Go to the Meeting To-Night. We call upon all the Republicans in the city to rally to the meeting at Lafayette Hall to-night Let that building be commed full. It will do

much clear benefit to them when the Presidential struggle comes round. Hence, knowing that they are not able to cope with us in numbers, they have made a feint of laying down their arms and abandoning all causes of national difference, that they may, by virtue of hollow preserves, and lying professions upon a local issue.

We appeal, therefore, to the young Republi-cans of Allegheny county to give their aid in thoroughly defeating an enemy that resorts to our ground, now, it will be much easier to maincans gird on their armor and do vigorous duty from now until the election is over, and the accomplishment of a glorious victory will not only repay them with its cheer, but render their future labors casy by such an important pre-

Be exid:

"Work for the tinket boys, as hard as if I were on it. That's the way I intend to do."

That is the true spirit; and if Enoch Carson lived in our beat we would go for him for any office he might covet—next time.—Alb. Jour.

So would we. How different, and how much more manly, honorable and commendable the speech and conduct of Enoch Carson than that of the man who works by himself and friends for a nomination, and failing to get it in a full and fair convention, expresses a willingness to let his personal friends and political opponents use him to defeat his competitor at the polls.—If there is any honor manong men, it is sacredly pledged by the candidate who seeks a nomination in the convention of his political party. To both from their decision, to seek to, or to consent and the proves the bolter to be unworthy the confidence and support, not only of his own party, but of his fellow cilizens without respect to party. Defeated candidates in conventions should on the brief and manly speech of Enoch Carson, and act out its spirit.—Cleec. Leader.

The case of Enood Carson was even stronger than here stated. He had recrired the nomination—fairly and honestly; but there was some grumbling at the distribution of the candidates and he withdrew, making way for another who was supposed to be more satisfactory. It was after his voluntary withdrawal that he made use of the language given above.

tion, of Lehigh, the latter county having the choice this term.

"In a conversation we had with Mr. Bannister, he said that on this last expedition they had made a thorough search in the neighborhood where the balloon descended, and through a circuit of several miles around. They then proceeded north to the river, followed to up to "Little Bear Creek," and eight miles up to blot channel to Wallacksburg. Not the elightest clue could be found. He describes the journey as the most arduous he ever undertook in his whole life, leading them through deep swamps and wide marshes, many times impassible without the aid of boats. He said he had entirely relinquished the idea that Mr. Thurs ton oame into Canada at all.

He has taken great pains to aift the rumors in regard to a man's, being seen upon the balloon thoroughly, and is convinced they are without foundation in fact. A reward of twenty-ive dollars was offered the hunters and other five dollars was offered the hunters and others who inbabit that region, (enough to excite them to effort,) for the recovery of the body—Mr. Bannister thinks now, that the violent motion of the balloon swaying to and fro in the air, and its great elevation (three miles,) caused the unfortunate man to resign his hold and drop to the earth, in which case he must have been dashed into such minute particles as to leave but few traces.

PULL ME DOWN FATHER -Such-says the S Louis Democrat—was the pitcous, touching appeal of the clder of the two children in the balloon in Illinois, when the cry grew fainter and fainter as the balloon shot up carrying the little voyagers out of view of their agonized parents, who, with friends, stood frantic at the sight

Let that building be cambed full. It will do good to Republicans to see one another face to face and catch a spark of the fire that burned so brightly in 1856. Turn out, with one accord!

A yew Words to Young Republicans.

"Old men for counsel and young men for war," has been the allotment of labor in overy severe struggle, and if must be so still. In the days of the Whig party, it was the young men who took upon themselves the hard labors of the campaign; in 1856, also, it was to the young men of the county we looked for our most ardent and efficient laborers; and it is to the young men we must look, now, for much of the active service which the cause of Freedom demands. To them it belongs, of right, to bear the burden and hoat of the day; and their feeling is too ardent—their sense of duty too strong, to pormit them to be idle when there is anything to do.

A bold, determined and impudent attempt has been made to force a break in the Republican ranks and throw our lines into confusion. This is the preliminary battle to 1860; and every inch of ground gained now by locofoccism is so much clear benefit to them when the Presidential struggle comes round. Hence, knowing that ight.
Their rescue was as follows:

arms and abandoning all causes of national difference, that they may, by virtue of hollow pretences and lying professions upon a local issue throw our men off their guard, gain the help of some, and so plant their standard within our treaches. No true, wide-awake Republican will be deceived by them, for it is plain that all their professed concern about taxation is simulated—put on to deceive and obtain a leepfoor victory under false colors; but in order to defeat the counting scheme, it becomes necessary to around the Republicans to vigilance that every spot may be defended thoroughly against the inside ous approaches of the foor.

