McDowell, S. B. Boberts, J. W. Rutlagg.
On motion Conference adjourned, prayer by W.
C. Williams.

Lackett is Endler Township. A beshive, belonging to Mr. Shaefler, of Findley tp., and containing the summer's industry of a large swarm of little worknen, was stolen from his premises on Wednesday night last. The live and all that it contained was taken to the wood, where the bees were destroyed and the honey eaten. Several suspicious circumstances directed attention to three young men who had been out "coon huntling," that evening. Advantage out "coon huntling," that evening. Advantage out "coon huntling," that evening had all third account of their "chase," but the seem of this fact. The young men were severally secosted and requested to give a brief sind faithful account of their "chase," but the seem on the source of Market and Water streets, co-capite as an office for the Orrison bowkers and on the corner of Market and Water streets, co-capite as an office for the Orrison bowkers and the was inexperienced in the was every incommance indetail. The ingenuous ness which characterized his account showed that he was inexperienced in the walke of vice. This one, along with another who had been led into it against his own will, were very penlient, and offered ample reparation, and declared it would be the last time they would "state about the summer's more hardened by a life of profigacy, boketed of his connection with the affir, and left for parts unknown. An officer is in purruit of him, He is unually called. This is a delightful grap in the content of the work of vice of the party, more hardened by a life of profigacy, boketed of his connection with the affir, and left for parts unknown. An officer is in purruit of him, He is unually called. This is a delightful grap in the content of the work of vice of the party, more hardened by a life of profigacy, boketed of his connection with the affir, and left for parts unknown. An office

This woman died and was buried in January 19 preceding the conference on in the morning was fixed at 8 octock, A. Mr. This is a very material a variance from the statement of Mrs. Moore, who spake of the hard of the present exists on the printed rules of order used at the last institute was taken up. On motional Conference adjourned with prayer by R. T. Simanton.

1. The case might have been, in all probability, disposal of yesterday by Drs. Baldwin and Motock, but the counsel for Mrs. Moore desired the opinion of a practical chemist. Mr. Geo. We was a present of the printed and approved. The axmination of character was taken up. On motion the Conference was the strength board of yesterday by Drs. Baldwin and Motock, but the counsel for Mrs. Moore desired the opinion of a practical chemist. Mr. Geo. We was a present of the printed and approved. The axmination of character being the business in order was resumed. On motion the Conference were that Committee.

On motion the Conference was that Committee.

PROFESSOR WOOD'S HAIR RESTORA.

ITVE.—We call the attention of all old and young, to this wonderful preparation, which turns back foil to regimn and growth—removes the dead of the baid with a luxuriant growth—removes the dadruff, fliching, and all cutaneous eruptions—causes a continual flow of the natural fluids, and hence, if used as a regular dressing for the hair will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the gray, or diseased in scalp to use it; and surely the young will not, as they valoe fire flowing locks, or the whiching cut, ever be without it. Its praise is upon the torque of themsands. rety mean, the many of prime very small. And more institute and the number of prime very small. And more institute and the number of prime very small. And more institute than the prime cattle brought nearly as high prices as they did hast week. Last week the best quality seld at about 8½c, and some few brought that colory but by far the greater portion, even of the very best brought old price in the properties of the prope

tie to try it, and I found to my astifaction it was it removed the extra fand harb began to grow it, or larve inclosin length where it was all if. I faith in it. I wish you to send no two bottles distinct the bearer of this. I don't know as any the send in the same of the send in the place, you may have a market for loss after it is known from the send in the place, and it is well as wel others, and all the New Settlements, and even the Counties of the kind is used in this place, you may have a market for the same scale; compiled from Corresponding and other reliable sources.
