PITTSBURGH:

SATURDAY MORNING, MAY 29, 1858.

COUNTY CONVENTION.

The citizens of Allegheny county who are opposed to the National Administration, are hereby requested to meet in their respective Wards, Boroughs, Townships and Precincts on SATURDAY the 29th day of May, 1858, and elect two Delegates from each to meet in County Convention, at the Court House, in Pittsburgh, on WEDNESDAY, the 2d day of June, at 10 o'clock, A. M., for the purpose of nominating a County Ticket.

The primary meetings will be held in the townships between the hours of 2 and 6 o'clock, P. M., at the usual places of holding such meetings and in the Wards, Boroughs and Precincts, between the hours of 4 and 8 P. M. *By order of the Committee,*

ROBT. P. NEVIN, *Chairman.*

DELEGATE MEETINGS.

Do not forget the Delegate Meetings to night. They open at 4 and close at 8. Let every Republican attend.

CLAY OF ALABAMA.—PERSEVE, whose pencil as a sketcher of our public men, is as faithful as his wit is keen, in an article in reference to the course of CLAY, of Alabama, who has made himself conspicuous in his efforts to repeal the Fishing Bounty Laws, thus speaks of that sapient Senator:

"Were a stranger to seat himself in the reporters' gallery of the Senate Chamber and examine with scrutinizing eye the faces of the men on the floor beneath, it is not improbable that, of all the ill-looking faces now congregated on that spot—and just now there are by no means few—he would pronounce the illest face of all the sixty odd to be that of the Senator from Alabama; and were he looking for a Catiline or a Judas in that body, he would not very likely look further than that same swarthy and sinister countenance. Diminutive in stature, emaciated in form and features, his head and face buried in a wilderness of night-black hair, with a sullen, suspicious, discontented expression never relieved by a smile, and with an evil eye gleaming restlessly in its sunken socket—the science of a Lavatar or a Spurzheim would hardly be deemed requisite to read in that head face a corresponding character. Fortunately the ability to perpetuate evil is not always commensurate with the disposition, and to our detestation of wickedness we have generally to add our contempt for weakness.

It is not our purpose in this article to go at any length into the merits of this question which the Senator from Alabama has thought proper to raise as the first of a series with a view to exasperate the North and weaken the ties which bind it to the South. The mere amount of money paid for these fish bounties is not worthy a moment's consideration, and, doubtless, it is so regarded by the very man who proposes to abolish them. Compared with the indirect bounty on sugar levied by means of the heavy duty, on the imported article, it is trivial. As a nursery for native seamen, encouragement of the cod fisheries has, from the days of Washington, been the settled policy of the country; and rarely has there been a time when American seamen were needed more than at present. The vast majority of seamen on American ships in foreign commerce are, it is notorious, of foreign origin.

Mr. Clay and his Southern friends may live long enough to regret the course they have seen proper to pursue on this question. Their opposition to the Fishing Bounty Laws was entirely on sectional grounds. Their avowed object was to punish the "abolitionists of Massachusetts and the North," and at the same time carry out a revengeful feeling in the South. All this may work to their satisfaction now, but the time will come when the operation of the *lex talionis* will not be so agreeable to their contemplation. They will be taught, to their own sorrow, *that there is a North*, and that it is able to avenge wrongs wantonly inflicted upon it by slave driving demagogues. In his chivalric efforts to punish the North, by striking a blow at a few fishermen, this Alabama fire-eater was supported by the representatives of Louisiana—a State which enjoys a "bounty" on its sugar, compared with which that in favor of the cod fisheries of the North is a mere trifle. Should the people of Louisiana, in the course of time, find their staple attacked, it is to-be hoped that they will not cry out against "Northern aggression," but sensibly cast the blame where it belongs—on their own representatives. When J. Glancy Jones, the President's Congressional fugleman, was asked what plan the government would adopt in order to procure seamen for its vessels, since it resolved to dispense with sailors from the fisheries, he replied, with the impudence of a minion whose place was secure, that the government had nothing to do with buying men for the service. The blow, it is evident, was aimed at the North, without a thought as to its consequences.

