President Buchanan, Secretary Toucey, and their more humble associates in guilt, are commisserated in their misfortunes, while no terms of reprobation are too severe, for the committees who aided in bringing these officials to the bar of public opinion. The latter have "forgotten decency and patriotism," while the disposition to do wrong were not blessed with the faculty of successfully concealing it from the world. This is a new chapter in democratic morals, and one worthy of careful study.

THE TORMAGE TAX,—Judge Ewing, of Uniontown, has published a long letter in favor of repealing the Tonnage Tax, which the Philadelphis papers grab at with great expressinces. It is the first unbought opinion they have ever obtained on that side and they are disposed to make the most of it. The Judge, himself, seems to take great pride in the fact that he has not given this server.

Line had thus grown almost worthless as a source of revenue, so that no one clse would buy it, the Pennsylvania Road stepped in and bought it at about a fourth of its cost, the State being immensely the loser. Having thus, by the competition which was the unavoidable result of its existence, forced the State to sell at a loss, is it exactly the fair thing to say that the competition between the State and railroad being romoved, the purpose for which the tax was laid no longer exists? We think not. If the company had paid the State what the Main Line was worth to her when the road was charactered, there would have been an irresistible force

If the company had paid the State what the Main Line was worth to her when the road was chartered, there would have been an irresistible force in the argument; but having by its competition deprived the State of a large portion of the original value of the Main Line, the tonnage tax is as necessary now, as ever, to compensate the State for the difference in value between the based of the Main Line, the tonnage tax is as necessary now, as ever, to compensate the State for the difference in value between the Developed of the Canada. On Sunday, Mr. Grinnell (a State for State for the difference in value between the Senator) had the negroes in church, mide an appeal in their behalf, and a collection was taken up for them.

To do all this with any show of plausibility, all their ingenuity and aptness at misrepresentation are very seriously taxed; so, weak and untenable is the foundation on which their defence rests. The Harrisburg Patriot is their defence rests. The Harrisburg Patriot is their defence rests. The Harrisburg Patriot is the period of the Peresident, (who, by the way, for many years it was his phasure to oppose,) that the Governor has found it necessary to dismiss him from his official household—the Patriot J Union, as if to show how utterly reckless it can be in the service of a corrupt political power, has followed the President, which the barrisburg presented to it, from time to time, without movements, gulping down the bitter draughts presented to it, from time to time, without movements, gulping down the bitter draughts presented to it, from time to time, without movements, gulping down the bitter draughts presented to it, from time to time, without movements, gulping down the bitter draughts presented to it, from time to time, without movements, gulping down the bitter draughts presented to it, from time to time, without movements, gulping down the bitter draughts presented to it, from time to time, without moving a way face, and opening its month and shutting its eyes like a good and faithful organ of Democrasy. After the works which it was intended to protect are sold, nothing remains as the basis of this fax, and it becomes an impost merely, such as no State has a right to levy on goods passing through it."

It is a principle in law with which Judge Emig is perfectly familiar, that no man shall be allowed to take advantage of his own wrong is perfectly familiar, that no man shall be allowed to take advantage of the injury it has done the State by depressing the value of the State Works. The tomage tax was first levied as a compensation to the State for the received of the process of the state of the railroad.
