TUESDAY MORNING, MARCH 11.  
ENGLISH DECORUM IN RAILWAY MARKETS IN ENGLAND AND ITS DAUGHTERS.—The return of railroads of Great Britain for 1858, which have been in the traffic and the earnings of the roads in the United Kingdom.  
In 1858, the total of receipts amounted to \$168,000,000.  
In 1859, \$165,000,000.  
Decrease.....\$5,000,000  
The magnitude of this sum will be readily conceived, when it is considered that the roads of Great Britain, which possess 19,336 miles of railway against 6,000 in the United States, had 10,000,000 gross receipts in the previous year, and did not exceed \$91,000,000.  
The extraordinary amount of receipts, in 1858, is, no doubt, attributable to the financial crisis of 1857, and it is to be regretted that no statistics are available for the effect of the same upon our own railway interest. The subject is one of great importance, and all information in reference to it is valuable, and must be pursued by the system in France and Prussia, on the same cause, and comparatively insignificant.

YORK WAX, of Louisville, whose chariot and the quire which required in the month of October last, has begun to exhibit at the Fair, is beginning to exhibit a new one, the value of which is \$100,000. A dimly occurred a few days ago, in the York Wax, a large packing plant, between Ward and a Dr. H. C. Smith, of Memphis, Mississippi, during which the former was shot at, at Cameron, the shooting taking his upper lip.

King Dukes of Leuchtenberg, who the King of Saxony is to marry, is the eldest daughter of the Countess of Huntingdon, and sister of the present Emperor. She is now nine years of age, has been a widow since 1852, and died in Paris, June 10, 1859. King Victor Emanuel, then allied with France and Russia, will prove a formidable antagonist to Austria.
