the election of Mr. Burke to Congress from this

First-He is a locofoco, pure and unadulterated. This, to any true-hearted Republican, should be enough. He went to Cincinnati as one of Buchanan's delegates to the last locofoco

Second—He is a Lecompton man. He has sustained the Buchanan administration throughout, endorsing the Lecompton awindle, and justifying all the outrages that have ever been committed for the purpose-of fastening Slavery upon Kansas—"Oxford frauds" and all. He is, now, the supporter of the English bill and in favor of the policy marked out therein, of allowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with lowing Kansas to come in as a Slave State with low in the scat now, occupied by Mr. Doughas was taken by surprise and his whole support and his whole support and his whole speech as made in self defence and was very lame to a Lincoln won his best laurels in his this state by surprise and his whole speech as a state by surprise and his whole support to the state of fillinois appears to be given up to politics at present. J. Glancy Jones made just such professions, them immediately afterwards; and no Pennsylpolicy of his party, (as Mr. Burke does,) will ever be permitted by the South to vote for a pro-

Fifth-He does not live in the district. The act of Congress regulating the election of mem-bers of the House, provides that no district shall have more than one member; yet if Mr. Burke is elected, this district will have no member, and the 22d district will have two. The intention of the law is that each district shall have its own member; and the election of Burke cleation of Dewart, in the Northumberland district, in your State; Gillis, in the Clarion district; Owen Jones, in the Montgomery district; intention. Every district ought certainly to Abl, in the Cumberland district; and, of course, I and the Clarical Country of Course, I are the Course of Course of Course, I are the Course of Course of

midst, or the noisy brawler, whose only fortune

is in his tongue? -These are enough, for one day. On the tax question, Mr. Burks and Mr. Moorhead occupy precisely the same position. Neither of them, if elected, can contribute anything towards its settlement, and so far as their personal sentiments go; there is no difference between them. The attempt to foist Burks into Congress, because of his position on the Tax question is simply a any population, and with such a tariff as would tune of the n

In choosing between Williams and M'Knight it is not, as some of Williams' toadles would have the people believe, a mere choice between ablicans, but a choice between M'Knight an undoubted Republican, and Williams, the candidate of Gibson, Campbell, Lynch and Dunn, the federal office-holders and represents tives of Buchanan. No man, it is safe to say, is worthy of the political confidence of a Republions who possesses the confidence of Buchanan

and is handsomely bound. It is a story that will find his greatest difficulty in encountering the few opening chapters, which seem compli-

cated and mysterious. There remains recently best a man senseless, and then laid him across the track of the Datroit and Milwaukie railway, just before a train approached. The man was seen by the angineer in him before resolving the spot, and four men being discovered running for the woods, the conducter and several passengers gave chase, and aspiared three of them. They proved to be the villians who had committed the outrage, and were lodged in jail.

In is stated that secual statistics show that during the less firty years, "the number of members of the evangelical churches in the United States, has increased from four hundred thousand to three millions and a half, being an increase of sight-fold; while our population has increased eight-fold; while our population has inco

ILLINGIS.—Another of those tremendous outpourings of the people the like of which has never been seen before on similar occasions occurred on Saturday last, at Charleston, Illinois. It was the fourth great passage at arms between Douglas and Lincoln. It is estimated that about twolve thousand people were present. Mr. twelve thousand people were present. Mr. Lincoln opened the ball in an hour's speech, Douglas answered in one of an hour and a half, and his antagonist concluded in a rejoinder of

a half hour.

843. This is the charge Trumbull made at Chicago and at Alton: the "die" for which Douglas was to cut off Trumbull's cars some of these days and cram them down Trumbull's throat.