At such a time, it eminently becomes the young men of the Republican party to don their armor and take the front rank in the approaching signingle. Locofecoism and the the front rank in the approaching signingle. Locofecoism is the same under all diguises. Assume what shape it may, it is still Locofocoism and nothing else. It has nominally thrown aside its national principles, here, to do battle upon another issue; but it does this only because its leaders are hopoless of success of interior legituation and this the first professor of the docored and aligh their men into office, but it is the success of locofecoism. and this the rall that there are all that the report about the success of locofecoism and the the front rank in the approach is success of locofecoism and the the front rank in the approach in the colorous and take the front rank in the approach is successed in the colorous and nothing else. It has nominally thrown aside its national principles, here, to do battle upon another issue; but it does this only because its leaders are hopoless of success of interior colorous and the colorous and nothing else. It has now in all the their legitimste platform, and this local question of plate and the colorous and the colorous and nothing else. It has now in the professional principles, here, to do battle upon another issue; but it does this only because its leaders are hopoless o

After speaking he requested that "Jerusalem my happy home," might be sung; he said that many present had sung it with him on more happy occasions. He started the tune himself. While singing, he called his aged father on the platform, threw himself upon his neck, inter-rupted his singing only long enough to say "farewell," and then continued to take the lead. His mother with his little daughter came for Nay, the reasons are stronger, now; for then the party fought, for once, in the open field, "without sneaking under cover; whereas now it is skulking under all sorts of concealments.

We sppeal, therefore, to the young Republicans of Allechary county to size the form of the same of ber, and took his little one in his arms, kissed it and all without seeming to be interrupted. So also with a brother. They all left the ground before he fell. He also while singing, shook hands with some twenty others. Among them two of the brothers of his murdered wife. MR. FRENCR'S (Repub.) majority for Congress in the 3d District of Maine is 60. Muchegan Ele, the last place to be heard from, gives him 6 majority. All the rest of the District (one town unofficial) gives him 8,998 to 8,910 for Jahnson.

Between Third and Fourth, BY A RECENT CLOSING OUT SALE,

Mr. Foster in the Vith-District has 127 majority, in spite of the most scandalous frands
in Aroostook. That county gave last year 1,001
Republican to 1,238 Democratic votes, being the
largest vote it ever cast. In 55, it gave Fremont 827, Buchanan 795, Fillmers 8. It now
returns 917 for Foster and 1,601 for Bradbury
(Dem.) though most of the townships show no
material change from last year. But Madawasks. which last year gave 103 Repub. to 103 Dem.
(which was a full vote) is now reported its handred majority for Bradbury! Here is a clear,
manifest, audacious swindle of at least Five
Hundred notes; and it was paralelled on as maller
scale at three or four other places. Had not
the Republicans of Hancock and Washington
increased their majorities of last year, these
frands would have robbed them of the seat in
Congress.

The Sixteenth District.—The action of the Congressional Conference at Bridgeport, on Saturday, by which the claims of Perry county were ignored, and Mr. Fisher, of York, nominated for Congress, has caused great dissalistic factlon in Perry and Comberland. The friends of Mr. Ahl are dissatisfed, and the friends of Mr. Molutire indignant at the manner in which he was treated Fisher, being a Lecomptonite, his nomination will be repudiated by the anti-Lecompton men of the district, who will either run an independent candidate or support Mr. Junkin, the People's nomines, and a first rate man. We have it from Democrats who are 'wooked up' on the subject, that Mr. Junkin will undoubtedly carry Perry county. The mass of the Democratic party will not be forced into the support of a man whose success would be regarded as sustaining an Administration which sought to force slavery upon a free people.—

TUE BELL CREVARSE.—This locality now presents a scene of destruction rarely, if ever with nessed before as coming from a similar cause, and one which gives the spectator even a more forcible idea of the fury and strength of a crevasse than was presented when the waters of Mississippi were pouring ever the ground in a raging torrent, aweeping all before them. The spot looks like a desert. Not a blade of grass appears where once was smilling plantation verdure. The ground is furrowed into every shape, and the channel of the crevises is wide and deep enough to form a respectable river.—New Orleans Picagune, Sept. 22.
