NEW STANDARD capacity. Also, all the INCREASING CIRCULATION, AND RELIGIOUS BOOKS, the pro-slavery majority in the selection of the Chairmes of these Committees, nearly all of whom were prominent politicians of the Slave Stains. It appears that the House organization is very worse than that of the Senate, under the management of Speaker Orr, whose sectional patibility is certainly shown in a very unfavorable light. This officer has given the Chairmanship of fourteen important committees to Southern members of four Northern members of four Northern members of four Northern members. This is done in the face of the fact that the Free or Northern States have more than three-fifths of the mem bers of the House. In filling vacancies on the committees, caused by death or retirement, he has uniformly appointed Southern members. And yet when the R. publicans denounce and war against such encroachments of the slave power, as given above, they are denounced as "sectionalists." If we protest against such gross putrages on the rights and dignity of the North, we are cold by politicians of the Buchanan school that we are enemies to the Union, and consequently destinate op patriotism. To be good and loyal citizens in the estimation of cowardly Northern doughfaces, we must submit to all the wrongs that Southern demagogues and disminorists may choose to inflict upon the sounity.

Our escribity, instead of conciliating these traitors, ancourages tham to further aggression shall to additional outrige, and hence we find the season arrives. Hal a Northern majority in the Senate, or a Northern speaker of the House indicated the Congressional Standing Committees are now constituted for the South, how our ears would be assailed with how is of 'disuniton,' 'secession,' and other traitors expressions with which Southern agitators are wont to regule themselves.