Almost in the beginning of his last speech. Lincoln alluded to Trumbull's speech as follows:

"This speech was published at length; and subsequently at Jacksonville Judge Douglass linded to the matter. In the course of his speech, and near the close of it he stated in regard to myself what I will now read: 'Judge Douglas proceeded to remark that he should not hereafter occupy his time in refuting such charges made by Trumbull, but that Lincoln having indorsed the character of Trumbull for veracity, he should hold him (Lincoln) responsible for the slanders.' I have done simply what I have told you, to subject me to this invitation to notice the charge. I now wish to say that it had not slanders.' I have done simply what I have told you, to subject me to this invitation to notice the charge. I now, wish to say that it had not originally been my purpose to discuss that matter at all. But inasmuch as it seems to be the wish of Judge Douglas to hold me responsible for it, then for once in my life I will play Gen. Jackson and to the just extent I take the responsibility. [Great applause and crics of 'good, good,' 'hurrah for Lincoln,' etc!'

Then Lincoln went on, and with the exact copy National Convention, and was his warm and of the Toombs bill in his hand, and an undisactive friend in that body. He worked hard for puted copy of the same after it had undergone his election afterwards, and has always been the manipulation of Mr. Douglas, he fortified noted for his ultra political views and bigoted the charge. He also brought the speech of poor noted for his ultra political views and bigoted adherence to his party. He never voted for a Ropublican in his life, and nothing could induce house of Douglas in which the course afterwards him to vote for one new.

Second—He is a Lecompton man. He has Douglas was taken by surprise and his whole

no doubt, be granted. The locofoco conferees of the York district, who have balloted some hundred and twenty times for a Congressional candidate, without success for a Congressional candidate, without success for a Congressional candidate, without success, will meet again on Friday. The friends of Ahl are as obstinate as "mules" thus far.

"Occasional," under date of Sept. 20th, says: "The administration quietly gives up the re-clection of Dewart, in the Northumberland diswomen therefore be directly in the depth of the first intention. Every district ought certainly to have enough self-respect to choose one of its own citizens for a representative. The idea of going into another district for a member is revolting to a just local pride and a stigms upon the district itself.

Sixth—Mr. Burke has no interest in the district. He owns no property iff it, has nothing this care at stake in it, and is not identified.

The Washington correspondent of the President's property iff it, has nothing the district itself.

The Washington correspondent of the President's property iff it, has nothing the district itself.

The attempt to foist Burke into Congress, because of his position on the Tax question is eimply a trick to get rid of the national issues involved in his election. The scheme is to elect a locofoco to Congress, not as a locofoco but as something else, and then claim his election as a locofoco victory. Let no Republican be deceived by such trickery.

Mr. Tromas Williams is now the recognized locofoco Lecompton candidate for Congress in the Allegheny district. He will be supported by the mass of the locofoco party, and has the andorsement of James A. Gibson, John C. Dunn, David Lynch, U. S. Marshall, Campbell, and all the Federal representatives of Mr. Buchanan in this part of the State. These men are acting, beyond a doubt, under instructions from Washington. In supporting Williams they are doing as Mr. Buchanan wishes them to do. David Lynch, it is well known, has the private ear of the President and is so thoroughly in his confidence that every step he takes politically may be understood as having the sanction of the President. We are antiborized the response to the same game that is play.

This is precisely the same game that is playing in this district. Mr. Burke makes a sort of half-and-half pledge in favor of a newtariff and national questions is satisfactory to Mr. Buch- is endeavoring to make the people believe that f elected he will vote for a revised tariff; but precisely such pledges were made by Glancy Jones, and in the "Clarion letter" and the "Kane letter," and every body knows that hey were violated. Burke's pledges are not worth a whit more.

The Washington Union declares that the most important part of the Dred Scott decision is that part which affirms that slavery goes into every territory of the Union, under the constitution, and that the people of the territory have no power to rid themselves of it. The Union also declares that that portion of the Democratic party belonging to the south, must not agree to allow the Democratic party of the north any latitude of opinion on national questions. It further says that the least indulgence of liberty of opinion on the equations, will be fatal to of opinion on those questions, will be fatal the Democratio party and the Union. This
