we are all so constituted as to need, every now and then, some relaxation from our regular pursuits, in which the bow can be unbent from its strain and the mind relieved from the grave carries of businesses. When harmless amusements and recreations cannot be had, men will be templed to try others not harmless; and it is a significant fact that the police offices always have much less to do when the public have legitimate of surprises. A Singular Man.—Mr. Moran, in a speech at the late Buffalo Bailroad Convention, is roported to have said:

"He found no one prepared to adhere to naything it as settled policy; and, as for himself, he proposed hereafter to conduct his road according to what he deemed for the best interests of his stock holders; and he should be glad when the time came when he could peacefully refire from the charge of the duties which has been thrust upon him."

If Mr. Moran used this language it shows him totally unfitted for his place. The idea of a Railroad President conducting his road so as to promote the interests of the stockholders, is an exploded one. It prevailed in old fogy times but has been entirely abandoned. Presidents who are up with the times never take the stockholders into consideration.
