"By reference to the 'Sacramento news,' published elsewhere in to-day's paper, it will be seen that the Assembly have adopted the resolutions instructing our Senators and requesting our Representatives in Congress to vote for the admission of Kansas under the Lecompton Constitution. With the knowledge before them, over the certificate of Gov. Denver, that the people of Kansas had repudiated that instrument by an overwhelming majority, they instruct our representatives and the Federal Capital to force it upon them. And what is still worse, not one man could be found in the Assembly committee, to say that he had spen or read the Constitution they were instructing our Federal Representatives to support. Such a vote is unworthy the representatives of a free and intelligent people, and we hold up those forty-inne members of the Assembly of Californis' to the contempt and reprobation of overly honest man who believes in the capacity of the American people for self-government.

Voice of the Democratic Press — The San Francisco Herald, San Francisco Globe, and Democratic State Journal are the only Democratic papers that we have seen in the State that decidedly favor the admission of Kansas under the Lecompton Constitution. The San Joaquin Republican takes, as well as we are able to interpret its position, a middle ground. Arrayed against the Lecompton Constitution are all the rest of the Democratic papers, so far as we have seen. We call to mind, now, the Shasta Courier Solano Herald, Calveras Chronicle, Mariposa Democrat, Yreks Union, Saeramento Watch Dog, Sierra Democrat, Roleaveille Index, Plumas Argus, Batte Record, Mountain Democrat, Nevada Democrat, Columbia Gazette, and Placer Herald all of which are strenaous supporters of the Douglas interpretation of the Kansas Nebraska bill."

The New Liquor Law.—The Harrisburg Telectroph, of Monday evening last, publishes the charge of Judgo Pearson to the Grand Jury of the Court of Quarter Sessions, now in session in Dauphin County, in which his honor thus speaks of the liquor law passed by the last legislature:

"Mis Honor remarked to the Grand Jury that they nikel not include in the properties in the properties in the properties in the properties of the liquor law, as the law punishing such offences was repealed by the latel aw, without protecting the Commonwealth All these charges were therefore at an end. We charge the Assembly of the State of California with a repudiation of the 'vital principles of our free institutions,' pronounced so by Mr. Buchanan himself.

We charge them with a slavish and unholy abandonment of the Democratic doctrine, and on the authority of General Cass, with having 'grossly violated the inalienable rights of man. We charge the Assembly with voting to sustain what they knew to be an unmitigated falso-hood, in Assuming that the people of Kansas had formed a Constitution for themselves, as the Assembly resolutions assert, when they knew that the people of Kansas had repudiated that Constitution by a two-thirds vote.

We charge the Assembly pith a violation of Democratic pledges, made from every stump throughout the Union, that the doctrine of popular sovereigntly should be upheld, and the entire of constitution submitted to the people of Kansas that the sentiment of the people of California is decidedly in favor of the admission of Kansas under the Lecompton Constitution. It says the supporters of the admission of Kansas and the Lecompton Constitution. It says the supporters of the administration have dwindled down to a mere corporal sguard of office-holders.

We charge the Assembly of the vital principles of the Republican party, and has ever since the supporters of the administration have dwindled down to a mere corporal sguard of office-holders and the supporters of the administration have dwindled down to a mere corporal sguard of office-holders and the supporters of the administration have dwindled down to a mere corporal sguard of office-holders and the contrary, to perform his duties, in own or will to the city, and during his slay, will be a partial two terms, declines are round to look out for nanther man, worthy of trust in regard to capacity and the table. Douglas interpretation of the Kanasa Nebraska bill.

The new version of the popular sovereighty dectrine promulgated by the Lecomptonites, has placed the hitherto faithful democracy of California in a very embarrassing position—a position from which they cannot escape save by the most palpable stultification. The Sacramento Union says that it is not two years since the people of California voted almost unanimously in favor of incorating a provision in the present Constitution of that State, that no Constitution should ever be formed by any future State Convention which did not contain a clause submitting the same to the people of the commonwealth for their approval or rejection. Previous to the adoption of that amendment, one of the leading objections to calling a convention to revise the entire State Constitution was, that said convention might adopt a Constitution without submitting it to the people of The Union further remarks:

California Lecomptonites, it will be observed by the above extract, will have a hard time of it in sustaining the course of theadministration, than only in a conting a flatboat, from which to drive pries, has been accomplished; but the boiling drivers make a headway amounting to little more than it had been this season and still rising. in this Kansas matter. Their own actions will be a source of the greatest trouble to them, while at every turn they will be confronted by some favorite "plank" in their State platform, which will rise up in judgement against them. We enry them not in their new position, for their's is not a bed of roses.

The masses of the people of the "Golden State," with the public journals at their head, sustain Senator Broderick, in his noble and patricitic efforts to defeat the administration in its infamous warfare on the excred rights of the people of Kansas.

An anecdote has gained some currency, which is worthy of reproduction. On Friday, English came over to the Republican side of the House, after the vote on postponing till May, where it was suggested that his scheme might still be defeated. Bill will make a most exemplary Alderman, indeed!

The German population of Allegheny county probably amounts to about one-third, at least to one-fourth part of the whole, and their wish to be represented in the legislature of the State by one member would seem to be anything but unreasonable.
