RICHARDSON'S IRISH LINENS, Damasks, Diapers, &c.

CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm,

RICHARDSON, SONS & OWDEN,

as a guarantee of the soundness and durability of the Goods. The attention is rendered especially necessary as large quantities of inferior and defective Linens are prepared, season after season, and stamped with the name of RICHARDSON, by Irish Houses who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, 'will not' readily abandon a business so profitable, while purchasers can be imposed on with goods of a worthless character.

REASONS for buying at home in place of from Tree Peddars:

1st. We sold Cherry Trees last fall at from 31 to 40 cents that they charged 50 to 75 cents for. Apple (2d class) 12½ that they charged 17 for. Peach at 12½ that they charged 25 for, and other things in proportion.

2d. You can have them planted a few hours after they are taken up, while the pedlars' trees have weary hours to pass on canals and at railroad depots before they reach the planter.

3d. If a mistake occur a proprietor is still about to correct them, but a pedlar, where is he?

The "MINERAL ROCK" and "GEN. TAYLOR" are admirable.

For a Pleasure Trip, the Upper Lakes are becoming each succeeding season more popular. Nothing can be more interesting, seeking either business, health or pleasure, so many attractions. Leaving Cleveland, the traveller passes over Lake Erie, through the beautiful river St. Clair and Lake St. Clair, and Lakes St. Clair, Huron and Superior; passing the Island of Mackinac and the Pictured Rocks; visiting Marquette, Portage Lake, Copper Harbor, Eagle River, Ontonagon, La Point, Bayfield, and Superior City, with many other localities interesting; giving the scientific and enterprising sufficient opportunities for visiting the Copper and Iron Mines; the seeker of health the cool and bracing climate, and attractive scenery; and the sportsman and lover of the romantic, the most inviting facilities for fishing and hunting.

The Steamers make the round trip in eight days. Rooms for any of the trips can be secured by addressing

GAS FROM ROSIN OIL

IS CHEAP.

FATTY FLUID MATERIAL.

THE HIGH ILLUMINATING PROPERTIES of Gas from Resin and oleaginous substances have rendered it a favorite material for the manufacture of Illuminating Gas. Most of the Gas companies in the country, in using Rosin, have been compelled to use a mixture of Resin and Coal, in consequence of the latter containing fatty matter, which, when the Resin is used alone, is deposited in the pipes, thereby stopping the flow of Gas. The Rosin Oil Gas Company have obviated this difficulty, and are now prepared to furnish Rosin Oil, which is entirely free from all dross and refuse substance, and yields at once, its Brilliant Illuminating Gas. The great significance of this apparatus for the manufacture of coal gas together with the attention and expense constantly required, and the difficulty, if not impossibility, of entirely separating the fatty matter from the Coal, and offensive gases, generated in coal, render the ROSIN OIL APPARATUS the cheaper and more desirable in every way.

S. COATES, of 276 Broadway, New York, has entered into the entire attention to the manufacture and sale of Portable Gas Apparatus, and respectfully calls the attention of the public to his present complete and efficient machine.

Perfect satisfaction to the purchaser guaranteed in every case. For further information address