THE BRITISH OUTRAGES.—The burden of all administration songs at present is—"British Outrages." We yield to no one in a desire to see our national honor sustained at home and abroad—on the land and on the sea. We would like of all things to see the finances of this nation so husbanded that the Treasury might be supplied with "the sinews of war." We would feel proud if we were able to look over our Commercial Marine and feel that in those fishing smacks and coasters are the men to whom we could look, in a moment of danger, to run up the flag of our country, and, nailing it to the masthead, to die on the red deck defending it. When, however, the sad spectacle is witnessed of an infatuated tetard squandering millions of the public treasure in a chase after Mormon women, and in a raid upon Mormon seraglios: when we see the treasury not only emptied of its twenty-two millions of a year since, but actually in debt to-day in the enormous sum of $35,000,000; when, after the idle babble of Bigler, we see a law passed, with the hearty concurrence of the pro-slavery, dismion, Lecompton, "Democratic" Administration, which carries ruin to the codfisheries, and breaks up at one stroke the great school whence the forecastle was supplied with all the true native talent, skill and courage it ever possessed, it is difficult to escape the conviction we entertain that the whole cry about "British outrages" is trumped up to make a great noise and withdraw the attention of a long-suffering and an outraged people from the miserable, puerile and ridiculous proceedings that offend their eyes at home

The case of the vessel called the New Era, "fired into and boarded," has been already telegraphically magnified, until the arms and legs of our poor blue jackets descended in a perfect shower before the excited imaginations of all who ever read

"The Guerierre, a frigate hailed."

Well: the New Era has arrived in New York, and—as her captain has informed the *Times*—has not been boarded at all, nor in any manner disturbed by the British cruisers.

No doubt, when the whole of the prevalent tales of outrage come to be sifted and examined, they will turn out to be like that of the New Era, or if not, full and free acknowledgment of error on the part of Great Britain will be offered and speedy punishment inflicted upon those who have dared to offer insult to the American flag while ships under it were carrying on a legitimate commerce over the open seas.

THE RECUSANT DEMOCRATS.—There are indications that the fight between Douglas and the President is to be made up, and that the latter has given up the purpose, first entertained, of making war upon the Anti Lecompton members of the House who may be renominated. A Buchanan convention is called in Illinois, to meet June 7th, to nominate a secon l democratic ticket, and the Chicago *Times*, the leading organ of the Douglas democrats, makes a direct call upon the Washington *Union*, to know whether this meets the approval of the President and Cabinet. The *Union* disclaims any authority to speak for the Administration, but says for itself:

"We would counsel our friends faithfully to abide the decisions of democratic conventions, and earnestly and truly seek the election of their nominees. To this rule we never knew of an exception which in our judgement was sufficient to justify a refusal to obey the laws of party.—Again, at the time of speaking, do we insist that democrats shall unite against the common enemy; and, we will add, that if heretofore it could be said that it was wrong to wrangle and quarrel, it is criminal to do so now."

FALLING OFF IN IMMIGRATION.—The total number of immigrants arriving at New York this year is, up to this time, but twelve thousand; and it is estimated that the whole number for the entire year will not exceed thirty thousand.

THE MISSISSIPPI SLAVE TRADE.—The Charlottesville (Va.) *Advocate* says:

"We have seen, once or twice, recently, newspaper paragraphs to the effect that the African slave trade was successfully carried on with some parts of the Gulf States As these reports were subsequently denied, and because we could not think that such a project could be successful in this the nineteenth century, and in evident violation of the laws of the United States and the sentiment of civilization, we concluded that the reports were unfounded. Such is not, however, the fact. We are told by a most reliable gentleman, who was an eye-witness of what he speaks, that several cargoes of native Africans have been landed within the last twelve months upon the banks of Pearl River, Mississippi. They were, it is true, brought over under the mere pretext of indentured apprenticeship: but no one doubts that they are, and will continue to be, slaves in every sense of the word, and for all time. These negroes were scattered through the southern counties of Mississippi; they were sold at a low figure, but still high enough to make the enterprise a profitable one for those engaged in it. As soon as they are placed in the field, the master selects some reliable negro man of his own force, to whom the newly imported African is chained, and whom he is compelled to imitate and follow in the day's work."

THE OHIO CONTESTED ELECTION CASE.—The admission of that dirty dog and vile demagogue, Vallandingham, to Campbell's seat, was an act of mere party tyranny and blindness. Had Campbell been left secure in his seat he would have died a natural political death, and the democrats would have been forever rid of him: but they have given him, now, a new lease of life, and he will undoubtedly be elected over Vallandingham in October, although the district has been close. The Cincinnati *Commercial* says:

"There is hardly a doubt but he will sweep the Third District in October next by a rousing majority. The injustice of the action of Congress toward him, will create a powerful sympathy in his behalf among his constituents, and restore his waning influence. Vallandingham's home organs have all been in favor of "Lecompton," and squarely on that issue the fight of next fall will be made; and we have sufficient knowledge of the temper of the Third District to very confidently predict that no Lecompton can carry it."

