AMERICAN WATCHES.

WHOLESALE AGENCY FOR THE SALE OF

AMERICAN WATCHES.

We would most respectfully call the attention of the public to the American Watches now being extensively introduced, the manufacture of which has become so firmly established that entire confidence can be placed upon them as safe and correct time-keepers, both by the wearer and seller.

Having been appointed Wholesale Agents for the sale of these Watches, the public may be assured that we can sell them at the very lowest cash prices.

We have also a very large stock of SILVER and PLATED WARE, FINE GOLD JEWELRY in sets, such as Coral, Garnet, Cameo, Jet and Antique.

Our assortment of CLOCKS is unusually large at present, comprising some beautiful patterns of EIGHT and ONE DAY PARLOR and OFFICE CLOCKS at GREATLY REDUCED PRICES.

We have also a full stock of English and Swiss gold and SILVER WATCHES on hand, all of our own importation.

Also, Watch Makers' Tools, Materials and Watch Glasses.

The Great English Remedy.

SIR JAMES CLARKE'S

CELEBRATED FEMALE PILLS!

Prepared from a prescription of Sir James Clarke, M. D., Physician Extraordinary to the Queen.

This well known Medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, they contain nothing hurtful to the constitution.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

These Pills have never been known to fail where the directions on the second page of pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and 5 postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

MOTHERS!! MOTHERS!!! MOTHERS!!!

Do you want to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skilful female Physicians in New England, and has been used with never-failing success in millions of cases.

We believe it to be the best and surest remedy in the world, in all cases of Dysentery and Diarhœa in Children, whether it arises from teething or from any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well-tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

None genuine unless the fac-similis of CURTIS & PERKINS, New York, is on the outside wrapper,

Sold by Druggists throughout the world.

DR. GEO. H. KEYSER, Agent for Pittsburgh.

MEYER'S MIRACULOUS VERMIN DESTROYER,

for the Destruction of RATS, MICE, MOLES, BUGS, ROACHES FLEAS, MOSQUITOES, MOTHS, GARDEN INSECTS, ANTS, &c.

The chemical preparations known under the above title for the last 22 years throughout Europe, where they have met with a triumphant success, have acquired for their Inventor and Manufacturer a world-wide celebrity, attested by the Emperors of Russia, France, Austria, the Queen of England, the Kings of Belgium, Holland, Naples, Bavaria, Saxony, &c., and to America their efficiency has been endorsed by the *Directors of Public Institutions* and the approval of *numerous private citizens*, that they are the only *Remedies* in the world, sure to exterminate all kinds of vermin.

MEYER'S MIRACULOUS PREPARATIONS destroy the unwelcome intruders without mercy, and never fail. His Art has brought death to millions of them in the world, and from this day the watchword of all housekeepers, merchants, ship-owners and husbandmen will be "*No more Vermin.*"

DAILY UNION PRAYER MEETING, at the First Methodist Protestant Church, Fifth street, commencing at 11½ o'clock, A. M. All are cordially invited to attend.

The exercises TO-DAY will be conducted by Rev. Dr. Jacobus.

DAILY UNION PRAYER MEETING IN ALLEGHENY.—This day and every day a Union Prayer Meeting is held from half-past eleven to half-past twelve o'clock, in the First Presbyterian Church, Beaver street, Allegheny. It is for all, without distinction of person or denomination. "Ask and ye shall receive."

THE Republican County Committee have prepared the following rules and will submit the same for adoption to the County Convention of March 30th. They are now published that the Republicans of the county may have full opportunity to examine them.

A. M. BROWN, Chairman.

RUSSELL ERRETT, Secretary.

RULES

For the Government of Republican Nomination Conventions.

DELEGATE ELECTIONS.

I. All elections of delegates shall be by ballot, and the inspectors to conduct such elections shall be chosen or designated at preliminary meetings to be held one week before the time for holding the usual annual delegate elections. The inspectors so chosen shall serve at any subsequent election for delegates held during the same year, prior to the next recurring annual election.

In order to secure a full compliance with the will of the people, those participating in the election of delegates shall have the privilege of voting on separate pieces of paper their preferences for each county office to be filled. The inspectors shall receive and count all such votes offered, and shall certify the same on the credentials of the delegates elected, and such delegates shall be bound by the same as the instruction of the districts they represent. The County Committee may also submit questions of grave public interest to be decided by the people at such primary meetings, the result of which shall be duly certified by the inspectors.

