Pittsburgh Gazette.

D. F. WILLIAMS. D. L. TAYLOR. S. RIDDLE. RUSSELL BARRETT

S. RIDDLE & CO.,

EDITORS and PROPRIETORS.

PITTSBURGH:

TUESDAY MORNING, FEB. 8, 1859.

MORE SHINEPLASTERS.—The Secretary of the Treasury, as our readers will have seen by his letter to the House, which was lately published in our telegraphic column, has three remedies for the bankruptcy of the Treasury—a slight addition to the Tariff rates, Retrenchment (!) and the re-issue of Treasury notes.

The changes in the Tariff which he proposes are but slight modifications, such as will add but a few millions to the revenue without contributing in the least to the relief of the, manufacturing interest. The Secretary seems determined not merely to make continual war upon that interest, but to make as prominent as possible his antagonism to the President on the subject of specific duties. No man that ever before occupied the Presidential chair, would have permitted such a Secretary to remain in office. General Jackson would have moved him with a briskness never to be forgotten.

The demand from the Secretary for Retrenchment is the silly trick of a demagogue. He hopes, by this parade of his extreme desire to reduce the expenditures to the limit of the national income, to throw upon Congress the responsibility for the extravagance which is disgracing the government. Why did he not, at the opening of the session, cut down the estimates of the various departments? And why, when the House, taking him at his word, tries to reduce the appropriations to the proper limits, do his party friends rally as one man to the support of the extravagant appropriations? So far, every appropriation bill has been carried through the House by the force of party drill; and all this prating about Retrenchment, without a single effort to promote it, is the veriest hypocrisy.

The re-issue of national shinplasters, in the form of Treasury notes, is the last and main resource of the Secretary. He does not like to ask for a new loan; he does not want any addition to the tariff that would be beneficial to the country; he does not, in reality, desire to cut down the expenditures, because those expenditures give the government the means of corruptly sustaining its party; but he wants the privilege of hiding the national poverty under a new issue of Treasury notes, which shall be, practically, a new loan of twenty millions without seeming to be so.

The publication of this scheme of the Secretary of the Treasury has not satisfied the public nor shown to Congress the way out of the financial difficulty which the nation is laboring under. The President, who seems to be openly at issue with his own subordinates, is as little satisfied with it as any one, and talks still of sending in a special message; and we shall thus have the curious spectacle of the Secretary assailing the House in opposition to the President, and the President assailing the House in opposition to the Secretary. In the meantime, this Congress is gradually approaching its close, each day diminishing the chances that anything will be done, and the prospect of an extra session of the new Congress is growing daily clearer. We have made up our minds that this Congress will do nothing to relieve the sufferings of the country, and that we shall have a summer session of its successor, which (let us hope) will be made up of better materials.

As pertinent to this subject, we subjoin the following items from the Washington correspondence of the N. Y. *Times*:

"The letter of Secretary Cobb, transmitted yesterday, will not interfere with the President's contemplated Special Message, which, however, will not appear for several days. It will treat of the shortcomings of Congress in general legislation, as well as in regard to the Tariff.

The letter of the Secretary of the Treasury is regarded as satisfactory by the Committee of Ways and Means, and as sustaining the action proposed by his Chairman. Mr. Cobb's frequent allusions to the necessity of retrenchment, are considered by some of his party as a first indication of his admission that an elevation of the tariff is necessary. The cant of "retrenchment" may answer for Buncombe, but it will not fill an exhausted treasury. Should the caucus to-morrow night differ with the Secretary, then the President will see what a message can do.

Leading Democrats stumble sadly at Mr. Buchanan's unhappy reference in the annual message to specific duties. They regard this as the source of all their embarrassments. A prominent southern man who believes any alteration of the tariff impolitic, will, by way of compromise, recommend the passage of an act suspending the present tariff for two years, reviving that of 1846 in the interval. The act need not exceed a half dozen lines in length, and yet it will settle all difficulties."

