A Disoracorous Reverance.—We copy from the Mobile Register a letter written by Walker, the great Fillibuster, in which there is a statement of an intrigue on the part of our Government that seems almost incredible. It is neither more or less than a conspiracy against the peace of an neighboring Nation, endangering the peace of our own, and which, had it been successful, would have placed us in a most damaging and unjustifiable position before the world.

Walker's story is that he and Henningsen were urged by Mr. Secretary Floyd to turn their attention to Mexico, and to enterinto the service of Comanfort, with the understanding "that come with perfect fourlesses up to the very decided by some act, such as tearing down the fing. of Spatia, and Coba might then be seized by the former power."

In this operation Walker says they were promised not only the support and protection of the U. B. Government, but Money from the Federal Tressury to carry it out!

The Washington Union denied this story at first; but now that it is repeated circumstantially, with the authority for it, we fancy it will be found more difficult of contradiction than when it appeared solely on Walker's authority. Unless positively and sircumstantially denied, this detailed report of the conversation between Secretary Floyd and Gen. Henningsen will be regarded as not only convicting the Administration of Mr. Bochanen, and thus throws a large bombshell into the ranks of his Douglas discount of the processor of centerialing most disbonorable designs upon a neighboring republic with which we were professedly on entirely and alternated the processor of the conversation between disbonorable designs upon a neighboring republic with which we were professedly on entirely anisoble terms.