WHO SHALL BE ALLOWED TO VOTE.

II. No person shall be allowed to vote at delegate elections who is not known to be a member of the party as defined in the call of the County Committee, or whose membership therein cannot be vouched for by some person known to the inspectors.

COUNTY CONVENTIONS.

III. Each Convention shall, on assembling be called to order by the Chairman of the County Committee, for the time being, and in his absence by the Secretary thereof, who shall preside until a President be chosen.

Each Convention shall consist of one delegate from each election district in the county.

No person shall be admitted to the floor of the Convention during its deliberations except delegates and reporters for the press.

In making nominations, each delegate shall vote *viva voce*, as his name is called, and the Secretaries shall call the names of delegates alphabetically.

A majority of all the votes cast shall be necessary to a nomination in all cases.

CONGRESSIONAL CONVENTIONS.

IV. Congressional Conventions shall be called separately from the other nominating conventions, one of which shall meet in Pittsburgh and the other in Allegheny so long as the present apportionment exists. They shall be governed in all respects by the rules governing the other nominating conventions.

ASSEMBLY DISTRICTS.

V. In making nominations for Assembly the county shall be divided into five districts, from each of which one member of Assembly shall be nominated.

The first district shall be composed of the city of Pittsburgh.

The second, of the city of Allegheny.

The third, of the townships and boroughs west of the Allegheny, and north of the Ohio rivers, including Noville and McClure.

The fourth, of the townships and boroughs between the Allegheny and Monongahela rivers.

The fifth, of the boroughs and townships south and west of the Monongahela and Ohio rivers.

And the nominations in each shall be made by the delegates from each district respectively, to facilitate which the Secretaries shall prepare separate lists of delegates from each.

COUNTY COMMISSIONERS.

VI. In making nominations for County Commissioner, the county shall be divided into three districts, viz:

The first district shall consist of the election districts South and West of the Monongahela and Ohio rivers, from the candidate shall be chosen from this district in 1859.

The second shall consist of the election districts in the Monongahela and Ohio rivers, and the third district shall be chosen in 1860.

The third shall consist of the districts North of the Ohio and West of the Allegheny, including Noville and McClure, and the candidate shall be chosen from this district in 1861.

—And so on, thereafter, in regular order.

COUNTY AUDITORS.

VII. The same districts shall exist in the choice of candidates for Auditor and Directors of the Poor. The candidate for Auditor in 1859 shall be chosen from No. 1. In 1860 from No. 2, and in 1861 shall be chosen from district No. 2, in 1860 from No. 3, and 1861 from No. 1, and so on in regular order.

The nominating nominations for those offices, it shall not be in order to name a candidate before the convention who do not reside in the district to which the nomination belongs.

Delegates to State Conventions shall be chosen, two from the county at large and one from each Assembly district.

COUNTY COMMITTEE.

VIII. The County Committee shall consist of the members of the County Nominating Convention held in each year. This committee shall meet at such convenient time on the day the county convention is held and appoint an executive committee of thirteen, to carry on the business of the campaign. The committee of thirteen may summon a meeting of the county committee whenever they deem it necessary.

TOWNSHIP COMMITTEES.

IX. The delegate from each district, who is thus made *ex-officio* a member of the county committee, shall be also, *ex-officio*, chairman of the township, ward or borough committee for the current year, and shall designate, at an early day, four other active and efficient men to be with him a district committee, and report the same to the county executive committee with their post-office address; and the district committee shall have full power to appoint vigilance committees of any size they may think proper.

THE Lecture of Dr. Boynton at City Hall last evening was largely attended. The subject treated was the crust of the earth. This he showed to be of Plutonic unfossiliferous and fossiliferous rock. That portion of the crust lying above the Plutonic or igneous rock, is 66,000 feet in thickness. The maximum thickness of the whole crust cannot be above 100 miles, in many places probably not more than five miles. Beneath this the body of the globe consists of liquid fire. The heat of the globe increases one degree Fahrenheit for every fifty feet perpendicular descent. This fire, by the percolation of water through faults and crevices in the superincumbent mass, produces steam, whose expansive force causes the crust of the earth to bend, undulate or break. Thus we have earthquakes and volcanoes, the latter whenever the melted masses force their way up through the cracks which the expanding forces may produce. [One question presented itself to us, which we could not answer, viz: Can there be fire without oxygen to support it?]