HOW THE MONEY GOES.—President Buchanan could wail, in 1852, over the extravagance of the government, which then spent fifty millions a year; but he seems to be a greater adept at extravagance himself than any of his predecessors. The House Committee, which is now examining the frauds in the Navy department, has ferreted out an item which directly implicates the President. We quote from the correspondence of the *Tribune*:

"The Naval Appropriation Act of 1850 contains a provision which reads thus:

'In the article of fuel for the Navy, or Naval Station Yards, the Secretary of the Navy shall have power to discriminate, and purchase, in such manner as he shall deem proper, that kind of fuel which is best adapted to the purpose for which it is to be used.'

A coal agent has accordingly been appointed by the department to purchase coal for the use of the Navy, and send it to the various yards and stations. Under Mr. Buchanan's Administration, Dr. Hunter, of Reading, Penna., has been the nominal agent. He has not, however, attended to the duties of his office, but practices his profession as a physician. His commission of 5 per cent on the cost of the coal purchased, and on the cost of freighting it, amounted, for the past year, to the snug sum of $15,000.

The business of the agency has been wholly performed by the firm of Tyler, Stone & Co., of Philadelphia. Mr. Beach, a member of that firm, is a nephew of Secretary Toucey. More than 60,000 tons of coal per annum have been supplied to the Navy by this firm, for which the Government has paid $3,05 per ton, while the current price at Philadelphia was only $3,35.

From the evidence before the Committee, it appears that Dr. Hunter, the nominal coal agent, did not himself retain the $15,000 to which he was entitled by way of commissions. The money was used last year for election purposes in Pennsylvania, being distributed for such purposes under the immediate direction of several distinguished politicians, among whom may be mentioned, J. Glancy Jones, now Minister to Austria, and —President Buchanan!

I believe that there is not the least reason to doubt that these facts have been fully substantiated by the Committee, and I also think it will appear that far more flagrant perversions of public trust will be brought home to men high in office, and especially to Glancy Jones, whom Mr. Buchanan was in such hot haste to reward and provide for, after he had been rejected by the people."

NORTHERN SLAVE TRADERS.—The following are the Democratic members of the House, from the north, who voted against the resolutions condemning the re-opening of the African Slave Trade:

"Messrs. Barr, of N. Y., Burns and Cox, of Ohio, Florence and Gillis, of Penna., Gregg, of Ind., Hall, of Ohio, Hodges, of Ill., Miller, of Ind., Searing, of N. Y., Shaw and Smith, of Ill., Taylor, of N. Y., Vallandigham, of Ohio, White, of Penna., and Wortendyke, of N. J.—17.

It will be seen that Hodges, Shaw and Smith, of Illinois—the right hand men of Douglas—are among the Slave Traders. Douglas and his men are now doing their best to conciliate the South.

VERY UNFORTUNATE.—The House committee on military affairs have refused to sanction the President's recommendation respecting a protectorate over Sonora and Chihuahua. The Executive is unfortunate beyond precedent in respect to measures which are special favorites with him. He made a determined point of bringing in Kansas as a slave state, and unwarned by his failure there, he has made other attempts to influence legislation which have most signally failed. But this last blow is the severest of all, since even a committee of his friends have declined to report in favor of his recommendation. We opine that his five or six other recommendations will as signally fail.—*N. Y. Com.*

BUNKER AT WASHINGTON.—*The Union* remarks with great profundity: "No measure of legislation whatever can be carried in Congress without a majority of votes." There's wisdom for you!

