Should our clitzens subscribe a sofi-cient sum for the purpose, this efficient company will at once procure a steam fire engine, and place it in their house on Irwin street, for effi-cient service. We trust our clitzens will sub-scribe liberally to the object. With such an ald, in the hands of experienced firemen, our fire department would be rendered much more effec-tive than at present.

tive than at present. COLLISION.—We learn that there was a col-lision on the Baltimore and Ohio Railroad, at Kingwood tunnel, on Sunday night, the trains colliding being the Express from the East and the Accommodation from the West. Fortunately, but little damage, besides the crushing of the cow-catchers, was done. The collision is said to have been occasioned by the failure of the con-ductor on the Express train to observe the time-table, which had just been charged, in conse-quence of which he has been summoned before the Company's officials at Baltimore.—Wherling Times.
