PITTSBURGH:

MONDAY MORNING, JUNE 14, 1858.

WISCONSIN.—The Republican legislature of Wisconsin, to which the credit belongs of having investigated and exposed the corruption and bribery practised in the La Crosse Land Grant case, did not adjourn without adopting measures calculated to prevent the recurrence of such scandalous transactions as were therein developed. An act was passed entitled, "An Act to protect the people against corrupt and secret influences in matters of legislation," and it fairly bristles with pecuniary penalties. In view, too, of the fraudulent acts of the Milwaukee and Superior Company, other enactments were passed making it penal to publish false statements of the condition of railroads, providing for the examination of the books and affairs of the Company by committees of stockholders, prohibiting directors and officers from being interested in any contract connected with the road, and furnishing many other checks and guarantees of like character.

THE MILITIA LAW—UGLY FIGURES.—The Bloomfield, (Perry Co.,) *Advocate* has been "counting the cost" of the new Military Law, under which the volunteers are re-organising so rapidly in this State, and under which existing companies are fast filling up their ranks almost to the "war standard." The following is part of the *Advocate's* calculation:

"Suppose we estimate the number of Infantry, artillery, &c., in the State at 25,000, and the cavalry at 5,000, (in both cases a low estimate,) and suppose that there should be the full number of parades, the expense would be $625,000 per annum!—and estimate that there are 400,000 in the State liable to military duty under the law, the revenue would be only $200,000, or less than a third of the expense. We venture to say that the expense of carrying out this law, on an average, will not be less than *half a million of dollars annually*."

Of the 400,000 taxables in the State liable to military duty not over 200,000 will pay the military tax. The result will be, the State Treasury will have to bear the burden of the useless military displays that are likely to be got up.

POLYGAMY TO BE TOLERATED.—"Old Mr Buchanan," in his proclamation to the Mormons, uses the following language:

"Do not deceive yourselves nor try to mislead others by propagating the idea that this is a crusade against *your religion*. The constitution and laws of this country can take no notice of your *creed*, whether it be true or false. That is a question between your God and yourselves, in which I disclaim all right to interfere. *If you obey the laws*, keep the peace, and respect the just rights of others, you will be perfectly secure, and *may live on in your present faith*, or change it for another at your pleasure. Every intelligent man among you knows very well that *this government has never, directly or indirectly*, sought to molest you in your worship, to control you in your ecclesiastical affairs, or even to influence you in your religious opinions."

As Polygamy is a part of the Mormon religion, this is equivalent to saying that it is not only to be tolerated but protected by the national government. Thus "Polygamy and Slavery, those twin relics of barbarism," are to be hugged to the bosom of Democracy and be made a part of the party platform; but then, the democratic party can swallow *any* thing, and why not Polygamy as well as Slavery, swill milk and "old Mr Buchanan!"

HARD LANGUAGE.—MR STEPHEN D. PILLATE, of New York, having been turned out of a situation in the Custom House, publishes a long letter to Secretary Cobb, concerning the corruptions now prevalent in the democratic party, in which the following paragraph occurs:

"And while with false affection and hypocritical cant, you now express an entire concurrence of opinion with the State Rights party of the South, how long, Sir, has it been since you addressed a distinguished Democrat, denouncing the leaders of this party in the most violent and vindictive manner, closing your anathema with language like this: *"That hell itself does not contain such elements to compose the leader of this party!"*

Well, we think that is going a little too far—for an illustration.

KANSAS.—We published the other day a harrowing account of the brutal murders perpetrated in Kansas by the pro-slavery ruffians copied from the St. Louis *Democrat*. That account has been verified and confirmed by sundry eye-witnesses, who have furnished other papers with their statements, and our letters from the territory all give to it "confirmation strong as holy writ." The feeling aroused in the territory by that unprovoked massacre is terrible. There is a loud and united cry not only for justice but revenge, and such is now the numerical preponderance of the Free State men that revenge is sure to be had, even if the government denies them justice. It is plain that the day of reckoning is not far distant.

THE OLD TIMES REVIVED.—The York (Pa.) *Republican*, referring to the late municipal elections in Washington City and New Orleans, says that they seem now to occupy the same position they did in the last war with the British—the one in the hands of the enemy and the other not.

WASHINGTON, Thursday, June 10, 1858.—Dispatches received here from the Administration State Convention at Springfield, Illinois, state that John Dougherty was nominated for State Treasurer, and John Reynolds for Superintendent of Public Schools. These selections emphasize determined hostility to Douglas, and must lead to an irreconcilable breach between the two wings of the Democratic party in Illinois. Our intelligence states that one-fifth of the counties in the State only were represented, and that a large number from these counties withdrew, and more than half the rest will fail the ticket.