THE North Branch (Pa.) *Democrat* tells the following story:

"Our village has been the scene of considerable excitement for some days past in consequence of the sudden and mysterious disappearance some two or three weeks since, of a young girl, aged about thirteen years, by the name of Catharine Langdon, residing in the family of Nelson Lee, proprietor of the American Hotel in this place, to whom she had been entrusted by her father, John Langdon, to rear up to womanhood. She has since, by extraordinary efforts, been found and restored to her father and friends. The reported particulars of her absence, as given by herself, as near as we have been able to gather them are as follows: It seems that Catharine was attending school, and on Monday the 20th of December last she was enticed away in company with a young Irish girl by the name of Sarah Shaughnessy to the house of the Hon. R. E. Little, where another Irish girl, by the name of Mary McGuire was in waiting to receive her. Catharine was taken from thence, in company with these two girls, to the House of Mrs. Coad, a widow lady, where the Irish girls frequently hold "mass." The young girl being rather shabby clad, without clothing sufficient for a journey into the country, Mrs. Coad, she said, furnished her with a shawl, and she was thence taken about a mile from the village, on the road leading from Tunkhannock to Laceyville, where she loitered in company with the two girls above mentioned, until a Mr. W. Collins, an Irishman, soon came along as if by arrangement, and took her into his wagon and conveyed her to his home in the backwoods of Washington tp., where no human being would ever have thought of looking, and there she was kept for nearly a week, under the instruction if she saw anybody approaching to secrete herself. From this place she was taken to Meshoppen village, where the Catholic priest was holding "mass," who took charge of her and conveyed her from thence to a place called a convent, in the township of Choconut, Susquehanna county, Pa.,—distant about thirty miles —where she remained until accidentally recovered by her father a few days since.

MORE TROUBLE AT LEAVENWORTH.—A large number of the citizens of Leavenworth met together on the 20th ult., and appointed a committee of two to wait upon the citizens of Platte City, Mo., and urge them to deliver up to the Kansas authorities, Dr. Doy and his son, who were arrested with the thirteen runaway negroes recently captured near Lawrence by a company of Missourians. The committee consisted of Dr. Johnson and Mr. E. Hughes, who proceeded to Platte City and made application to the Governor, that he would issue requisition to the Governor of the State, that an expense of only $129 32, (the costs in his case,) he has been the means of releasing from prison 1270 persons, who had been improperly committed for trial, as was shown by investigation of their cases. Had these persons awaited trial in confinement the average time they would have cost the county $4,473 for food, and the costs of their trials would have been $4,848, a saving of $9,321. The records of the association abound with instances of persons sent to state prison or committed to the penitentiary, who were proved to be entirely innocent. In some cases, a further examination discovered the guilty parties. Frequently persons are sent to prison, on the *ex-parte* statement of ignorant, drunken or malicious complainants. The friendly intervention of the agent has often saved those from long imprisonment, and restored them to families dependent upon their labors. Of the 4,701 bills acted upon by the grand jury, 2,468 true bills were found, and 1,233 were ignored. Of these 2,468 returned to Court, but 558 were upon trial, convicted and sentenced.

DAILY LINE OF STAGE COACHES, TO PIKE'S PEAK.—We understand that a company comprising some of the leading capitalists in the country has been organized to run a daily line of coaches from Leavenworth city to the gold region in Kansas, to commence operation about the first of April. The capital stock of the company is $200,000, all of which has been subscribed. The line will be under the general superintendency of Mr. Jones, of Pettis county, Missouri; Superintendent, we learn, eminently qualified for the position. Emigrants, we are informed, are already beginning to flock into Leavenworth city, en route for Pike's Peak, and with the increased facilities which are being afforded, a great emigration may be reasonably expected.—*National Intelligencer.*

DESTITUTION IN CANADA.—The Kincardine *Commonwealth* states that appalling distress prevails in some sections of Bruce county. Hundreds of families are on the verge of starvation. Many of their best and thriftiest farmers are destitute of the wherewithal to carry them through till another harvest; the crops of the past year having almost proved an entire failure. We could enumerate instances where, even already, families are subsisting on a few boiled turnips, others on bread and water alone, and the supply so small, that it cannot keep soul and body together for many weeks longer. Some have consumed everything in the shape of vegetation, and as their last resort, have slaughtered their oxen, which forms their whole subsistance.

