FIRE.—The alarm last evening was caused by the bursting out of flames from the coal oil distillery or factory belonging to Mr. Kier. It is situated on 7th street, just above Grant. The first for circulation took accidentally and was speedily extinguished. \$100 will probably cover the damage. What are the advantages of the Finkle Sowing Machine? Its stitch is equal in strength and beauty to any made. It is very simple and easily managed. It is strong and compact in every part. Its various products are well adapted to sewing cloth, leather and the hightest materials used in families. Viewing its importally, it is an undoubted improvement on all its competitors, and well deserves the popularity it has gained. J. L. Carnaghan A. Co., Federal in treet, Allegheny, are the agents.
