REASONS for buying at home in place of from Tree Peddler:

1st. We sold Cherry Trees last fall at from 31 to 40 cents that they charged 50 to 75 cents for. Apple (of class) 12½ that they charged 17 for. Peach at 10¾ that they charged 25 for and other things in proportion.

2d. You can have them planted a few hours after they are taken up, while the peddlers' trees have weary hours to pass on canals and at railroad depots before they reach the planter.

3d. If mistakes occur a proprietor is still about to correct them, but a'peddar, where is he?

GAS FROM ROSIN OIL
or OTHER
FATTY FLUID MATERIAL.

THE HIGH ILLUMINATING PROPERTIES of Gas from Rosin and oleaginous substance have always made them a favorite material for the manufacture of Illuminating Gas. Many Gas Companies use Rosin with coal, in order to supply their customers with a Superior Quality of Gas.

ROSIN OIL is entirely free from all dross and refuse substances, and yields at once, its Brilliant Illuminating Gas.

The greatest original cost of the apparatus for the manufacture of coal gas together with the attention and expense of constantly repairing, and the difficulty, it put impossibility, of entirely separating the unwholesome, deleterious and offensive gases, generated in coal, render the ROSIN OIL APPARATUS cheaper and more desirable in every way.

S. COATES, of 376 Broadway, New York, has devoted his entire attention to the manufacture and sale of Portable Gas Apparatus and he respectfully calls the attention of the public to his press of complete and efficient machines.

Perfect satisfaction to the purchaser guaranteed in every case. For further information address