A TRAVELER IN NORWAY, writing to the Boston *Recorder*, gives an account of the northernmost paper in the world, the Tromsoe *Times*. It is edited at Tromsoe, a little island village of about 4000 inhabitants, on the coast of Norway, at three degrees within the Polar circle. The summer sun kindly looks in at the office windows at midnight, to see that the forms are properly set up. The *Times* is a four paged semi-weekly sheet, with only two columns on a page, and is about the size of a quarto book form. The style of type is the Gothic, which has been discarded in Sweden, and to a considerable extent both in Germany and Denmark. The latter are the only nations which retain the Gothic handwriting.

DANIEL WEBSTER.—Rev. Mr. Dwight, officiating clergyman at the North Congregational Church, in the course of his sermon on Sunday evening last, related the following striking anecdote of the "man of giant mind." Upon entering church one Sabbath morning, a friend remarked unceringly: "Mr. Webster, you worship where the doctrine of 'One in three and three in One' is upheld." "My friend," replied Mr. Webster, "neither you nor I understand the *arithmetic of heaven!*"—*Nantucket Inquirer.*

THE product of the Minnesota mine for the month of December, was 137½ tuns, and of the Rockland, 143 tuns. Work at the Minnesota was interrupted, we understand, by an accident to one of the engines, and the product of the month was reduced in consequence. The last accounts from Portage Lake were, that the stamps of the Pewabic Mine had started, but were suspended in consequence of some imperfection in the machinery, which was in course of repairs.—*N. Y. Trib.*

THE Mobile *Register* estimates the influx of negroes into the cotton and sugar States, the present season, as high as 50,000. This activity in the internal slave trade that has given negroes their unprecedented prices. The *Register* warns the planters that they are taking a course that will reduce the price of cotton by over production, and thus bring embarrassment upon all the interests of the South.

IMPORTANT, IF TRUE.—The Fall River *Beacon* understands that the Sons of Malta in Massachusetts have in contemplation the building of four fast-sailing clipper schooners or brigantines, of about three hundred tons each, in every way adapted to be used as vessels of war if necessary. One is to be built in East Boston, one in Newburyport, one in Fairhaven, and one in R. I. This astounding intelligence needs confirmation.

THE correspondent of the Missouri *Democrat* says that Gen. Houston got a document, the contents of which were distasteful to him. Instead of throwing it into the fire, as none men would have done, he procured a quantity of tar and feathers, and, smearing the inside of the paper and sprinkling on the feathers, inclosed it in an ample envelope, and franked it to the gentleman who sent it.

ICE.—The ice question is one of great practical importance to New Yorkers. No other crop is more vital to their well being than the harvest which the winter months yield. It is now stated authoritatively that the ice houses at Catskill, Rondout, New Baltimore, and on the North river generally, are filled to the rafters, and that there is no doubt that the other ice houses from which our supply is derived will be filled before the season closes.—*N. Y. Com.*

ANY of the following articles can be obtained at Bowns' well known stand, Federal street, Allegheny, Good Family Bread. Cakes and Confectionery in every variety. Fresh Peaches, Tomatoes, Plumbs, Citron, Pine Apple, Brandy Peaches, Assorted Preserves, Jelly's, Pickles and Ketchup, Capers, Worcestershire Sauce, Pickled Lobsters, Sardines, Family Chocolate, Baker's Broma, &c., &c. They respectfully invite the public to an examination of the above named articles, all of which they will guarantee to prove satisfactory both in quality and price.

FINE clothing carefully made. New style piece goods for custom work. Shirts, under wear, gloves, hosiery, cravats, ties, collars, &c., for men and boys, at low rates, may be had at Carnaghan's, Federal street, Allegheny City.

