A New Chemen to me Emerge in Petersection.

—The United Brethron in Christ, who have a young and flourishing mission, (their only representation in the place) propose building a house of worship on the rite new occupied by them on Hand street, opposite the St. Andrew's Chruch. The present house being entirely too small to accommodate the congregation, they have already secured a liberal subscription from their membership; but being comparatively, few in number, they cannot meet the entire cut of the work. They do, therefore, solicit aid from a generous public who will be called upon by the Rev. George Wagoner, paster of the aforesaid congregation.

When the all talk about and anticipate improvement, why not be prepared to appreciate it when actually made? This is suggested with reference to Sewing Machines. There have been many made in the last two years that do quite well, but they are complicated, bard to manage, difficult to keep in order, &c. Now the new "Finkle" Machine being a real improvement on the old patents, has a well-grounded claim to the liberal patronage it is receiving. It is in the hands of J. L. Carnaghan & Co., Allegheny city, as solengents.

A Case of Rufture Cured About a Year ago.—Mr. George Gumbert, who resides on the Fourth St. Road, Seventh ward, procured a Truss from me, which in 6 months effected an outire cure. He has now gone six months without the Truss, and there is no appearance of the return of the trupture. I am continually curing cases of rupture with my invaluable Trusses.

I have permission from Mr. Gumbert to publish and refer to his case. The best of references can be given by application at my Drug Store and True Bust.
