These Springs wil open for the reception of 'slitters mv19 On the 1st Day of June.

The important of 1859 have been large, eaching the proprietor to accommodate from five to six bundres guests. Among these improvements may be measured a large and elegant butch, new cottage rows, additional buildings for names-ment and recreation, extensive bath buscs, a scam landary, kc, kc. Upon the extant there are fore forings, all within the inwou-four of which, the White fulphor, the chaipbeats, the Mag-nesian and the Saline Chaibbeats. The sciencid-dir modificiant

four of which, the White Sulphur, the Charyonate, the se notion and the Saline Chalybeste, are decidedly medicin whilst the fifth is remarkable for the purity of its waters THE WHITE SULPHOR

THE WHITE SULPHOR Is a becauting latential optimized and the rocky lank of the School river. At the depth of 100 fest below the surface of the School forse the remarkable stream of solpher water, which sopplies this Spring. This stream was discorrect birty years ago by a geniteman who was boring for sait. The water, when reached, at once arows to the surface, and has ever induce combined to flow during all seasor, without change or abstement, either in quality or rolonge.

MEDICINAL PROPERTIES.

For years three Springs have been bighty astronged for their modicinal properties. During the past season their reputation in this respect has been stepsizing confirmed — They were administered by a bipsteian judicionaly as to quantity, time of drinking, condunance, de, and ander this systematic plan the curre were sumerous and gratifying.
