WOOD, MOORHEAD & CO., HUGHE'S PATENT ATMOSPHERIC American Galvanized Sheet Iron, This (Boous) Naws from Maxico.—On Tuesday an absurd rumor was set afloat in this.city, and telegraphed by its originator to all parts of the country, to the effect that the Spaniards has bombarded Vere Crux, causing great loss of life, &c. This story was published in the Boston papers, and credited to the Exchange News Room. During the evening the manufacturer of this bogus news came to the conclusion that his story was rather barefaced, and thought it advisable to change the scene from Vera Crux to the City of Mexico, and some of the Philadelphia papers were induced to give currency to the amended story, which, though not quite so absurd as the first fone was, we have good reason to know nons the less false. The Tennessee, the only vessel that has arrived from Mexico within the last week, brought neither public nor private advices, so far as week known or believed by our currency ordent at Kew-Orleans up to last night; confirming in any degrees the the amended bogus dispatch relative to the bombardment of the City of Mexico.—N. Y. This.

The intention was predicated on the expection of Congress authorizing the increase of regiments asked for by the President, so that the Atlantic might be transferred to the Pacific, the vacuum being supplied by new levies. The advance indications by the vote in the Senate yesterday, and the sentiment of the House led to the abandonment of the policy.