At date of our dispatch the notorious Carpenter, United States Disbursing Agent, was speaking, and declaring that Douglas should be beaten even if the Republicans should triumph thereby.

Lieb, the General Mail Agent, an ex-Mormon, and, according to public documents, formerly a leader of the Danite organization in Kansas, swears that the Douglas regular ticket shall be beaten at all hazards, and every postmaster removed who does not support the Administration or Republican ticket.

The nominees of the Convention were originally opponents of the Nebraska bill, though now Pro-Slavery leaders in the Democratic Israel.

The hostile separation between the two wings of the Democracy in Illinois is now inevitable. The nominations of the Buchanan Convention were intended to make a direct war on Douglas, and it is now impossible for him not to confront the issue distinctly and broadly.—*Wash Cor. of N. Y. Trib.*

GENERAL WALKER'S TRIAL AT NEW ORLEANS.—The Government has retired in a summary manner from its attempt to hold General Wm. Walker to account for his crimes of filibusterism. The trial of that individual and his right hand man, Colonel Anderson, has occupied three days of the valuable time of the United States District Court at New Orleans, and the Jury having failed to agree the Government declined to enter the course for a second best. The prosecuting officer, in a motion for a *nolle prosequi* to squash the whole proceedings, gave his opinion that the attempt to institute a second trial would result in a more sorry farce even than the first had proved. He added, that if a jury composed of the most respectable citizens of that community had failed to convict, the chance was very slim for finding one that would do otherwise. The Court appears to have been reluctant to grant the Attorney's application, but did so, and so the case ended —*N. Y. Times.*

THE REPORTED DISASTER TO THE PROPELLER BUCKEYE.—We are gratified to learn that the report of the blowing up of the propeller Buckeye, is traced to a vagabond in Penn Water, Mich., who hoped to excite public sympathy, and corresponding donations, by representing himself as one of the survivors of the disaster.—*Chicago Trib.*

THERE is an organized gang of swindling land brokers in northern Iowa and southern Minnesota, who are bound together by secret oaths and pass-words. They rob the emigrants by selling to them counterfeit titles to lands. In Iowa, there are already detected sales of land to the amount of $100,000 under these fictitious titles.

A Charleston evening paper, of the 8th, says:

"The suspended banks of this city, quietly resumed specie payments this morning. The notes of the suspended country banks are now and will be redeemed by their correspondent banks here, which makes the resumption general throughout the State."

NEWS FROM UTAH.—*Fort Laramie, May* 18th 1858.—An express has just arrived from Gen. Johnson's command, bringing us news up to the 6th inst. A letter bearing that date, written by an officer there, holds the following: "We are still existing, not living." "Duties are harder here, and accommodations poorer than I ever knew them to be before. We are considered lucky if we get every two out of three nights in bed. An express has just arrived from Salt Lake City, telling us that Gov. Cumming had started for the southern portion of Mormondom, and would not, in all probability, return here before ten days. He has been with the Mormons now over a month, and it is reported, and believed too, that he is making every exertion to patch up a compromise. A compromise with those who destroyed the fool for which we are now suffering—especially, *since on the 20th of this month we will commence to kill the mules to keep our animal existence from being extinguished*—it is not regarded with much favor in the army. There is some truth in the assertion by a member of Congress, that the 'army was a pampered herd of paid beggars.'

"It is snowing now, and has been for the last twenty-four hours, with the prospect of its continuing at least twenty-four hours more. All this is dreary indeed for men who have only one blanket to cover them."

It appears that Colonel Kane, the mysterious individual who went through California in such sweaty haste to Salt Lake, has succeeded in getting Governor Cumming into the hands and under the influence of the Latter Day Saints—Young has probably done with Mr. Cumming as he did with the Governors previously sent out there—bent him to his will and then made a tool out of him. Brigham is an able, artful man; he has labored to get a misunderstanding—a conflict between the civil and military authorities, and it seems has succeeded only too well. Gov. Cumming is said to have asked Johnson for an escort to enter into Salt Lake City, and Johnson is reported to have answered, "if you mean by an escort the army it is at your service; but if you mean twenty men, not one shall stir." The army was sent out to accompany you into Salt Lake City—it is your legitimate escort." The consequence, per report—a band of Danites escorted the Governor to the holy city of the Saints. There are many stories told in regard to a difference of opinion between the civil and military authorities; but as they are altogether unreliable, they do not merit notice. Young will doubtless arrange with Gov. Cumming so that the army may not enter this modern Babylon; then, as soon as the army is gone, the Governor will find he had better follow their example.