The thickness of the rocks overlying the granitic formation is ascertained by the uprising of the rocks beneath, pushing off to either hand those above, and thus exposing each separate stratum, which the geologist may measure according to common rules of geometry. Frequently the subterranean forces bend up the land in one place, leaving it to sink in another, as waves undulate on the sea. Thus Newfoundland is rising, as it were, from the ocean bed, while New Jersey [alias for New Jersey and the Camden and Amboy Railroad] is sinking. The coast of Norway is rising from the ocean, and within the present Geological period has been elevated 6200 feet. The shells of oysters are found at that height on the sides of rocks, while their congeners, in good condition, may be found at the bases of these rocks, still living and thriving.

The lecturer announces the fact that all rocks are oxides of metals; that with a few exceptions such as gold, platinum, etc., all metals are oxidized by the action of intense heat, reduced to a fluid state and then cool and form solid rocks. Thus we get the Plutonic rock as a sub-stratum, upon which for age after age the debris washed from the lands by the waves, sink to the bottom, layer upon layer.

The lecturer compared the Mosaic account of creation with the geologic period and found a perfect agreement.

The lecturer then related the history of several of the most important volcanoes and earthquakes. Islands were also elevated in the oceans and seas. He mentioned the case of Jorullo, of a volcanic island in the Mediterranean, etc. Here he exhibited some splendid paintings of the island which came to view off the coast of Sicily in 1831, and which disappeared within a year.

We were much interested in the lecture, but really it was too long. No audience can sit for two mortal hours without becoming tired, we don't care how interesting the lecture may be. There will be a third lecture of the course this evening. For particulars, see advertisement.

POLICE ITEMS.—Edward Logan made an affidavit against John Butler for keeping a ferocious dog. Butler gave bail in $100.

John Leech, of the Good Intent Engine Company, made affidavit against Joseph Hughes for malicious mischief, in injuring the engine house, upsetting the stove, breaking the pipe, etc. Hughes gave bail in $300.

Mary Ann Paufman, of the 5th ward, made an affidavit against a girl, whose name we do not know, who came into Mary Ann's house, bought a victorine, and while she went up stairs to get some change the girl stole and carried away a shawl worth $4.

THE Mayor is on the track of Frederick Meyer, who had an information made against him for larceny, some weeks since. Soon after the theft, the next morning in fact, he left the city. It was afterwards ascertained that he married a girl in Chicago, and having spent the honeymoon with her and stolen $400 he ran away. That was before he came here. He had also a young wife in Detroit, where he had been playing the Chicago game again. When he left here he went to New York. A boy had directed a letter for him to 204 Greenwich street, and there he has since been found with a new sweetheart. Yesterday the Mayor obtained that he is in Philadelphia, living on Poplar street. It is probable he will be caught some of these fine mornings, when he isn't thinking about it.

—Since writing the above we learn that this man was yesterday arrested in Philadelphia. He had also (which we did not mention above,) succeeded in marrying a respectable young girl in the 5th Ward, in this city, and lived with her about a week. He worked a long time before he could ingratiate himself into favor with her family. He professed to be very religious. He forged a letter purporting to come from Germany in which it was set forth that he was in receipt of $6,000 per annum. This bait took, as such bait is apt to, and so he consummated the girl's ruin. He is therefore a polygamist and should be punished by sending him to the penitentiary or to Salt Lake.

WASHINGTON COUNTY BONDS.—Yesterday was the day fixed for the return on the writs issued out of the Court of Common Pleas of Washington County on the bonds issued to the Wheeling road. The attorney of the county, ALEXANDER MURDOCH, Esq., was present, and as the county has resolved to pay the interest on these bonds, did not put in any defence, and judgment accordingly went against the county. This was the only case that came on, it is understood.

Immediately after the adjournment of the Anti-Tax Convention lately held in that county, which we noted at the time, the Commissioners held a meeting and unanimously resolved in favor of paying the interest. The tax for the current year has been levied with a view to that end.

