FOR ASSEMMELY.
10 IIIN SCOTT, of Ross Township.

We have had a strong desire to publish, entire, the able message of Governor Classe, of Ohio: but the pressure upon our columns prevented it. We present an abstract of it on our first page, and shall give to-morrow, in full what he says on National questions.

The Demonatro Convention—A press of natter on our columns prevented our saying a few words about the Convention which assembled at the Court House on Wednesday, and put in nomination for Assembly James Salisbury, whom the Republicans had the pleasure or best-ing last fall. It may not be too late to say those few words now.

The Committee on resolutions were then called upon to report. The leaders of the Committee were effice-holders, Messrs. Duna and Fariely both being recipients of favor at the Post. Office orth. Mr. Dum read the resolutions in very modest manner, and with a "bated" tone of voice. The first resolution was this:

Resolved, That the Administration of President Buchanan has, thus far, met the higher scaped and all or our affairs, and for a fair and an impartial settlement of all public questions entrusted to his care.

The ambiguity of the resolution is evided in the fail of 1856 were faischoods, that the pleas they then made about the will be for the repeated of the fail of 1856 were faischoods, that the pleas they then made about the will off the majority were all false, and mere sound and tary, signifying nothing.

That is safe. This resolution, which is the endorsement of James Buchanan, was slid over without amendment or debate, and passed as carefully and as breathlessly as if the lives of members depended upon, it. When the President declared that the resolution had been adopted, a feeling of relief was manifest, and David Lynch, Esq., who had the Convention in charge, took a deep breath from his capacions lungs, dispensed it upon the atmosphere, and, as if it were inspiration, the rest of the Democracy did likewise.

At this juncture a gentleman from the 7th Ward acrose and said he had a resolution be wished to offer. A motion to adjourn was pending, and it was attempted to crowd out the proposed resolution by insisting upon the said motion. Men held their breath, in again: "now is the time for this pestiferous Donglass clique to make its spirit manifest" was the evident feeling of the faithful. But the gonleman from the 7th Ward assured the Convention that there was nothing dangerous in what he had to offer: was nothing dangerous in what he had to offer: it was only a re-endorsement of the repudiation in the relative particular that the sounded the alarm too sounded the sounded the sounded the sounded the sounded th resolutions which locofocoism endorsed last fall. The Convention breathed freely again. Any-

which they had fought the battle of N.J., was acceptable.

The gentleman from the Seventh Ward read his resolution. A. B. McCalmont, Esq., opposed it in a manly and outspoken speech. There was a good deal of fluttering among the Democracy as Mr. C. proceeded; it was evident that "contradiction flew to their heads." But he proceeded to say in substance that he should always tote the Democratic ticket, notwithstanding any disagreement which might arise in reference to repudiation, just as he voted that ticket last fall Col. If, however, all the cases of single deaths from this cause were included, the total would be greatly increased. There has not been in New England during the year a railread accident of sufficient magnitude to be included in the list, though probably as many as twenty-five lives have been lost in this way, in most cases of these who have been run over while walking upon a railread track.

A REVERSE, AND A BAD ONE.—In the month of December, 1856, the exports of Domestic Produce from the port of New York amounted to \$3,246,568, and of specie to \$1,770,181. In the month of December, 1857, the exports of Produce were \$2,832,338, while those of specie were \$7,585,052. This is turning the tables completely.
