Pleasure Trips to Chicagoand Milwaukee

Will be offered to the public as follows: LOSS OF POWER, EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION! The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, are ample witness to the truth of these assertions. In Consumption the melancholy exhibition appears—

The countenance is actually so thin and quite destitute—healthy blood. Shield a sound of the voice occur, it is rarely articulate.

Nothing looks so improbable to those who have to rain measures was despair

GAS FROM ROSIN OIL
OR OTHER
FATTY MATERIAL.

THE HIGH ILLUMINATING PROPERTIES of Gas from Rosin and cheaginous substances have always made them a favorite material for the manufacture of Illuminating Gas. Many Companies have tried it with cost, in order to supply their customers with a Superior Article.

ROSIN OIL is entirely free from all dross and refuse substances, and yields at once, its Brilliant Illuminating Gas.

The quality of Gas produced by the apparatus for the manufacture of coal gas together with the attention and expense constantly required, and the difficulty, if not impossibility, of entirely purifying it from its wholesomeness, deleterious and offensive gases, generated in coal; render the ROSIN OIL APPARATUS the cheapest and most desirable in every way.

S. COATES, 276 Broadway, New York, has obtained the entire attention to the manufacturing and sale of Portable Gas Apparatus, and he respectfully calls the attention of the public to his present complete and efficient machine.

Perfect satisfaction to the purchaser guaranteed in every case. For further information address

Pleasure Trips to Chicagoand Milwaukee

Will be offered to the public as follows: LOSS OF POWER, EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION! The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, are ample witness to the truth of these assertions. In Consumption the melancholy exhibition appears—

The countenance is actually so thin and quite destitute—healthy blood. Shield a sound of the voice occur, it is rarely articulate.

GAS FROM ROSIN OIL
OR OTHER
FATTY MATERIAL.

THE HIGH ILLUMINATING PROPERTIES of Gas from Rosin and cheaginous substances have always made them a favorite material for the manufacture of Illuminating Gas. Many Companies have tried it with cost, in order to supply their customers with a Superior Article.

ROSIN OIL is entirely free from all dross and refuse substances, and yields at once, its Brilliant Illuminating Gas.

The quality of Gas produced by the apparatus for the manufacture of coal gas together with the attention and expense constantly required, and the difficulty, if not impossibility, of entirely purifying it from its wholesomeness, deleterious and offensive gases, generated in coal; render the ROSIN OIL APPARATUS the cheapest and most desirable in every way.

S. COATES, 276 Broadway, New York, has obtained the entire attention to the manufacturing and sale of Portable Gas Apparatus, and he respectfully calls the attention of the public to his present complete and efficient machine.

Perfect satisfaction to the purchaser guaranteed in every case. For further information address
