ESTABLISHED IN 1786. PITTSBURGH, WEDNESDAY MORNING, DECEMBER 29, 1858. THE OPER POLAR SEA.—Dr. Hayes, in his address before the Geographical Society of New York on Thursday evening, read a letter from Professor Agassiz, in relation to the open Polar Sea, in which that gentleman argued the existence of such a sea in the following language:

"I beg to add a word with regard to Dr. Hayo's expedition. I consider it as highly important, not only in a scientific point of view, but particularly so for the interests of the whale fishery. The organization of these huge inhabitants of the cecan seems to me to furnish the best direct proof that there is an open sea Pringigis. Pittsburgh Gazette. Manufacturers. Musical. WILLIAM D. SMITH begs to inform the musical public that, after a long absence, he has sain taken up his permanent residence in Pittaburgh, here he will devote his entire attabution to giving instruc-A. FAHNESTOCK & CO., WHOLE habitats of the ocean seems to me to furnish the best direct proof that there is an open sea in the Arctics. The whales, being warm-blood, air-breathing animals, must come to the surface to breathe. They cannot live without. Now, it is well known that during the winter they are not found outside—that is, to fine south of the ice-best of the Arctic seas. They retreat northward during the cold season, and if the whole extent of that Arctic sea as covered with ice they would necessarily periah during the long winter. I do not know a more direct oridence of the presence of extensive open water in the northernmost region of the globe than that mode of life of the whales, and the discovery of a passage into that open water which render whale, fishing possible during the winter would be one of the most important results for the improvment of whale fishing. The argument may not strike foreibly one who is not acquainted with the structure of the whales, but to a physiologist it must be irresistible." any. And against Less or Demage by Fire. And against the Perils of the See and Ini Mg THE, PREELY (ALE TIPE is served every With ay and Sainraday, on a large blashet sheet, and contains dillien, to he nees of the week, a carpilly prepared a shalle report of the Barkets, conserved and sonetary a fifty, and an occurate Bark Note List, corrected weekly for The Walker in to give entire satisfaction to both as its quality and adaptation to use.

There are solicited.

4.19 Jesious of his American Nephew; young Jerome
N. Bousparie, who is now's captain in the
Freuch Imperial gland. At the, instigation of
the Prince, the Emperor was induced to appoint
a commission to examine into the legitimacy of
the Americans. The dominities appointed consisted of cabinet ministers, bishops, judges, &c.,
all men of the highest ability and standing.
The evidence went to show that old Jerome was
married to Miss Patterson. of Baltimore by a
priest of the Cisholic church, and that the marriage was dissolved by Napoleon I. The church
declared the marriage valid, and the first Emperor asserted that it was invalid by the law of
France, which deplaced that no Prince of the
blood Imperial should marry without his consent
there was a direct conflict between Church and
State, the religious and the civil law.
The
cammittee was in a quandary, and failed to decide. Bitter blood has, of course, arisen between Prince Napoleon and Captain Bonaparte,
to Farnic, of Baltimore, and his son, Captain
Bonaparte, to Paris, a visit which extended
to favor Prince Napoleon from reasons of State
boal prince of the Captain is a favorite with the army and is
liked by the Emperor, but the latter is supposed
to favor Prince Napoleon from reasons of State
on the Prince Spoleon and Captain Bonaparte,
to Farnic, of Baltimore, and his son, Captain
Bonaparte, to Paris, a visit which extended
vover a period of six months, they had no interview with the Prince Jerome and
the Princes Matilda. The captain is absent
weeks. The captain is very popular in France,
and men of family openly espouse the cause of
his family signist his relatives. It only decountry, in spite of the Palais Royal and its
influence. TEAMBOAT CABIN FURNITURE W HUGHE'S PATENT ATMOSPHERIC are constantly manufacturing ATEATBOAT CARIN claware Mutual Safety Insurance Company FORGE AND TRIP HANMERS. HAMMERS of the following sizes T. B. YOUNG & CO. Incorporated by the Legislature of Principleanis, 1885.

OULD RESPECTFULLY INarm their friends, and the public gene the state of the state No. 295 Liberty Street, Pittsburgh. of time she had not the faintest idea. She could not tell whether certain transactions took place a week or a year since; she did not know hin wold she was; she did not know what year are mouth it was, nor the day of the month; she did not even know the day of the week. Taken all in all, the whole lot, with the exception of "Sampson, were gonulne specimens of "sand hillers" of South Carolina, a race but one degree removed from the Digger Indians of the Rocky Mountains. A more striking illustration is seldom seen in this latitude. Sampson was beld for trial in \$600.—Chicago Dem. Dec. 16th.

USEFUL HIRTS TO YOUNG MEN.—How many man ignoramily deny themselves a "fortune!—There is exactely a young man of good sense in this city who cannot save \$100 casily from his namunal earnings, and, if he will forego cigare, billiards, and juleps, he can save double that amount. Figures sometimes produce almost incredible results. Thus, for Instance, if a young man upon his twentleth birthday will invest \$100 in any stock paying ten per cent, and annually thereafter will invest the same amount and the accumulation of interest, he will be worth when he is thirty years old, \$45,700. How simple, then, is the plan by which a younf of the present day can pass his old age in comfort and inxury. He has only to regulate his expenses so as to save one hundred dollars each year from his inco. Only think of it, that \$500 saved annually and invested in the per cent. stock will amount to \$2,503,600; in when fity years to \$243,500. One million invested in the same way for ten year will amount to \$2,503,600; in the same way for ten year will amount to \$2,503,600; in the same way for ten year will amount to \$2,503,600; in the same way for ten year will amount to \$2,503,600; in twenty years to \$243,500. One million invested in the same way for ten year will amount to \$2,503,600; in twenty years to \$243,500.