In his letter to Secretary Cass, Gov Cumming says he left the camp on the 5th of April, *en route* to Salt Lake City, accompanied by Col. Kane as his guide, and two servants. In passing through the settlements, he was greeted with such respectful attentions as were due to the representative of the executive authority of the United States in a Territory. Near the Warm Springs, at a line dividing the Great Salt Lake from Davis county, he was honored with a formal and respectful reception by many gentle men, including the Mayor and municipal officers of the city and by them escorted to lodgings previously prepared, the Mayor occupying a seat at his side in the carriage.

Ex Governor Young paid him a visit of ceremony as soon as he was sufficiently relieved from the fatigue of his journey to receive company. In a subsequent interview, ex Governor Young evinced a willingness to afford him every facility he might require for the efficient performance of his administrative duties. Brigham Young's course in this respect, Gov Cumming fancied, met with the entire approval of a majority of the Salt Lake community.

The territorial seal, with other property, was tendered to Governor Cumming by William H Hooper, the late acting Secretary of the Territory. The records and library remain unimpaired. Governor Cumming entered upon the performance of his official duty. With feelings of profound regret he learned that the agent, Mr. Hurt, was charged with having incited to acts of hostility the Indians in the Uinta Valley. The information came from Mr Hooper. He knew that Mr. Hurt could vindicate himself from the charges, yet they demand an investigation.

Governor Cumming had informed Gen Johnston that he should probably be compelled to make a requisition for a sufficient force to chastise the Indians.

At every point he was recognized as the Governor of Utah, and received with a military salute, the houses being illuminated in his honor.

Having heard numerous complaints, Governor Cumming caused public notice to be posted, signifying his readiness to relieve those who deemed themselves aggrieved by being illegally restrained of their liberty, and assuring the protection of all persons. He left his office open at all hours, night and day, and registered fifty-six men and thirty-three women and seventy-one children, as desirous of his protection, and evincing their disposition of proceeding to the United States. A large majority of these people were of English birth, and were promised assistance to be removed.

Gov. Cumming says that his visit to the Tabernacle will never be forgotten. There were between three and four thousand persons assembled for the purpose of public worship.—There was the most profound silence when he appeared. Brigham Young introduced him as the Governor of Utah, and Gov. Cumming addressed them for half an hour, telling them that it was his purpose to uphold the Constitution, and that he would expect their obedience to all lawful authority, assuring them of his determination to administer equal and exact justice. He was listened to respectfully. He invited responses, and several spoke, referring in excited tones to the murder of Joseph Smith, to the services rendered by the Mormon battallion in the Mexican war, and recapitulated a long chapter of their wrongs. The tumult fearfully increased, but an appeal from Brigham Young soon restored calmness. Several afterwards expressed regret at their behavior.

Gov. Cumming proceeds to describe the exodus of the Mormons. The people, including the inhabitants of Salt Lake, in the northern part of the Territory, are leaving; the roads are everywhere filled with wagons loaded with provisions and household furniture, the women and children following after without shoes or hats, driving their flocks they know not where.

They seemed not only content but cheerful. It is the will of the Lord, they say, and they rejoice to change the comforts of home for the trials of the wilderness. Their ultimate destination was not fixed upon. Going south seemed to be sufficient to designate the place, but from the private remarks of Young in his tabernacle, Governor Cummings thinks that they are going to Sonora.

Brigham Young, Kimball, and most of the influential men, had left their commodious mansions to swell the ranks of the emigrants. The mansions everywhere announced the intention by firing that the torch will be applied to every house indiscriminately, throughout the country, as soon as the troops attempt to cross the mountains. The people, though scattered, every means would be taken to rally them. Citizens of the Mormons are yet in arms, and the Governor speaks of the mischief they are capable of rendering as guerillas. The way for the emigrants to the Pacific is open.

Governor Cumming says that he would leave for the south on the 3d of May. He says that he will restrain all the proceedings of the military for the present, and until he shall receive additional instructions from the President.

KANSAS ELECTION ARRANGEMENTS.—Lawrence dates of June 3d state that the Board of Commissioners have had a second meeting and arranged some of the details of the election on the English Proposition to be held on the first Monday in August. Duplicate returns are to be made out by the Judges, one to be retained by themselves, and duplicates to be sent to the County Probate Judges, who are to forward one of them to Gov. Denver and the other to Mr Babcock, President of the Territorial Council All the returns to be sent in within ten days.

