The public is moreover warned that sentrics and pa-trols will be not only entitled, but compalied, to use their arms against all who do not yield on the the first armsmons." the first sun the first summons." This, coupled with the conduct of the Austrians in Piedmont, would appear to confirm a report that the only object of the invasion was to ravage the country, out of which they feel they are about to be driven at the point of the bayonst. A spy was shot at Biella yesterday. about to be driven at the point of the bayonet. A spy was shot at Biella yesterday. Ifrom the Paris Para! The doprediations committed by Austria in Friedmont are now explained. They are rearias creanted, not for the immediate wants of the army, but in order to fill the storehouses in Lom-bardy. Every day, long files of wagons isden with hay, vegetables, grain and provisions of all kinds, are seen passing by Nowrar and Vigevano for the left bank of the Tricino. The Austrians literally strip the Fiedmontees provinces and carry of their booly to a pince of safety. This manner of making war is that of the ancient bardsring, or rather it is that of an army with-out money. The Austrians cannot pay for what they take. If they were to plunder in Lomhar-dy they would run the risk of an insurrection of the peasentry. They therefore go into Fied-mont and make a clean sweep of everything they can find. They do this with a rigor and a cru-elty which have created a melancholy and pro-found sensation in Europe. The official buildins of the Sardinian govern-ment have already published to Europe some of the sceasse. Here are few more details not less anthentic. On entering Novara. Gen.
