W. E. CHILDS & CO'S CEMENT ROOFING. PERRIN & JOHNSON, Proprietors,

A RE NOW PREPARED TO CONTRACT AND PUT ON AT THE SHORTEST NOTICE
to allow Elastic Fire and Water-Proof Coment Roofing, it being the only article yet intented that will successfully
result the action of the atmosphere in every climate.

IT IS PERFECTLY FIRE AND WATER-PROOF,

And in point of durability, we believe it is equal, if not supe et., to any Metallio Roofing. We can put it on over Old Tin Tar, Iron or Shingle Roof, it making nod. ence how flat or steep the roof may be. This Roofing is warranted to prove as above represented. We will put it on for SALT DOLLARS PER SQUARE, (FEN PEST SQUARE)

We will apply it upen Tin and Iron Roofs for TWO DOLLARS PER EQUARE, being on account of its durability the chargest paint that can be used.

Salw Tollars PER SQUARE, being on account of its durability the chargest paint that and be used.

Salw in the salw who are building, and also those who wish their Roofs Repaired, to call at our office, 133 Third Afrest and examine samples and satisfy themselves in regard to the durability and practicability of this Roofing.

I have made a chemical examination of some specimens of W. E. CHILDS & CO'S ROOFING, left at my office, the reits of which are as follows:

1st. The materialis compounded so as to remain pliable for a greatingth of time.

2d. The consistency is not readily influenced by the temperature, consequently it would not be liable to melt and run
(from a roof in Summer, or reack in Winter, i. e. extremes of natural heat-and cold would not indure it.

2d. The compositionis not acid but slightly alkaline. It would not destroy the can area, but on the contrary protect
from the action of the weather. 2d. The composition is not acid but slightly alkaline. It would not destroy the carries, but on the contrary protect from the action of the weather.

4th. It is Water Proof, and to a large extent Fire-Proof; that is, sparks and fire brands falling upon it could not inmediate the properties of the proof of the properties. In my opinion such a roof will last for years if put on carefully and receiving prompt attention.

2d. The composition is not acid but slightly alkaline. It would not destroy the carries, but on the contrary protect from the contrary protect. In the contrary protect from the contrary protect
