NEW NAIL PLATE FEEDER.—Sherwoods' Patent Self-Acting Nail Plate Feeder for Nail Machinery. This improvement does away with the necessity of a man or boy to attend each machine. One hand can attend four machines, and each machine will cut more nails with this feeder attached, than can be done by three fed by hand, saving three hands out of four, making the nails more perfect, as it is fed by a screw, and can be run at a greater speed. It is very simple and not liable to get out of order, and can be applied to any machine now in use at comparatively a small cost. It is warranted to work perfect or no pay. A machine with this feeder attached can be seen in operation at the Pair of the American Institute, Crystal palace, New York. Rights and Feeders for sale by the proprietor, D. W. The spiritual intercourse is certainly enlarging. A spirit not long since, waited on Judge Edmonds and wanted him to take a drink through an earthly medium. The Pawtucket Gazette relates the following pleasant incident of spiritual communication which quite exceeds the Judges story:

"An enthusiastic believer was relating to a skeptic the spiritual performances to which he could testify, and among other things said that on a certain occasion the spirit of his wife, who had been dead several years, returned to him, and seating herself upon his knee, put her arm around him, and kissed him as much to his gratification as she used to when living. 'You do not mean to say,' remarked the skeptic 'that the spirit of your wife really embraced and kissed you?' 'No, not *exactly* that,' replied the believer, but her spirit took possession of the body of a female medium, and through her embraced and kissed me.' We presume that believers are often as willingly deceived as this man was."

CROPS OF SOUTH KANSAS.—Mr. J. A. Hart, of Linn county, Kansas Territory, called upon us this week, and gave us information to the effect that this last season had been demonstrated that South Kansas would next year produce a large surplus of bread stuffs and other products.

Mr. Hart informs us that nearly every farmer in these southern counties has this year raised crops of wheat and potatoes far superior to his most sanguine expectations, and that in addition, a very large crop of the Chinese sugar cane had been raised, from which molasses had been made sufficient for export in large quantities, several barrels having been sold to dealers in this city.

Evidence of the agricultural wealth of South Kansas is furnished from every source, and we have no hesitancy in saying that next season will bring a large emigration to that region.—*Jour. of Com., Kansas City.*

A letter from Paris says: "The expense caused the Emperor by his visit to Compeigne is described to be prodigious; all the household is there, and the household is vast in number, and dear to keep; the hunting establishment is there, and it exceeds in magnificence, and consequently in cost that which Charles X. used to maintain—and yet dearly did that royal Bourbon love hunting, and right royal was his *menage*: guests of high degree are there and have troops of lackies with them; and last, but not least, the entire companies of various Paris theatres are taken down twice or thrice a week to amuse the distinguished party; and what in pay and presents, and traveling and incidental expenses, those companies absorb a good deal. Nor is it only the Emperor's purse that bleeds; the guests themselves have to buy uniforms of green and gold for the hunt, and the ladies are required to appear in two new dresses a day."

EXTRAORDINARY COAL.—The Parkersburgh (Va.) *News* announces the discovery in that region of a specimen of coal which is said to be superior to Cannel Coal. The *News* adds:

It is very light, and can be ignited as easily as a piece of dry white pine wood. It is extremely gasy as and emits a very strong odor when burning. A piece as large as a small marble placed in the bowl of a clay pipe made air-tight and then inserted in a hot fire, gave out gas enough at the end of the stem to burn with a bright light for five minutes. It evidently could only be used for making gas or oil, as it has not sufficient solidity to burn in a grate or stove, but would probably run out through the bars in a sort of oil or pitch.

AFTER the Prince of Wales has visited his sister at Berlin he will pass the winter at Rome, and the Record, the orthodox church paper, is much alarmed lest quarter may be set for him and he be beguiled by the "scarlet woman," meaning the Roman Catholic Church. While his younger brother Prince Alfred, who has just been made a midshipman in the royal navy, was asleep in his berth on board the Euryalus, two of his brother middies blacked his face. He made no complaint about the joke, but the next morning he got square on the offenders by cutting their hammock strings and letting them down on the run.

MORE GOLD FROM PIKE'S PEAK.—A company of Georgia miners arrived in our city yesterday direct from the new gold diggings, near Pike's Peak. They brought with them a quantity of pure gold, a small parcel of which they disposed of to Clark, Bros. & Co., bankers of this city, so that it may be seen by those who have any doubts of its existence. William G. Russell, one of the Company, a highly intelligent man, who is familiar with mining in California, informed Clark, Bros. & Co., that these new discoveries are now yielding, in proportion to the amount of prospecting made, as well as the California mines are doing at the present time.—*St. Louis Dem.*

LAMON condenses Thackeray's lectures into a thimble:

George the First was reckoned vile,
Viler, George the Second
And what mortal ever heard
Any good of George the Third?
When from earth the Fourth ascended,
God be praised, the George ended!

Write away, write away, Bonner's man!
So I do, master, as fast as I can.
Write it, and print it, and mark it with E,
And then it will serve both the Ledger and me.

ECLIPSES IN 1859.—There will be four eclipses of the sun in 1859, viz: a partial eclipse on the 2d of February invisible here. A partial one on the 4th of March, invisible here. Another on the 29th of July, partial, and very small; it will end at 41 minutes past six, evening. Another one August 27th, visible only in the Great Southern Ocean. There will be two eclipses of the moon; the first one on the 17th of February, will be total. It will commence at 13 minutes past four o'clock in the morning—middle six o'clock—and quarter before eight. The other one, August 13th, will not be visible.

ALTHOUGH it is a year more before they elect a U. S. Senator in California, the contest for the succession has already begun, between the friends of Dr. Gwin and those of Senator Broderick, or rather between the Lecompton and Anti-Lecompton Democrats. Gov. Weller is stated to be a candidate. He exchanged a seat in the Senate for the Gubernatorial Chair, and now it is proposed to change him back again.

It is said that slaves are diminishing in Fairfax county, Va., and that there is an influx of Northern settlers. Fairfax is the only adjoining the District of Columbia. There is no doubt that the example of Northern thrift and enterprise, and the spread of Northern opinions at Washington, at last begin to exert a beneficial
