resolution. On the contrary, the County Committee, in their address, took occasion to reaffirm it in full, and the candidates on the Republican licket have all expressed their concurrence in it. , The Republican party stands, therefore, just where it stood in January last, on this question. but now he assails it and its candidates with all the opprobrious epithets he can command. And why ? Not because it has changed ground, for we have shown that it has not. His opposition,

there can be but one other cause for it-disappointed ambition. We need not say, here, that if Mr. Williams

was present during the session of the Republi. can convention, and used his personal influence with several delegates to get their votes for Mr. Moorhead ; and we may safely say that it was the exercise of that influence, which secured Gen. Moorhead's nomination on the second ballot. He knew, then, what views Mr. Moorhead entertained on the railroad question, and was

apparently anxious not only for his nomination ut election. Yet he is now, without a particle of change on the part of Gen. Moorhead, engaged in attacking, sburing and traducing him; and is one of the parties to an arrangement by which the votes of his anti-tax friends in the Republican party are to be transferred to Mr. Burke, a Lecompton, free-trade locofoco. Such is the bargain which he has driven with the ocofocos.

We have cited these facts to show, as they do My yely show, that Mr. Williams' hostility and the blican party is hot one of principle, that parties not grow out of the position of is just the the tax question, for its position he was entir as it was in January last, when ance is a fair on issied with it; and the inferbecause it refused to makes war on it simply Hence the justice of out him for Congress. the bould give special heed. him. Ws are authorized by Mr. McKnight to state through the farce Intely played at Bakerstown distinctly that he has had repeated conversations with Mr. Thomas Williams, when he protions with Mr. Thomas Williams, when he pro-fessed to be a friend, in which he (Mr. McK.) told him that one ground of dissatisfaction he had with the Directors of the fistubenville R. "The vote of, the member from this District in the next Congress is likely to decide for whom the vote of Pennsylvania shall be cast for Pres-ident, and by the vote of Pennsylvania is likely to be decided whether a Democrat or Republi-can shall be the next President of the United States. This is not mere speculation, but it is a state of affairs which the signs of the times indicate as likely to exist. What then is your dut? If Jonsthan Kolight should be elected do you think he would vote for the Democratic candidate? On the other hand, if Monigomery should be elected is it not absolute-ly certain that he would vote for the Democrat-ie candidate? Then go to work for Monigomery, remembering that upon your present exercises may depend the success of the Democracy in the next Presidential context." blag already well established, and requiring a compar-blag already well established, and requiring a compar-lively small capital.