"BILLY OVER."—Some patriot is "awful" against the *Gazette* in yesterday morning's *Post*, because we said "General Smith (Peace to his ashes) was at one time commander of Pierce's hirelings in Kansas." Such is the *fact*, and how does it reflect in any way upon Gen. Smith? Do the Lecompton patriots so hate the memory of poor Pierce that they consider it disgraceful to refer to anything he did? Why didn't the "billin" Lecomptonian of the *Post* write a letter to that paper the other morning when it remarked, editorially, that Massachusetts still continued to be represented by Sumner and a vacant seat, and it would be better if there were more vacant seats in the Senate? Our Lecompton patriot saw nothing wrong in that, of course?

TENNESSEE.—Where the carcase is there will the eagles be gathered together. Wherever there is money to steal a locofoco is sure to have his hand in it. Dr. T. N. U. Burton, the democratic Secretary of State of Tennessee, has run off in consequence of large defalcations in his accounts. The clerk of the Comptroller's office also is charged with stuffing his pockets with coupons whenever he was in want of small change. The coupons were lying about "loose," it is said, begging to be hooked.

PENNSYLVANIA EPISCOPAL CONVENTION.—*Second Day.*—The sum of $500 was voted to Bishop Hopkins for his services in filling Bishop Potter's appointments.

Dr. Richard Newton offered resolutions of sympathy towards Bishop Potter, which were unanimously carried.

A report, recommending the mode of raising the salary of the assistant Bishop, and a statement of the funds that would be received, was received from a committee to whom the matter had been referred.

The salary was fixed at $3,500, without diminution of Bishop Potter's salary, ($4,000) but when the plan for raising this money was proposed, a long debate ensued, which occupied the entire day. A large number of amendments to the plan proposed by the committee were offered but were all laid on the table and before coming to any decision the Convention adjourned.

We learn from the report of the proceedings that Bishop Potter, during the early part of the past year, ordained fourteen deacons, six priests, and examined thirty one candidates for orders. He laid the corner stones of two churches, and had one burial ground consecrated by Bishop Underdonk. He had deposed E. E. Seaman in the presence of Rev. Dr. WILLIAMS. He confirmed five hundred and thirty-six persons. Five clergymen had left the Diocese, and seven had been received from other states: three had died. Four candidates had been admitted to holy orders. Two clergymen had been dismissed and three admitted. The labors of Bishop Potter, as noticed in the above report, were all accomplished in 67 days.

Third Day.—On Thursday morning the election for an Assistant Bishop in this Diocese was taken up. We learn from the report in the *Bulletin* that the Chair appointed the following tellers to conduct the election: Rev. Dr. Dorr, Rev. Mr. Lounsberry, Rev. Henry C. Potter, Rev. Dr. Vandusen.

The interest in the vote was intense, though there was no noise or confusion. The number of spectators in the gallery had increased until it was nearly filled, and although quiet conversation was carried on all over the church.

There was no choice at the hour of this writing. The candidates are Rev. Dr. Vinton, of Boston, Dr. W. A. De Wolf, Stevens and Dr. Morton, of Philadelphia, and Dr. Bowman, of Lancaster, Pa. The vote was published in yesterday's telegraph news.

The following resolution was adopted:

Resolved, That each church in connection with this Convention be and is hereby required to pay to the Treasurer of the Episcopal Fund, in no case to exceed 6 per cent. of the salary of the minister or ministry, or 3½ cents on each reported communicant, as said Committee may decide.

THE RESULT OF THE CONTEST.—It is with sincere gratification that we record the result of the contest in the American Tract Society at its meeting yesterday. The liberal, progressive party, the Christian anti-slavery party, if you please to so designate it, was entirely victorious, accomplishing all they desired and stopping short of any barsh or extreme action. The Society here has cleared itself of all responsibility for the time-serving course of the New York Society, and the contributions of New England churches can now be given to the Boston Society without any fear that they will be perverted. We rejoice in this result. It is a victory of strong and sturdy right, over weak and pallering expediency. It is a noble re-assurance of the attachment of New England men to justice, freedom, and a consistent Christianity. We have small space for comment on the proceedings today, but shall recur to the subject again.—*Boston Atlas.*

A LETTER from a young friend on his way to Kansas, written on a steamboat on the Missouri, May 16, says:

"Emigrants are pouring into Kansas by thousands. Steamboats cannot be made long and large enough to carry all that apply for passage The boat we refused more than two hundred yesterday, and still they come. Six boats per day leave St. Louis, with an average of two hundred passengers each, for Kansas and Nebraska."

—We have similar advices through other channels. Kansas and Missouri seem to be taking the lead in this year's emigration.

