A CABINAT OF CURIORYTES. For the first time in the history of this nation, the Cabinet at Washington is enabled to present to the country the rare speciacle of a conclave of political ucksters. Astonishment is lost in contempt while one candidly and coolly reads the letters

Messrs. Cobb, Brown, Toucey, Cass, Black, c., flanked by a weak distribe from poor Bigler, to the late meeting called and held at Phila-delphia, to endorse the new position of the adinistration in this Kansas swindle. Cabinet officers coming down from their high position to bandy epithets, to scold and threaten and prombandy epithets, to scold and threaten and promise and beg before the country; to disclose at the gatherings of short boys and shoulder-strikers, led by their fuglemen, men of the "first respectability," the policy of the administration for the future of the fuglement of the discount of spectability," the policy of the administration

By order of the City Committee.

Russent Ennert, Chairman.

To-morrow our city election.

To-morrow our city election takes place. The Republicans have nominated full and good tickets in each ward and the rate of the resurt and the classes. The Cabinet thus chooses to bandy epithets searcely tolerable on the political rosarum, or in the partizan press. What good can come of this departure from dignity, and from the stern path of duty to which it is right—a right which will be asserted—to hold those occupying high places in the public affairs of the whole power to appoint vigilance committees and to make all needful rules and regulations for the Eleption. We trust these committees will carry out faithfully the purposes of their appointment. Let them all be at the polls to-morrow, and see that everything is done which the occasion de-

One day, only, is left for labor. Whatever is to be dore, let it be done to-day. Close up the ranks; send the word of cheer along the line; are all right, and then, with a heart-stirring hurrah! rush on to victory.

Mr. William J. Monnisor, we understand, is electioneering actively and claiming support from the old-line whigs on the ground that he was, a few years ago, an active Whig. He forgets the old proverb that "one renegade is worse than then Turks;" and that if there is one thing an old whig is slow to forgive, it is that of treachery to whig principles by embrasing jecofocolem. The old whige who were ealisted for Fremont in 1856, will not forget that "My. J. Monnisor was an aid to the Chief Marshal of the Torch Light procession which came off on Sept. 10, 1856, and that he was himself Chief Marshal of the Torch Light procession which came off on the night of that day. They cannot fail to remember the insolent and pro-Chief Marshal of the Torch Light procession which came off on the night of that day. They which came off on the night of that day. They cannot fail to remember the insolent and provoking banners carried in that procession—banners insulting to every Henry Clay whig and borne by those who had been the bitterest foes of the whig party. Mr. Morrison gave all his aid, then as now, to those who had been life-long revilers of Clay, and united his effects with theirs willing Buchanan.—Louisille Jour. to defeat principles dear to every member of the whigs Party in Pennsylvania. No true man who modore Paulding in his scizure of Walker, and

our excellent Candidate for Controller, has been detained at home by illness for a week past, and in like locofoco opponents have taken advantage of the fact to circulate, from mouth to mouth, such stories as they think will allenate votes from him the fourth story into the cellar, a distance of them alories if that he with the first part of them. such stories as they think will alienate votes from him. One of these stories is that he voted for Buchanan is 1800. This wo know to be untrue. In that campaign he was an ardent Fremont man, and contributed liberally to carry on the campaign. The other story is the old one revived, the vac used so industrously against Fremont that was used so industrously against Fremont that was used so industrously against Fremont that was used so industrously against Fremont the control of the value of \$1,421,291; \$,150,000 places in copper, value \$18,800. The aggregate deposits were \$1,007,400. campaign. The other story is the old one revived, which was used so industrously against Fremant—to wit, that he is a Catholic! This stale and exploded trick is industriously played by the locofoco schemes. It is hardly necessary, we suppose, to give it a denial; but if our emphatic suppose, to give it a denial; but if our emphatic suppose, to give it is needed by any, we freely
