SCARCE OF MATERIAL .- The locofocos of this Congressional district have not been able to find a single man within its bounds who is fit to

to Philadelphia for one? They might have got Florence, or Owen Jones; and even J. Glancy Jones would swap his worthies chance in Berks for the shadow of a chance comewhere else. What a poor, beggarly party it is! Claiming to be the only national party, and the only party fit to rule the insidence in a population of 200,000, find more than one democrat fit to go to Congress, and he does not live in the district he wants to represent. Why, the old Abolition party, in the days when Farley ran on its ticket, and of the old vote-yourself-abolity with the high, and yeased through—causing a little with the firm of the court of t on its ticket, and of the old vote-yourself-a-farm party, merer found themselves so utters.

regards the institution as an evil, and also a great drawback to the growth and prosperity of that ancient commonwealth. He contends that its commerce, its mechanical pursuits and its agricultural employments would be benefited and advanced by its becoming a free State. He says the subject has at present a deep place in the minds of all classes of people in Maryland, and is especially favored by the workingmen.

We quote a portion of the communication:

"There are in the State some 10,000 to 12,000 persons who are owners of slave property. This is but a small prespects of she whole white population, probably 1-25. "There are in the State some 10,000 to 12,000 persons who are owners of slave property. This is but a small preportion of the whole white population, probably 1-25. Nevertheless all are interested more or less in the subject, and is it nes within the bounds of truth to say that the interest of all suffer thereby to some extent. When we look at the astonishing progress of our free States in population, wealth, &c., it cannot be desired that Maryland as a free State would make rapid strides towards prosperity. Her natural advantages are scarcely equalled by any of her sisters. Yet, taking the city of Baltimore from the calculation which has been held up mainly by free labor—how slow has been her progress since the Revolution. The value of the slave population at \$400 a head average would be about thirty-free millions of dollars. Assessing a fair proportion of this sum to owners of slave property for benefits in the increased value of their real estate, which would quickly steadily accrue under the new size of things. Deducting also for voluntary contributions which many would and all property fowners migh willingly advance with the certainty of lauder the state of things. Deducting also for voluntary contributions which many would and all property from the size cancer I have mentioned, could not the State very prudently assume the balance of the debt with a certainty of liquidar ing it from increased received which she would receive from rapidly increasing and appreciated property?"

ATTACK OF INDIANS ON A PEMBINA TRAIN.—We received a letter on Sunday, from James McFetridge, collector of customs at Pembina, from which we make the following extract:

"It is with regret that I have to announce the murder of three of our people, by the Sioux of the Plains. They were on their way from St. Paul, and were within one day's march of Pembins, when the party was attacked, being only four in number, by a band of nine Sioux. Three of our men were instantly killed and scalped the remaining one of the party luckily made his escape.

But hadly off as they were here, there are still worse off in the Allegheny district. There they cannot find a candidate at all, although they have two counties to pick from. They have sooured both and given it up as a had job, and are content to take up with the cast off lumber of another party. Why did they not go to Phitadelphia for one?