THE M'Keesport *Weekly* of Saturday says: A daughter of W. E. Harrison, of this place, was badly scalded yesterday morning. One of the inmates of the house was washing the porch, and taking a basin full of hot water from the kettle to throw on it, the child passed under, receiving the contents on her neck and back. It is thought that she will recover.....A man named Philip Burns, of Port Perry, made information against a woman, before Justice Wampler, of M'Keesport, for assault and battery. Philip used some improper language to the woman, who seized a stick and beat him as much as he deserved. The case was compromised by the woman paying the costs and Philip promising to keep a civil tongue in his head hereafter.

A TEMPERANCE organization has been established in Sharpsburg, with the following officers.

President—Rev. R. Roberts.

Vice Presidents—Messrs. A. G. Neff and Wm. Garner, Sr.

Secretary—T. L. Maynard

Treasurer—R. M. Coyle

Executive Committee—Rev. H. H. Lewis and Messrs. J. G. Comstock, T. H. Gibson, A. Morton and J. Turner.

ARRESTED.—A man named Knox was arrested on Monday charged with maltreating his wife. But his daughter, Phœbe Knox, hearing of this, informed Alderman Fetterman that her mother had a paramour, John Finney, and was anxious to put her (Phœbe's) father out of the way, for unlawful and unholy purposes. John was the man that was sent to jail, much regretted by Mrs. Knox as it would appear. The latter is the mother of several children.

POST OFFICE.—There is a vacancy in the office of post master at Lawrenceville. We are informed that the Administration cannot find a single Buchanan Democrat in the borough to appoint, and what's to be done nobody knows. One will probably have to be imported.... The post office at Carter's Mills, Indiana county, has been removed to Blacklick Station on the Railroad and J. Gardiner appointed post master.

THE CONCERT.—Signor Giamboni had a splendid house last evening. We were glad to see it. The singing was fine. We have no need to go abroad to import singers so long as we have such home talent as was exhibited last night. Miss Soriba drew rounds of applause from a highly appreciative audience. The intense of the hour at which we write forbids our saying what we had intended to say about the different performances. Another time will do as well.

A WIFE named Anderson, whose husband had deserted her some time since in Washington City and taken up with another woman, arrived in this city on Monday (yesterday) in search of her erring lord. Anderson is in jail, and the wife, on visiting him there, found the strange woman in the cell with him. The latter left soon after the wife entered. Strange kind of a world this!

THE Western Teacher's Association will meet at New Brighton, on Tuesday the 29th inst., at 10 o'clock A. M. We understand that the citizens of New Brighton are very much interested in the contemplated meeting and will endeavor to give a hearty reception to all who will attend. This is as it should be, and we hope there will be a large attendance. The exercises will doubtless be very interesting.

AT the East Baltimore Conference of the M. E. Church, now in session at Williamsport, Bishop Scott presiding, the certificate of transfer of Dr. J. M'Kendree Reiley, of Pittsburgh, was read, after which he was introduced to the conference, when he said he was glad to get home again. He did not regret that he had gone to Pittsburgh, as he had served a kind and excellent people.

STOLEN BRASS.—Mr. W. Smith, of Wm. Smith & Co., 9th Ward Foundry, desires us to state that he is not the individual who purchased the stolen brass from Michael Aster, mentioned in yesterday's paper. The name being the same, this explanation is due to Messrs. Smith & Co. They have frequently refused to purchase articles from unknown or suspicious persons.

THE UNION PRAYER MEETING in Dr. Swift's church, Allegheny city, was attended by a goodly number of people, yesterday, notwithstanding the rain. Rev. Wm. Preston conducted the exercises. Mr. Bliss, late of Philadelphia—who took a prominent part in the organization of the Jaynes' Hall meeting—will conduct the exercises to-day.

THE Historical Magazine for March is before us. It is full of matters of interest and we think should be sustained and encouraged by all who delight in matters of this sort. It is published in Boston and New York, but can be purchased of Mr. J. S. Davison, at his new store, corner of Wood street and Diamond Alley.

THREE MEN, Hastings, late constable, Harbison, late watchman, and Colwell, dairy, were at a house kept by one Gillespie, on Wylie street, last Saturday, and falling into a quarrel and next into a fight, were bundled off to the tombs. They were held on a charge of assault and battery.

JOHN LONGSTAFF, the man who stabbed Kesler a few days since in the Second ward, and who got his skull fractured for his trouble, has been held to bail to answer at court. He was sent to the Hospital, it will be recollected, after the melee, but has now so far recovered as to be able to resume his business.