THE "Tinkle Sewing Machine," of which M. J. L. Carnaghan, of Allegheny city, is the agent for Western Pennsylvania, is distinguished for its noiseless manner in working, the beautiful simplicity of the arrangement by which the thread is tightened, and the general cleanliness with which the machine may be handled, as it may be oiled without soiling the fingers at all.

DIED—At his late residence, in Collins township on Saturday morning, SAMUEL DOUGLASS, Esq., aged 55 years. His funeral will take place on Tuesday morning at 10 o'clock. The friends of the family are invited to attend without further notice. Carriages will leave Robert H. Patterson's Livery stable at 9 o'clock

CHRONIC DIARRHŒA.—We have in our possession the certificate of a respectable citizen, testifying that he was entirely cured of this dreadful disease by using *Boerhave's Holland Bitters.*

We shall take pleasure in showing the certificate to any person doubting this statement.

CAUTION!—Be careful to ask for Boerhave's Holland Bitters. The great popularity of this medicine has induced many imitations, which the public should guard against purchasing.

☞Sold at $1 per bottle, or six bottles for $5, by the proprietors, BENJ. PAGE, Jr., & CO., Manufacturing Pharmaceutists and Chemists, 22 Wood street, between 1st and 2d streets, Pittsburgh, Pa., and Druggists generally. ja21:d&w1y

Business Notices & Changes.

NOTICE.

I HAVE DISPOSED OF MY INTEREST in the River business, heretofore conducted under the firm of W. P. TOWNSEND & CO., to my late partners, ROBERT and W. P. TOWNSEND, who will continue the same, and are authorized to settle all business of the late firm. JOHN DUNLAP.

Pittsburgh, January 29, 1859.

THE UNDERSIGNED, under the firm of R. TOWNSEND & CO., will continue the manufacture of the best quality of CHARCOAL IRON WIRE AND RIVETS as formerly, and will give prompt attention to orders for articles in their line of business.

fe4,1w&w1p ROBERT TOWNSEND,
W. P. TOWNSEND.

THE undersigned have this day associated with them in business Thomas B. Lloyd, late of the firm of Lloyd & Co. The style of the firm will be REA, LLOYD & FORSYTH.

LINDSEY'S IMPROVED
BLOOD-SEARCHER!

For the Cure of all Diseases arising from an Impure state of Blood, such as

SCROFULA,
Cancerous formations,
Cutaneous diseases,
Erysipelas, Boils,
Pimples on the Face,
Sore Eyes, Scald Head,
Tetter affections, Old and
Stubborn Ulcers,
Rheumatic Disorders,
Dyspepsia, Costiveness,
Jaundice, Salt Rheum,
Mercurial Diseases,
General Debility,
Liver Complaint,
Loss of Appetite,
LOW SPIRITS,
Foul Stomach,
Female Complaints,
Together with all other
Disorders from an improper
Condition of the circulatory
System. As a general
Tonic its effects are most
Benignant, and cannot
Fail to benefit where
used perseveringly
and according to directions.

NEW EVIDENCE.

Being afflicted with a grievous Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded to try Lindsey's improved Blood Searcher, and now, six weeks after finishing the SECOND BOTTLE, pronounce myself cured.

The Tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrist, also, on my face, immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, at times, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off the flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the public generally, to make this statement, and hope that others like myself may be benefited by using his valuable medicine.

JANE P. WILSON.

Sworn and subscribed before me, one of the Aldermen in and for the city of Pittsburgh, this 25th day of July, A. D., 1857. A. D. MCMASTER, Alderman.

DR. G. H. KEYSER, wholesale and retail agent for Pittsburgh.

Law School of the University

AT CAMBRIDGE, MASS.

The Instructors in this School are:

HON. JOEL PARKER, LL. D., Royal Professor.
HON. THEOPHILUS PARSONS, LL. D., Dane Professor.
HON. ERASTUS WORTHAM, LL. D. University Professor.

THE COURSE OF INSTRUCTION embraces the various branches of Common Law, and of National Law, and the Jurisprudence of the United States. The Law Library consists of about 14,000 volumes, and as new works appear, they are added, and every effort is made to render it complete.

