BROOKE HALL FEMALE SEMINARY
Media, Delaware County, Penna.
Miss Martha L. Eastman, Principal.

THIS SEMINARY, SITUATED IN THE delightful and beautiful village of Media, thirteen miles from Philadelphia by Railroad, offers to young ladies the most perfect combination of advantages for the attainment of a thorough and accomplished education.

The large and commodious building lately erected, containing all the modern conveniences of baths, gas, &c., is, with its extensive grounds, a model in all that pertains to the health, comfort, refinement and improvement of the pupils. The sleeping rooms are high, well ventilated, and furnished with comfort and elegance, and but two pupils occupy the same apartment. The number of pupils is limited to forty, for whom seven teachers are employed—The most faithful instruction is given in all the branches taught, while moral and religious principles are constantly inculcated by theory and practice.

The course of instruction comprises a period of four years, and a diploma is awarded to all who pass through it satisfactorily.

The Right Rev. A. Potter, D. D., L. L. D., Bishop of Pennsylvania, says: "Miss M. L. Eastman, who proposes to open a Young Ladies' Seminary in Media, Delaware county, Pennsylvania, in September next, has been known to the subscriber for several years past. He has a very high opinion of her capacity, efficiency and faithfulness as an educator. She has had a large and successful experience—The building which is to be erected will contain every accommodation. The village and surrounding country are distinguished for healthfulness and beauty; and the subscriber has confidence that parents who entrust their daughters to Miss Eastman will have no cause to regret it."

The French language is taught by a Parisian lady residing in the family.

The Latin, German, Spanish, and Italian languages, receive due attention.

The Natural Sciences are taught with the aid of a large and expensive Philosophical apparatus.

The Musical Department is under the charge of a lady eminently qualified for the situation, and all who prefer to be taught on the piano-forte, either by a gentleman, have a teacher from Philadelphia.

Drawing and painting are under the direction of a lady accomplished in the arts.

The Fall Term commences September 5th.

Miss Eastman has the liberty to refer to the following gentlemen:

Right Rev. A. Potter, Bishop of Pennsylvania
Hon. Franklin Pierce, ex-President of U. S.
Hon. D. S. Chase, Governor of Ohio.
C. Lesley, Esq., Potter Hill, R. I.
George M. Wharton, Esq., Philadelphia

T. KINGSFORD & SONS'
PURE
Oswego Starch,
(FOR THE LAUNDRY,)

HAS for many years obtained a greater celebrity than any other article manufactured in this country, and its unrivaled excellence is the result of its marked superiority in quality, and its invariable uniformity.

The public may be assured of the continuance of the high standard now established.

The production is over Twenty Tons Daily, and the demand increasing throughout the whole United States, and foreign countries.

Sold by them on a very large scale, and under a rigid system, they are enabled to offer it constantly at one uniformity in the quality throughout the year. *This is the great feature in the manufacture of Starch, and is realized now for the first time.*

The very best Starch that can be made, and always has been, always wanted by consumers, and this will be supplied to them by the grocery dealers, and it will be found to be the article of which is the best, and ask for it—others will not be offered to you, but articles on which the largest profit can be made.

T. Kingsford has been engaged in the manufacture of Starch continuously for the last 20 years, and during the whole of the time, the Starch made under his name has always been, for the time, the best in the market. For the first 17 years, he had the privilege of the use of Wm. Colgate's process, at which period he invented the process of the manufacture of Oswego Starch.

☞Ask for Kingsford's Starch, as the name Oswego has been applied to many kinds of worthless Starches.

It is sold by all of the best grocers in nearly every part of the country.

T. KINGSFORD & SON'S
OSWEGO CORN STARCH.
(FOR PUDDINGS, &C.)

Has obtained a reputation unrivaled, with their Starch for the laundry. This article is perfectly pure, and is, as a general thing, preferred to the best Bermuda Arrow Root, besides having additional qualities which the Arrow Root does not possess.

Potato Starch has been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real quality of Corn Starch.

From its great delicacy and purity, it is coming alet into extensive use as a diet for infants and invalids.

The subscriber has been appointed Sole Agent for the sale of the above celebrated Laundry and Corn Starch, to supply the trade at Eastern rates, with additional freight added.

Agent for Oswego Starch Factory.

Medical.

PENN'S THEORY EXPOSED.—
THE TRUE SCIENCE REVEALED.

Mankind have long been enveloped in darkness as regards the mysteries of medicine, and of devising a truthful solution of the power over disease, and its proper use in the treatment of the sick.

Medicines, as prescribed by the regular faculty, in a delusion and a bundle of simple credibilities and uncertainties. There is certain or fixed, the results obtained from its prescriptions are doubtful, and in most cases unsatisfactory.

It is a lamentable and startling fact, that three-fourths of those who have deserted this life* died victims, not to disease, but to the injudicious application of this subtle and uncertain thing called by the regular faculty.

We have proved the utter fallacy of the regular practice of medicine, and the great undeniable truthfulness of the R. R. R. over and over again, for, in a thousand cases, where the regular physicians have given up their patients as incurable, and had in many cases even set the time to only a few short hours, that their victims had to live, Radway's Ready Relief, Regulators or Resolvent, as the case may have been, has restored them to new life and health.

In the treatment of the sick by the R. R. R. remedies, there is nothing left to chance or uncertainties, for these remedies are so prepared as to possess fixed and positive curative powers, founded on principles as immutable in their power over diseases, as the laws of gravitation over the earth. It is therefore impossible for them to fail in relieving and curing from that human system the difficulty for which they may be given, and of restoring the whole human system to its normal condition of health.

This is a fearful but true picture of the misery of RADWAY'S READY RELIEF—for the moment the remedy is applied to the parts or portions of the body tortured with pain, or crippled with inflammation, the pain and uneasiness ceases, and the crippled, lame and wounded limb becomes invigorated with new health and strength. So also with the Resolvent—elimate of chronic diseases quickly become extinct after a few doses is taken.

In cases of Dyspepsia, Constipation of the Bowels, Dysentery, Diarrhœa, Indigestion, Congestions, Palpitation of the Heart, Radway's Regulators, in the form of Pills, can be used with extreme positive and certain corrector and regulator of derangements of the stomach or bowels, the Cathartic and Purgative Pills given by the regulars, even if they relieve the temporary difficulty, do so at the expense of the Stomach, Bowels, Stomach, and Weakness, and after the effects of these purgatives are over, the bowels are left constantly relieve the pain and distress, remove the difficulty and restore a regular action to the liver, stomach, bowels and other organs—they neither irritate, inflame, sicken or outprostrating the system or cramping the bowels.

These remedies are the only ones that have reduced it a hygienic principle to the fixity of a medicinal demonstration—practicable in all cases, and proceeding on a settled routine. They, and they alone, have imparted to the incongruous experiences and refugmant practice of the so called "regular faculty," the precision and invariability which human body as the problem of a science. Taking the diffusion, the most powerful, and health as its normal conditions, and deleterious particles, and thus restore the constitution to its integrity by the expulsion of those local or organic irregularities which vitiate the soundness of the whole.

DANGEROUS DISEASES.
