SATURDAY MORNING, STATE ADMINISTRATION.—What Gov.

Packer and his friends will do, after having been deliberately repudiated and insulted by the Democratic State Convention, has not yet been indicated; but it is plain that they cannot remain that they cannot remain as withdrawn.

State Some dozen gentlemen not answering name.

Mr. Bailey, of your county, offered a resolution commendatory of Attorney General Black; but sunders amendments having been offered to include Sam. Black, J. Glancy Jones, and others, the resolution was withdrawn.

There is no act of his, as Governor, which his cenemies in the convention had the boldness to condemn. They admitted his ability and the correctness of his administration policy; but still they condemned him: and why? Solely because he was and is anti-Lecomptoh, and because he has given his sympathies to those democrats who have been strugpathies to those democrats who have been struggling against the Lecompton policy of the President. to blame for this; the system of cheap postage has yielded liberally, and, with the exception of the year 1853, when there was a falling of in its revenue, it has gone on from year to year with a steadily increasing income, so that in 1857, the year of this great extravagance in the Post Office appenditures, it had reached the sum of \$8,958,952, or more than a million and a quarter of dollars beyond what it was in the last year of the five per cent postage. That the revenue of the Post Office in aix years, under the cheap postage system, had grown to be larger by one-sixth than it had been in the most productive year of the five cent postage, ought to have satisfied any reasonable expectations. It is almost precisely correspondent to the increase of our pegulation in the same period, if we take enumerations of 1850 and the previous years as our guide."

prices, that the present low rates of postage would prove entirely adequate to meet the requirements of the department. But as long as political pets are fed and enriched at the public expense—as long as overland routes are kept up at the cost of thirty-five dollars for every letter which is transmitted over them—as long as Butterfield and his associates are allowed to draw hundreds of thousands of dollars from the public places a social nuisance.

Letters, has the present low rates of postage without net indicated by Rev. M. Northcote, a deserter from the Anglican amp. The gallant admiral had a world of trouble in cutting out and carrying off his child, but ultimately effected her rescue, and is on his with home. It is just to the Hon. and Rev. Monsignor Talbot to add that he totally disapproved of M. Northcote's clandestine meddling with the family. The class of derical secoders is in most hundreds of thousands of dollars from the public places a social nuisance.

for Auditor General—is at present a member of the State Seante from Philadelphia. He is a radical of the jacobin class, and if he is noted for anything it is for his illiberal partizanship and political bigotry. He is a bitter enemy of Banking of all kinds, and should he be elected, he would use his position to annoy the moneyed institutions of the Commonwealth. He will go with his party all lengths, as he regards fidelity to the public interests. He would support Duchanan and Slavery, as far as the influence of his office would permit him this intelligence and A the raileand tenin from the total work and the present propriate and promising, they now generally bid fair to yield an abundant crop, especially wheat that he been drilled in. Mistake at a Fuseral.—About the end of last month the following singular mistake was made at Dole, France: Two persons had died at the hospital of that town, and were to be buried at the same time. The deceased were a young girl and a soldier of the garrison. Both coffies being placed alongside of each other, they were so confounded that the young girl was accompanied to her isst home by a platon of dragoons, with military honors, while the young soldier, covered with a white pall of flowers, plouse emblems of purity, and innocence, was borne on four feminine shoulders, and followed by a procession of young girls reciting prayers.

and his supporters tried to obtain even a partial endorsement from the Convention; but we do not see why they should grieve at being condemned by such a convention. A set of men who can deliberately give themselves up to the vile task of approving the administration of James Buchanan would inflict a permanent injury upon any man who desires the approval of the honest, by giving him their sanction. The Philadelphia Bulletin well says:

"It must be a matter of very small conse."

by giving him their sanction. The Philadelphia Builtetin well says:

"It must be a matter of very small consequence to Governor Packer to be rebuked by a packed Convention, the most active spirits of which were deprayed hunters of federal place and patronage, or disappointed applicants for the favor of the State Government. Nay, a man of delicacy or fine sense must congratutate himself that be does not receive the compliments of a body that can compliment James Buchanan. The mere circumstance of the Conventions, its usurpations, its usurpations, its usurpations, its extravagences and its manifold outrages upon the people and the constitution, makes its praise a mockery, its endorsement an insult."

The Pennsylvanian, Bigler's organ, is jubilant over "the crushing rebuke" given to the State administration. The "crushing rebuke" of the people upon the National Administration will be given on the second Tuesday of October next.

Chrap Postags.—The New York Ecening Post has an article on the increase of the Post Office expenditures over the regular revenue of that department, in which't takes this position:

Let the reform commence in earnest, and at the proper place, and we will hear very little of the necessity of imposing heavy taxes on the business community in order to keep this branch of the government in operation. Under no circumstances should the postage on letters be placed at a higher figure than at present.

THE death of General Wm. T. Haskell, of Tennessee, is announced. The event occurred in the Hopkinsville Lunatic Asylum, on Sunday last. He was at one time one of the most bril-liant men of the South. He was one of the first liant men of the nation, a poet by nature and the author of some beautiful stanzas, and a gallant soldier distinguished in the Mexican war. His insanity is believed to be chargeable to the effect of an excessive use of ardent spirits upon a highly excitable nervous system.
