Brown, Clay, Clingman, Davis, Fitch, Gwin, Hunter, Johnson of Ark. Johnson of Ky, and Yulee.

Naya—Messra. Bigler, Chandlar, Clark, Dooliitle, Douglas, Fessenden, Foster, Hamlin, King, Pugh, Rife, Soward, Staurt, Wilson, and Wright. Here, it will be seen, every man who voted to increase the rates of postage was a Democrat; while every Republican present voted against it, five Democrats only voting with them:

The proposition to increase the rates was introduced by Mr. Johnson, of Ark. An appropriate commentary upon his scheme is afforded by the following statistics, which are takenfrom a pamphlet, by Fliny Miles, upon the subject of Postal Reform. The number of letters carried annually in the five States of New York, Pennsylvania, Massachusetts, Ohio and Illinois, is 68,668,590; the number carried in the fifteen Southern States, is 35,921,521.

Southern States, is 35,921,521.

The stemember of Irbird and Arch, in a edifice which has long since given way before the corner of Third and Arch, in a edifice which has long since given way before the concreasing more of inprovement. His congregation was one of the largest them in the fift to assume the Presidency of the Woodleges at Princeton, and has been as the congregation was one of the seminary, at Alleghony was a distinguished writer on theological subjects. He united to the read of a Christian the grace of the gentleman, as well as the sculier of the scholar, and his memory will long the following statistics, which are takenfrom by any point of the scholar, and his memory will long the following statistics, which are takenfrom by any point of the scholar, and his memory will long the following statistics, which are takenfrom by any point of the scholar, and his memory will long the following statistics, which are takenfrom by any point of the scholar, and his memory will long the following statistics, wh

pours into the National Treasury, under this head, the magnificent sum of one hundred and seventy-one dollars! New York and Massachussits alone pay \$2,750,300 per annum for postage; their expenses for this object during the same-period, amounting to \$1,423,305. The Southern and South Western States pay for their postal facilities, the annual sum of \$2,739,277; while the expenses of providing them, amounts to \$4,318,780. It will thus be seen that all the Southern States pay less for postage than two Northern ones, while their expenses are three times as large! The actual cost of carrying a latter in New England and New York, is one cent and eight mills; in the Middle States, three cents and three mills; in the Southern and South Western States are content and the mills; in the Southern and South Western States, air couls and deveron mills. cent and eightmills; in the Middle States, three cents and three mills; in the Southern and South Western States, six cents and seven mills in Arkansas, eighteen cents and seven mills in Arkansas, eighteen cents and three mills. Here in, if we mistake not, will be found the entire milk of the ecocannt which we have opened.

A reference to the record of yeas and nays, by which the proposition to raise the rates of postage was adopted, will show that every member present from a self-sustaining State voted against, and that every member from a pauper State voted for the amendment. It was very natural that Mr. Johnson, of Arkansas, should make such a motion, because the burden of the increase would scarcely fall, in any perceptible degree, upon his own ignorant constituents, but almost entirely upon the laborces and mechanics of the North, who are slready disproportion ately taxed.

THE PURPONE OF THE LOGDFOCOS.—The wirepullers of the lacofocos give out here to such disaffected Republicang as they can find that the locofocos will not dominate a county ticket, and thay hold this fout as an inducement to the nomination of the bolting ticket; but abroad they announced the field, as soon as they can get the bolters to do anything. Thus, the correct was the bolters to do anything. Thus, the correct was the bolters to do anything. Thus, the correct was the bolters to do anything. Thus, the correct was the bolters to do anything.