AN EXTENSIVE FARMER.—Jacob Carroll, of Texas, is the largest farmer in the United States He owns 25,000 acres of land His home plantation contains about 8000 acres. Col. Carroll has on his immense range of pasture lands about 1000 horses and mules, worth $50,000; 1000 head of cattle, worth $7000; 600 hogs, worth $2000; 300 Spanish mares, worth $15,000; 50 jennies, worth, $2000; 15 jacks, worth $9,000; and five stallions, worth $2,500. His annual income from the sale of stock amounts to $10,000, and from the sale of cotton to $20,000.

WHEAT CROP.—We have had little opportunity from personal observation to form any opinion about the crops in this section. But the information we have respecting the wheat is cheering. There is every present prospect of a full crop. Some pieces, it is true, are winter-killed in spots, but there is less complaint and croaking than has been known at this time for years. The breadth of land in wheat, we are told, is at least as large as last year. The weather thus far has been favorable.—*Akron Beacon.*

BILLY BOWLEGS' speech when "glorious," in New Orleans, the other day, opened richly, as follows:

I stand up here big chief brave warrior. I kill heap your people before, I can do him again easy; give Billy seven good men to follow on the war track and he lick all the United States scalp big father at Washington." Whoop!

REV. MR. WILLIAMS has recently come into possession of a fresh batch of documents, which he contends to be proof positive that he is the heir to the throne of France.

SHERIFFALTY.—Messrs. Editors:—My attention has been called to a card in your paper of yesterday from Mr. David Irwin, of Peebles township, for which he refers to a report now current in the county, touching his conduct as a candidate for the Sheriffalty, six years ago, at the time of the contest between Mr. Magill, Mr. Irwin and myself, for that nomination. In his card in yesterday's *Dispatch*, Mr. Irwin asserts that there is no truth in the charge made that he (Irwin) offered to turn his delegates over to me, provided I (Jones) would give him bond for $30,000.

I certainly have no disposition to interfere at this time with the scheme of Peebles township for electing her candidate for Sheriff, as well as a seasoned and reliable one from the ranks of the Democracy supported me, constrains me to state publicly that the charge that Mr. David Irwin, of Peebles township, offered to turn his delegates in the convention over to me provided I would arrange to pay him a bonus of $30,000 for so doing, is untrue in the entire correctness of which I pledge whatever of honor or reputation I may possess.

This strange proposition was made to me by Mr. Irwin in person, in the Court House, between the first and second ballots, and was treated by me with the contempt which such a suggestion merited. I regret having to obtrude this matter in the public newspapers, but Mr. Irwin having taken the initiative, I shall not submit to misrepresentation.

EPHRAIM JONES.

—The above card was published in the *Dispatch* of Thursday. It is an *unmitigated falsehood*, and I am willing to rest my assertion with that public before whom my character has been maligned, and have them judge between us.

Appetite and Strength Restored.—Wm Ott No. 6 South Pittsburgh, says: "After having suffered severely for several years with the most distressing attack of Diarrhœa, I purchased a bottle of Boerhave's Holland Bitters. It gradually checked the disease, and restored my bowels to perfect order. Before I had finished the bottle I found my appetite and strength returning. I believe it worthy of the character you give it, and shall recommend it as such."

CAUTION.—Be careful to ask for Boerhave's *Holland* Bitters. The great popularity of this medicine has induced many imitations, which the public should guard against purchasing.

DRS. ETTICH & SYKES would state that the treatment of Consumption, as based upon the discovery of the curative principle of cod liver oil, has, for a few years, been attended with great success. Many cases, however, have been reported to them, in which the use of cod liver oil, although it checked the advance of disease, failed to cure. Such cases, they have found, could not be cured by cod liver oil alone, but required the addition of other remedies, which would improve the action of the liver, and thus render the cod liver oil more effective. In such cases, they have found the combination of cod liver oil with the Compound Syrup of Hypophosphites, as prepared by them, to be a better remedy than either alone. Indeed, in many cases, the Syrup of Hypophosphites, when used alone, has been found to be a most valuable remedy.

Many of the Hypophosphites, as prepared by other chemists, have proved worthless, from the fact that they contained a large amount of Phosphoric Acid, which is a poison to the system. The Hypophosphites, as prepared by DRS. ETTICH & SYKES, are entirely free from Phosphoric Acid, and are, therefore, perfectly harmless.

Samples may be seen at R. Kidd & Co's Drug Store, Fourth street. All orders accompanied by the cash will be promptly attended to. Dr. Walter, 1 Penn street, Allegheny.
