

A letter was received from Governor Walker last evening, by his wife, announcing that he would arrive here this evening, when it is understood that he will issue the Address to the People of the United States.

The Kansas polloy of the President, announced in his Nessage, his removal of Stanton in Kansas, and failure, thus far, to send the nomination of Gov. Walker to the Senate for confirmation all contribute to create a storm in the Democratic ranks which induces the general buffer that a split in the party is inevitable. The precise character of the division cannot, of course, at this early moment, be defined. It seems to be the general impression that Mr. Douglas has cut himself loose from the Democratic party.
