 Itts Isiguity AND ITS WAGES.—The English Kansas Bill is fraudulent and tyrannical in the following particulars: Ist.  Insurante Co. of Philadelphia. Election composed equally following particulars and puts the election under the control of three Federal office holders, all of whom are identified with a policy mateful to the people, and one of them has al-resdy given an official opinion that the Free State citizens are disfranchised by their acts of omission and commission.
 Insure spant issue of damage by Final Medana, R. F. Witner, Rene Guillow, Boni, L. Woohnem.

State citizens are disfranchized by their acts of omission and commission. 2d. The bill repeate all the election laws of the actual Legislature of the Territory, and re-enacts the brutal and insulting decrees of the preceding bodies, whose validity has been al-ways denied by the body of the people of Kan-mas: which decrees or statutes were confessedly designed to deprive the Free State population of political rights, to exclude them from the polls, and to expel them from the Territory. 8d. Having rovived these past controversies, and having decided them all in favor of that faction whose leaders are nearly all fugilives from justice, the bill confers upon the partizen board of Foderal office holders power (which it is certain will be ascreised) to suspend the Free State sheriffs and local peace officers, so as to strip them of authority respecting the election, and to place the whole machinery necessary for conducting it in the hands of the minority or Lecompton party.

and to place the whole machinery' necessary for conducting it in the hands of the minority or Lecompton party. These specifications of offences against jus-tice and the pence and good order of Kanasa, are crimes which the predominant party in Con-grees has deliberately perpetrated in order to carry through a scheme forced upon it by an unscrupulous partizan Executive, and untimely to bring Kansas into the Union as a Slave State against the known and scarcely denied will of three-fourths or four-fifths of the people. It cannot be doubted, from the circumstances under which the bill is passed and its flagitions details, that it is intended to renew the sanguinary tunnels of former election struggles, if it shall appear probable the expedients of frands provided will not be effectual. This is a grave otharge to bring against the majority which passed the bill, and the Administration which is to execute it: but that they are capable of the wickedness im-plied in the accumation is placed beyond doubt by the fact that the very men who weige atro-siously conspicuous in those entrage have been appointed to and now hold office in the Territo-ry. Encry, the marierer of Fhillips, Clarke, the murderer of Barbour, and others almost equally guilty, claim their support from the Federal Treasury. The proofs of their stro-cious crimes are as apparent to Mr. Buchanan as to the cred of the country, and they were so when he appointed them, and to the Senate when they were confirmed.

bey were confirmed. Under this state of facts it is not very rea

sonable to expect in Kansas an Election upon the Lecompton Constitution any fairer or more peaceful than that of the 30th of March 1858, pable that even the President was compelled to consure them as "detestable."—N. Y. Cour. §
