To the Associated Press:

Accompaning this, I beg to hand you copies of rocent communications from the honorary Directors of the Atlantic Telegraph Co. and myself to Mr. De Santy, the chief electrician at Trinty Bay office.—Mr. De Santy's answers will be furnished for publication without any unnecessary delay. I deem it proper to state as the result of my enquiries concerning the dispatch of Thursday from Trinity Bay announcing the resumption of perfect signals through the cable from Valentia, that the announcement was made through a dispatch from the Superiotendaht of the land lines in Newfoundland to the agent of the Associated Press and was unquestionably reported in good faith, but as the information has not been confirmed yet by Mr. De Santy, who, alone, has full knowledge of all the facts, I regard the statement as possibly premature. It is conjectured that the shore end of the cable at Valentia must be taken up for a distance of several miles, which, by reason of bad weather or other unavoidable difficulties, may occupy three pr four weeks.—The depth of water within 200 miles of the Irish coast is placed the could be raised if deemed necessary.

Respectfully, &c.,

New York, Sept. 24, 1858.—To C. E. De Santy. New York, Sept 21.

New York, Sept. 24, 1858.—To C. E. De Santy, Trintry Bay: Great dissatisfaction exists in this country with the reserve maintained at Trintry Bay, in contrast with the frank communications from Valentia to the British public. Gife us_daily information of the state of the telegraph usder your charge. (Signed) Peter Cooper, Gyrus W. Eield, Wilson G. Hunt, E. M. Archbald, Watts Sherman. The above was taken to the officers of the other honorary Directors in New York but they could not be seen; hence the absence of their signatures.

be seen; hence the absence of their algustures.

NRW YORK, Sept. 24, 1858—12 o'clock M.— To Mr. De Santy, Trinity Bay: The dispatches from you and Mr. Mackay are contradictory. Now, please give me explicit answers to the following inquiries: 1st. Are you now or have you been within the last three days receiving distinct signuls from Valentia? 2d. Can you send a measage, long or abort, to the Directors to London? 3d. If you answer the abors, please tell me if the electrical manifestations have varied essentially since the first of September.