Instruction is given by oral lectures and expositions, and by recitations and examinations in connection with them, of which there are two every week. Two Moot Courts are also holden in each week, at each of which a cause, originally given out, is argued by four students, and an opinion delivered by the Presiding Instructor. Besides these other facilities are also provided for the Club Courts; and an Academy is held weekly for practice in debate, and acquiring a knowledge of parliamentary laws and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle, or other part of the term.

They are at liberty to elect what studies they will pursue, according to their view of their own wants and attainments.

The Academical year, which commences on Thursday, six days after the third Wednesday in July, is divided into two terms of twenty weeks each, with a vacation of six weeks at the end of each term.

During the winter vacation, the Library is open, warmed and lighted, for the use of the members of the School.

Applications for admission, or for catalogues, or any further information, may be made to either of the Professors at Cambridge.

Cambridge, Mass., Feb. 1859. fe7:law1w

CURE FOR CONSUMPTION!

DR. CHURCHILL'S DISCOVERY!

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of THE HYPOPHOSPHITES of LIME, SODA and POTASH,

A SPECIFIC REMEDY FOR THE TREATMENT OF

CONSUMPTION.

THE great Chemico-Medical Discovery of the celebrated Dr. J. F. Churchill, of Paris, first made known by him to the French Academy of Medicine about a year ago, marks a new and important era in the annals of Medical Science.

Now, for the first time in the history of the world, has a REMEDY been found that surely strikes at the very foundations of *Pulmonary Disease*, and by restoring the deficient *chemical elements of the blood*, increases the principle and constitutes nervous or vital force, supporting the nutritive functions, and thus not only CURES, but PREVENTS the development of this hitherto most fatal Scourge of the human race.

☞Caution to the Public.☜

Various Preparations are now being offered in the market, purporting to be based on Dr. Churchill's discovery, and we therefore cautiously caution both the profession and the public.

Let no one be deceived, but ask for and use only the preparation sold from the sole General Depot in the United States, No. 216 Broadway, New York, and bearing a *fac simile* signature in red ink of the name of WINCHESTER, by whom alone Dr. Churchill's preparation is put up in a RELIABLE AND CONCENTRATED FORM and is sold by all Druggists. Best from West Indies. Jobbing, Wholesale and Retail Agents, and the trade generally, will find it to their interest to promptly attention.

☞READ THE TESTIMONY.☜

From the N. Y. American Medical Monthly, for May, 1858.

"Whatever may be our conclusions with reference to the claims of Dr. Churchill, for the Hypophosphites as a sovereign remedy in tuberculosis (consumption,) THERE CAN BE NO DOUBT AS TO THE VALUE OF THEIR COMBINATION AS A TERRESTIAL TONIC."

From the North American Medical Reporter, for Oct., 1858.

We have used it in our own practice, in phthisis pulmonalis, and other forms of disease, with very satisfactory results, in sixty-eight cases in which this remedy was given, thirty-seven were in the incipient, and in fifty-one in the second and advanced stages of consumption; the remainder were beyond hope. With the exception of the latter case, which were much benefited, all but three, which died, were entirely relieved, recovered perfectly.

Price $2, or three bottles for $5. Single bottles only, in *concentrated solution*, sent by mail, prepaid, when specially ordered, on receipt of price. All orders for three bottles or over will be sent by express at cost of the party. Druggists must send their orders direct to the undersigned, or they may have a different and spurious preparation sent them.

☞Winchester's Genuine Preparation of Dr. Churchill's Compound of the Hypophosphites of Lime, Soda and Potash is sold at wholesale at the sole General Depot, 49 Johnst., in the United States. Circulars and all necessary information given to all parties enclosing a stamp. For convenience in "Box 2741" in addition to the number address as below.

J. WINCHESTER,
American and Foreign Agency Office,
49 John Street, New York.
