SHIPMENT OF NEAPOLITAN EXILES TO THE UNITED STATES.—The act which has formed this week the subject of so much and such painful discussion, has at length been consummated, and Baron Poerio, Ex-Minister of Ferdinand II, after ten years of imprisonment and irons, been shipped off from the country, together with many of his companions. Against their wills, in spite of protesting, and in violation of the law, which recognizes not that punishment, they will be transported to the United States. Arriving in Pozzuoli on Friday, night or Saturday morning, they were taken on board the Stromboli, government steamer, which had been lightened of her guns. There were Poerio, Dono, Pica, Braico, Castromediano, Palermo, Mollica, and another of the Montesarchio prisoners. Pirenti who has been suffering so long from chronic paralysis, on being examined by a medical commission, was pronounced to be unequal to the voyage, and was sent immediately to Nisida without irons. Nisco, another of the party, as I have already told you, goes to Manich. These persons are lodged in the rooms of the commander, whilst the second class department is given up to the prisoners who were taken from the Island of Ponza on Sunday, and consist principally of priests. The remaining part of the vessel is given up to prisoners from other of the islands.

The meeting and the parting with friends which took place at Pozzuoli was of a very painful character; for Dono, who recently lost his wife, after meeting with his daughter for the first time in seven years, was almost in the same moment called upon to bid them perhaps an eternal adieu. On Sunday the Stromboli left Pozzuoli for the Island of Nesteline, to take up another batch of prisoners, and on Monday went to Stan Stefano to embark some more. Jacovah confined in Brindisi, and Caprio, in Pescaro, were to have been in waiting in Stefano. Caprio is the carpenter who fitted up the chamber for the deputies in 1848, and his main fault seems to have been in making the contract. From this kingdom they will be taken to Cadiz, and it has been intimated to me that Signor Bermudez, the Spanish Minister, had been in frequent relations with the Neapolitan government on the subject of the voyage. What transpired I cannot say, but it is said that any impression is, that not many months will have elapsed before the arrival in Piedmont, their story not a whit the less in interest, and they themselves full of burning vengeance against the authors of their suffering.

With regard to the other prisoners who linger unrefied and uncondemned in Santa Maria Apparente, they have not left. Forty-three in all were called by the Commissary of Police, Dr. Spagniolis, and informed that the King had granted them their liberty—intelligence which was received with exultation; "but," added Spagniolis, "you must leave immediately for the United States." Against this decision the whole party remonstrated strongly, with the exception of one, who consented to go, but afterwards refused—too late, as he was told, his name having been registered, and so he left. For the others, their presence was sent to his Majesty, and they have been permitted to remain in Santa Maria Apparente—that is to say, men who have never been tried or condemned have been bought as a "grazia" to be kept in prison, and this during the unending festivities of the hereditary Prince. Until farther orders nothing will be done with them. They may be doomed even now, at the last moment to be shipped off, for no considération interferes with the gratification of royal caprice.

THE TONNAGE TAX.—The following joint resolutions were read in place in the House, by Mr. Chase on Friday:

WHEREAS, In and by the twenty-second section of the act entitled "An Act to incorporate the Pennsylvania Railroad company," approved the thirteenth day of April, A. D. 1846, it is provided "That all tonnage of whatever kind and description, except the ordinary baggage of passengers, loaded or received at Harrisburg or Pittsburgh, or at any intermediate point, and carried or conveyed over said railroad more than twenty miles, between the tenth day of March and the first day of December in each and every year, shall be subject to a toll or duty for the use of the Commonwealth at the rate of six mills per mile for each ton of two thousand pounds; *And whereas*, In and by the first section of the act entitled "A further supplement to an act to incorporate the Pennsylvania Railroad company," approved the twenty-seventh day of March, A. D. 1858, it is provided "That the tax on tonnage of five mills per ton per mile from the tenth day of March to the first day of December, payable to the State Treasury under provisions of the twenty-second section of the act which this is a supplement, be commuted to a tax of three mills per ton per mile during the whole year; said tax to cover all freight carried over the road more than twenty miles," which said tax was made payable by the said railroad company on the thirtieth day of July and the tenth day of December of each year; *And whereas*, There was due to the Commonwealth from the said Pennsylvania Railroad company, on the tenth day of December last, on account of said tax on freight carried over said railroad, about ninety thousand dollars, which sum the said company has neglected and refused to pay; *And whereas*, The agreement on the part of said company to pay said tonnage tax formed an essential part of the contract between the Commonwealth and the Company; Therefore,

Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the Attorney General of this Commonwealth is hereby instructed to commence and prosecute, in the Supreme Court of the State, the necessary suit or suits, to ascertain whether the said railroad company, by its refusal aforesaid, has not forfeited its chartered privileges, and to take all necessary steps to procure a degree of forfeiture in said suit or suits so instituted.

Resolved, That the Auditor General and State Treasurer are hereby instructed to charge said Pennsylvania Railroad company in the rate of five per cent. per month for any delay that may hereafter accrue in the payment of the tonnage tax now over due, and at the same rate for any delay in the payment of the said tax which may hereafter become due.

PLANT TREES.—Plant trees for yourselves, your children, your neighbors, and generations to come. Plant trees for orchards of luscious fruits. Plant trees around your dwelling, and by the roadside; it will make home more pleasant and happy.

Don't ask yourselves if it will pay three or six per cent a month, for the first or second year. If trees are planted and cared for, they will soon pay even more than money at six per cent a month.

They will pay in luscious fruits and rich foliage. They will improve the appearance of your farms and dwellings. Don't delay planting trees, for "procrastination is the thief of time." You will not only steal your time, but will cheat you out of many a crust of rich fruits.

Don't delay because your means or territory is small. Plant a few trees them good culture, and they will soon richly repay you with a bountiful harvest. Don't delay because somebody has got a big orchard, and fruit will be so cheap that it won't pay for anything. Good fruit will pay, and it will always pay, besides giving health and happiness to thousands.

Plant trees, vines, and flowers! Live as though life was worth having! Where can we be more happy than under our "own vine and fig tree, with no one to molest or make us afraid!"

GAS FROM ROSIN OIL OR OTHER FATTY FLUID MATERIAL.

THE HIGH ILLUMINATING PROPERTIES of Gas from Rosin and oleaginous substances have always made them a favorite material for the manufacture of Illuminating Gas. Many Gas Companies commence with coal, in order to supply their customers with a superior Quality of Gas.

ROSIN OIL is entirely free from all dross and refuse substances, and yields at once, its Brilliant Illuminating Gas.

The greater original cost of the apparatus for the manufacture of coal gas together with the attention and expense constantly required, and the difficulty, if not impossibility, of entirely separating the unwholesome, deleterious and offensive gases, generated in coal, render the ROSIN OIL APPARATUS cheaper and more desirable in every way.

S. COATES, of 576 Broadway, New York, has devoted his entire attention to the manufacturing and sale of Portable Gas Apparatus, and he respectfully calls the attention of the public to his present complete and efficient machine.

Perfect satisfaction to the purchaser guaranteed in every case. For further information address
