The news from Indiana is interesting. The Democracy of Hon. James Hughes' District, in Congressional Convention assembled, split. One branch (Lecompton) nominated Hughes, and the other (anti-Lecompton) nominated Hughes, and the other (anti-Lecompton) nominated Hughes, of Madison. Thus the Congressional fight in Indiana is assuming a triangular shape. This is politically very import unt. It shows the irreconcilable character of the difference between the Douglas Rebels and the President. No event the Douglas Rebels and the President to the Ca the Douglas Rebels and the President. No event arising out of the action of a Congressional Convention, could be better calculated to strike diamay to the heart of the Administration and such bogus great men as Jessie D. Bright. If the Republicans and anti-Lecompton meu of Indiana are not incalculably stupid, they will make a clean sweep of the State which has been the firm balwark of Buchanan in the northwest.

—Cin. Com.

The Hon. F. P. Starton, having been invited to address his fellow citizens at Memphis, Tennon Kanasa matters, had written a letter in reply, severely reviewing the course of Buchanan and his administration, and closing with there significant words:

"I sincerely hope and, without some further fatal error on the part of those in authority, I believe the agitation will be confined to the popolitical arena, and will have no effect more serious than the overthrow of a faithless administration, which has betrayed the right of the people, committed a high crime against liberty, and misled a large portion of the Democratic party into a ruinous and suicidal error."

In the purble, who are respectfully taylied to examine this will be degraded from his position, and if necessary, cashiered. This may, perhaps, have the desired effect for a time; buttstrong circumstants of the popolition are continue to prove that the people and the army may, ere long, come into serious collision. John 10 Connell, Eq., died suddenly at kings that 00 connell, and was associated prominently with his father in the great repeal agitation, extending from 1812 to 1847. The Free man's Journal states that, the cause of his death was a severe attact of broachitis, contracted by sitting in a damp garden chair.
