REASONS for buying at home in place of from Tree Peddars.

1st. We sold Cherry Trees last fall at from 31 to 40 cents that they charged 50 to 75 cents for. Apple (2d class) 12½ that they charged 17 for. Peach at 12½ that they charged 25 for, and other things in proportion.

2d. You can have them planted in few hours after they are taken up, while the peddars' trees have weary hours to pass on canals and at railroad depots before they reach the planter.

3d. If mistake occur a proprietor is still about to correct them, but a peddar, where is he?

With the Screw Steamers MINERAL ROCK, and GEN. TAYLOR, making the Trip from Cleveland every WEEK through the season.

The "CITY OF CLEVELAND" and "ILLINOIS" have been fitted up expressly for the traveling public; being accommodated with spacious saloons, state rooms, and apartments, UNEXCELLED. The "IRON CITY" is completely regulated; her Cabin being extended her full length, and fitted up in first class passenger accommodations. Low rates and freighting facilities—with the "MINERAL ROCK" and "GEN. TAYLOR"—are unbeatable.

For a Pleasure Trip, the Upper Lakes are becoming each succeeding season more popular; none affording the tourist, seeking either business, health or pleasure, so many attractions. Leaving Cleveland, the traveller passes over Lake Erie, through the beautiful rivers Detroit, St. Clair and St. Mary's, and over the St. Clair Flats and Superior Passage, visiting the Island of Mackinac, and the Pictured Rocks; visiting Marquette, Portage Lake, Copper Harbor, Eagle River, Ontonagon, La Point, Bayfield, and Superior City, with many other localities of interest; giving the scientific and entertaining tourist opportunities for visiting the Copper and Iron Mines; the seeker of health the cool and bracing climate of the Northwest; and the sportsman and lover of the romantic, the most thrilling pleasure for fishing and exploring.

The Steamers make the round trip in eight days. Rooms for any of the trips can be secured by addressing

GAS FROM ROSIN OIL.

OFFICE 84 FIFTH STREET.

FAITHFUL FIRE-MATERIAL.

THE HIGH ILLUMINATING PROPERTIES of Gas from Rosin and oleaginous substances have always made them a favorite material for the manufacture of coal gas together, with the attention and expense constantly required and the difficulty, if not impossibility, of supplying many places with wholesome, delightful and inoffensive gases, generated in coal, render the ROSIN OIL APPARATUS the cheaper and more desirable in every way.

S. COATES, 326 Broadway, New York, has invented and patented a new and improved Rosin Oil Apparatus, which he is now manufacturing and offering to the public, and no danger of explosion; more brilliant than gas, and quite as cheap; lamps of the most elegant and convenient pattern; and unsurpassed for safety.