BISHOP SIMPSON.—This gentleman has so far recovered from his late severe illness as to be able to resume his Episcopal duties. He is now at Williamsport, we believe, in attendance at the East Baltimore Conference.

IN B.'s communication, published Saturday, for "Yomba" read *Yorubo*, for "St. Paul's Run, *St. Paul's River*, and "*will come* from south of Mason & Dixon's line."

FOR RENT.—Those in want of a fine house, in a pleasant part of the city, are directed to the advertisement of R. E. McGowin, in to-day's paper.

THE people in and about Greensburg are holding meetings and passing resolutions against the County Superintendency of Schools.

DR. BALDWIN, Physician to the jail, informs us that Evans' health is improving; he is not considered dangerous.

Sex advertisement of American School Institute, in another column.

BRASS.—Michael Liston after an examination before the Mayor yesterday on charge of being a receiver of stolen brass, etc., gave bail in $500 for his appearance for trial. The brass was stolen from S. M'Kelvy, Esq., of the 5th Ward.

Henry Nichols was held for a further hearing at 2 o'clock this afternoon.

GEO WEIR, of Birmingham, was drowned last week, off the steamer Fulton City, near Pomeroy, O.; his body was recovered, and $176 in gold and a note for $160, drawn in his favor by one Mr. Hicks, were found on the body; his friends here can get the money, we are informed, by applying to the Coroner, at Pomeroy.

PROF. J. C. SMITH will deliver the Third of the series of Lectures before the Book-keepers of the city, at the Rooms of the Board of Trade, this evening.

THE attention of those who are buying fashionable clothing, either in men's or boys' wear, is directed to Carmaghan's advertisement, Allegheny city. His stock will be found among the best, in both ready made clothing and piece goods for custom work, and, as he possesses ample facilities for cutting and making first class work, there is some assurance of being pleased, offered to his patrons.

ANY of the following articles can be obtained at Bowns' well known stand, Federal street, Allegheny. Good Family Bread. Cakes and Confectionery in every variety. Fresh Peaches, Tomatoes, Plumbs, Citron, Pine Apple, Brandy Peaches, Assorted Preserves, Jelly's, Pickles and Ketchup. 1,000,000 DOLLARS PER ANNUM

To the United States, as the preserver and restorer of valuable Horses and Cattle. It cures all Sprains, Galls, Wounds, Stiff Joints, &c.

Will you answer this question? Did you ever hear of any ordinary Sore, Swelling, Sprain or Stiffness, either on man or beast, which the Mustang Liniment would not cure? Did you ever visit any respectable Druggist in any part of the world—in Europe, Asia, or America—who did not say "it was the greatest discovery of the age?" Sold everywhere. Every family should have it: three sizes.

BARNES & PARK, Proprietors, New York.

Also, Lyon's celebrated Insect Powder.

Telegraphic.

Latest from Europe.

NEW YORK, March 7.—The steam propeller Jura arrived this morning, bringing London and Liverpool dates to the 19th inst. Parliamentary proceedings had been uninteresting. The war question was unchanged, and preparations continued. There are vague and unconfirmed reports of a French loan of twenty million pounds sterling. Later intelligence from India had been received, bringing news of the close of the campaign in Oude, and the destruction of all the forts.

London dispatches Friday state that Austria agrees to send a representative to the Paris Congress provided that England and Russia will guarantee that the Italian question shall not be discussed.

FRANCE.—The article for which La Presse received a warning, is precisely of the same tenor as those which it had been publishing for weeks previous, and the general supposition was that the measure was taken on the representations of the Austrian Ambassador.

The warning had a good effect on the Paris Bourse. The Rentes, on the 17th ult., had advanced nearly 1c, but the rise was not fully sustained. The closing quotations were 68f. for money and 67f. 90c. for accounts.

The late disastrous failures at Orleans are said to amount to twelve million francs.

M. De le Lesseps left Paris on the 15th for Alexandria, for the express purpose of commencing the Suez canal.

The Paris correspondent of the London Times asserts on trustworthy grounds that the King of Sardinia is determined on making an attempt to drive out the Austrians, with the object of constituting for himself a kingdom strong enough to resist Austria on the one hand, and France on the other, if need be, and that it will compose Venice, and at least twelve million subjects. An absolute certainty is felt at the court of Turin, that France will help Piedm
