Free State men and Free State and poll 1200 votes, but 256 were polled, of which number 220 were for the "Constitution with Slavery." Free State men and Free State and consorrative pro-slavery Democrats refused to vote. At Kickspoo ten hundred and seventeen votes will be returned. This point is notorious for frauds, and cannot legally poll at any time 400 votes; it is almost unanimously pro-slavery—near Weston, Missouri, which is quite a town, and it is ascertained that many voted at least a half dozen times." It will be observed that both these extracts speak of Kansas as invaded "again." It is just coming out, then, through the truth umns of Democrat joursimply a shameful and de-

HARRISBURG, Jan. 4th, 1858.

Eds. Gazette: The democrats have already given notice to the members of the party in the nouse that they will meet in cancus to night at 7 P. M. The Republilans in the same body have called their cancus for 7 P. M. The meethave called their caucus for 71 P. M. The meeting of the former will be however but to confirm what is already agreed upon so far as the three principal offices are concerned in the House. Longaker is already known will be nominated for the speakership, Zeigler for clerk and Glassmeyer for sergeant-at-arms. The struggle after the minor offices will be intense. Each member will have one candidate at least for a particular office.—Many a young and ardent democrat will come hither believing that the member representing his particular district is competent to perform almost whalever he chooses—a kind of Mr. Buchanan on a small scale. The hope of office which he based upon this idea he will find only too late, to have been an illusion. They will return home wiser if not better men. At least they will return with depleted purses—for there is no place on earth where money vanishes more rapidly and more unaccountably than in this By the returns of the election held yesterday, which will be found in our local columns, it will be seen that Mayor Wrayer is re-elected by 1200 majority, and that we have elected our ther city officers by 800 and 900 majority. I am able to announce with entire certainty the chief rebuke to the recreant democracy. The Republicans have swept the city. They arry both branches of Councils by large maisting and have swept the city. They sarry both branches of Councils by large maisting and have swept met of their ward. Secretary of State; Judge Knoz of the Surreme The Republicans have swept the city. They carry both branches of Councils by large majorities, and have carried most of their ward tickets.

It was impossible to get full returns before going to press. We give such as we were able to get.

"Bekending Kansas."—The so-called Demoratic papers are becoming quite worful and "riedions" on "bleeding Kansas." The Poit and Union must have become very wearisome to their readers within the past few weeks! In the fall of 1856, "Democracy" became nervous and disgusted on the subject, when there was vasily more that was worth saying than at present. At this time, however, so bravely are the tables turned that all the toothsome stories about Kansas, "he bitterest criminations and recriminations in reference to it come to us through "Democratic" sources. Who discuss the question on the floors of Congress but the "peaceable" Democracy? Not one word from a Republican Senator yet this session! They sit by and see the storm raging among the opposition. Men who have heretofore had no bowels of compassion suddenly become meriful. The Belfast in the floure, the bolt may result in dividing and desenator yet this session: They sit by and sect the atorm raging among the opposition. Men who have heretofore had no bowels of compassion suddenly become merciful. The Belfast (Me.) Journal, an administration hack, says:

"We do not forget that at the time when there was an armed irruption of Missourians stealing the ballot-baxes and cutting the threats of the people in Kansas, Mr. Douglas found nothing to complain of, nor did Mr. Forney, of the Philadelphia Press. We find, however, that not only these, but many others, who regarded as nothing all that transpired under Pierce's administration, are now fearful that Kansas is to be wronged."

The change in the two distinguished individuals mentioned is no greater than in the Journal titself. It never learned during the whole of

itself. It never learned during the whole of Pierce's administration what it declares "we do not forget"; nay, it branded the story of the "irruption of Missourians" as a "Black Republican lie."

Again, with regard to the very last election that of the 21st of last month: we had read a good deal in the Tribune and other "lying" sheets about frauds upon the ballot-box, and invasions of pro-slavery ruffians from Missouri, but of course could not believe them so readily as when we found them in the Cincinnati Enquiver, a thorough administration paper. Hear it, through its Lecompton correspondent, under date of Dec. 21:

"Kansas has again been invaded by large numbers of Missourians—they have voted here and elsewhere; the result has been, unquestion ably, to give a large nominal vote to the Constitution with slavery." That sinh has been the case none can'deny. Your correspondent found, in passing last week through Missouri, the county papers virtually advising the people of Missourians concern large numbers, have heard them confess that they voted, have heard others say that they had been solicited to do so frequently, and that cagalization had been effected with reference to doing so."

Then U. S. Senate.

The decay and corruption of the Democratic party, is more apparent in the U. S. Senate, than any where elso. In former years that was the mory here elso. In former years that was the many where elso. We are glad to see that manufacturers throughout the country are recommending operations. The Suffolk Steam Cotton Mill at Sag Harbor, the mill of Flunkett, Clapp & Co., at Pittsfield, the Fontoosuo Woolen Mill, the Bates Mills and the paper mills of Owen & Huriburt, have all been started again, much to the relief of the operatives who were thrown out of employment.

Lavours of Day Goods.—It appears by a statement in the Journal of Commerce that, the total imports of dry goods at New York for the past year is \$90,034,129, being \$2,823,764 less than for the year 1856, but \$25,560,007 more than for 1856, and \$9,091,193 more than the value of manufactures and industry is set down at \$80,000,000.

Some writes to the N. Y. Tribune from Eastern Pennsylvania as follows:
You may feel assured that. Mr. Buchanan's having yielded himself so completely to Southern dictation, is not only seen by the Democraty of Pennsylvania, but is working powerfully. Their new Governor, Packer, sustains Mr. Doughas, and one of the Democratic members of the Mouse of Representatives from this city has declared within a day or two that he will not vote for the Lecompton swindle, and that there are

Senaron Sumer will not Resion.—A Boston correspondent of The Evening Poet says:

"Yesterday I had the pleasure of learning from Senator Sumer's own lips that he has no intention of resigning his seat in the Senato. There is not a man in Massachusetts with heart and head enough to fill Mr. Sumner's place who does not exceeding the fill Mr. Sumner's place who does not exceeding the fill because that is silent. Sinoular Arrive.—A very respectable coloradel sky, on a brief visit to Baltimore, we are informed, was arrested last inght in that city on the eve of her departure for home. The arrest was made by some of the city officials, under the pleas of remaining longer than is usually permitted by law to free colored persons. The arrest was made by some of the city officials, under the pleas of remaining longer than is usually permitted by law to free colored persons. The arrest has excused considerable excitement among the colored population of our city, and our Baltimore friends may look out for cloudy and stormy weather about these days.—Harrisbury Methyland of the Washington Correspondent of the N. Paor. O. J. Wood—Dear Sir. Sone time last summer we were induced to use some of your Hair. Restorative, and its effects were so wonderful, we find it sur duly to you and the sufficted, to report it.

Our little solve head for some time, had been perfectly correct with sorers, and some called it stald bead. The half almost entirely came off in consequence, when a friend, seeing his mixtrings, advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and the office our friends, a very few applications' removed the disease entirely, and a new and interfact crop of hair some started out, and we can now say that our boy has as healthy we say that there, and a series of the scale and hair.