EARTH WORMS, says a Zoological writer, give a kind of tillage to the land, performing the same below ground that the spade does above for the garden, and the plow for arable land, loosening the earth so as to render it perfectly able to air and water. It has lately been shown that they will even add to the depth of the soil, covering barrow trucks with a layer of productive mould.—Thus, in fields that have been over-spread with lime, burnt marl, or cinders, these substances are in time covered with finely divided soil, well adapted to the support of vegetation.

THE RIVER—THE LEVEES.—The river is still rising slowly at this point. We learn from the officers of the Boon that it is rising at Memphis and all the way down. The news from above Memphis is unfavorable.

The Natchez *Free Trader* learns that the levee at Marango place, five miles above Vidalia, La., causes considerable apprehension that it will not last under the pressure of the water and the undermining of the whirlpools of the river. Should this levee break, there is no knowing what amount of damage to crops, cattle, etc, would result from it.—*Vicksburg Whig*, 2d.

THE DISCREDITED UTAH DESPATCH.—The despatch to the Boston papers, Thursday, of the news from Utah, stated that Governor Cumming was *"expected"* from Salt Lake City. The despatch received by the New York papers read *"expelled"* from Salt Lake.

This is probably the correct version. A wrong word in a sentence has often before created an unfounded excitement.

THE CROPS.—We learn from a gentleman just in from the interior of the State, that the corn crop is exceedingly fine and promising. As the papers below complain that the corn crop therein very unfavorable, we should congratulate ourselves that Minnesota is to lead off in this particular.—*St. Paul's Minnesotian, June 3d.*

THE New York Tribune says that Sewing Machines are being made at the rate of one thousand per week, and sold as fast as made.

In reply to Mr. Moran's, sweeping assertion, that all the railroads in the country are losing money, a correspondent of the Boston Transcript says, all the roads leading out of Boston, except the Eastern, will pay dividends in July, not from borrowed money, but out of net earnings.

THE London *Morning Advertiser* learns that the conference between the Lords and Commons has ended in the former agreeing to the principle of the right of Jews to seats in Parliament, and the result will be that Baron Rothschild will very speedily take his seat in the House of Commons.

It is said that the French Minister of War had sent a very strong circular to be read to all the officers in the service, relative to the late duel. It solemnly admonishes officers to avoid all quarrels with civilians, and imperatively prohibits officers corresponding with newspapers

The friends of Mr. Allsop have ascertained that the English government does not intend to proceed against him, since the result in the case of Dr. Bernard

A Great Medicine for Females.—Hundreds of attendants have been invented and sold, purporting to be specific in the various diseases and derangements to which the delicate form of woman render her subject. The result of all these simulacra has been to impart *secondary* or *fertile* to the *nervous* system, and false vigor to the *muscles*, but this relief has been succeeded by a depression and prostration greater than before; and the repeated attempts of invalids to build themselves up by these *false remedies*, have finally ended in destroying what little vital organization was left. But in using "Boerhaave's Holland Bitters," you will find no such disastrous results. It is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor Boerhaave.

CAUTION.—Be careful to ask for Boerhaave's *Holland* Bitters. The great popularity of this medicine has induced many imitations, which the public should guard against purchasing.

Caution to Invalids—Beware of Impostors.

DRS. CALVIN M. FITCH and JOHN W. SYKES (office 191 Penn st., Pittsburgh,) notice with much displeasure the above card of Dr. S. S. Fitch, of New York, and feel it their duty to caution the invalid public against pretended practitioners which seem daily increasing. Recent developments in New York, of the frauds practised by "old Dr. H. Jones," the "retired physician, whose sands of life have nearly run out," and of "Dr. Vosburgh," and others, seem to render it a more suitable time than usual, to expose such trickery, and vindicate our own character, and it is the more incumbent upon us to do so, inasmuch as the opinion prevails that this dishonesty is confined to these two or three cases. It is a fact, long true to our own observation of disorders in this and the States farther west, who literally rob invalids, not only of their money, but of their very life, by thus prevented them from procuring proper treatment in time.

Most of these travelling doctors take advantage of the prevalent but perverted idea that long disease can be cured by inhalations, and either profess to be connected with some eastern physician of great repute, or else with some far off and mythical Hospital or University, and invalids by their entire disease to regain health forget to examine *proofs and results of treatment*, but are persuaded by bare assertions to place their health and life in charge of incompetent and unprincipled men.

We have for some time been shrinking from this unpleasant duty, but can do so no longer, and trust this card may be the means of saving some from being deceived.

In conclusion, it is proper to say, as we have no office done formerly, THAT WE HAVE NO PRESENT CONNECTION WITH DR S. E FITCH OR WITH ANY OFFICE IN NEW YORK.
