The only excitoment at the rirer generalsy was the At-lantic telegraph, and proparations for the celebration last night were going on rigorously. The scene on the river last night was beautiful in the extreme. The river is too low for either arrivals or departure. We have, therefore, nothing to report. The Western mail was-toot distributed at a late hour last night, and we have there fore nothing to add by mail ARRIVED.

DROFESSOR WOOD'S HAIR RESTORA
I TIVE.—We call the attention of all old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the baid with a luxuriant growth—removes the dandruff, itching, and all cit aneous eruptions—causes a continual flow of the matural fluider, and hence, if used as a regular dressing for the barr will preserve its color, and keep it from falling, to extreme old age, in all its natural beauty. We call then upon the bad, the gray, or diseased in scalp to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its prake is upon the tongue of thousands.
