In the meantime, places situated like Pitts-burgh gather oothing but injury from the change.

The rates to and from here are not reduced. It less the west which gathers all the benefit, and its line west which gathers all the benefit, and thus Pittsburgh loses all her natural advantages as a shipping point. For instance, the Pennsylvania Road is carrying freight from supplement to the act incorporating the borough points 150 miles west of us to New York for 25 points 150 miles west of us to New York for 25 points 160 miles west of us to New York for 25 cents a hundred, while she charges any shipper here, for the same freight, 35 cents from Pittsburgh to Philadelphia. We suppose that the same proportion holds good at points further west—such as Chicago, St. Louis, Louisville and wass—such as chicago, St. Louis, Louisville and Cincinnati; and thus a road which the county contributed a million to build is used, under this wild system of competition, to build up cities west of us and cut us off from all the advantages so freely yielded to others. We are not complaining of this. We have long since ceased to be plaining of this. We have long since ceased to complain. But these incidents of a childish as well as "insane" competition are propersubjects.

Davenport, Iowa, elected Republican city officers and a Republican Council—a gain from hast year. Reokuk also went Republican.
