Convention, says:

"Let it be presumed that this event occurs. If the Southern Democracy submits to it, still Douglas could not be elected, as he could not carry more than two or three of the Northern States, and half of the Southern States would either withhold from him their votes, or throw them in favor of any reliable, third candidate who was started. If, for instance, Dickinson, of New York, was united with a strong Southern Statesman, such as Senator Brown, for President and Vice President, the toket would carry nearly every Southern States and possibly some of the Narthern States, such as New York, Pennsylvania, New Jersey, Indiana, Orgon and California, Everywhere there are indications that the next Presidential contest shall not be narrowed down to a struggle betwice a fishy Northern Democrat and a Black Republican. To the latter, Union Conservatives, State Rights men and party Democrats are opposed. To the former, not only their regular opponents, but every old element of Winggory, Americanian, Pro-Slavery and State Rights are opposed. The difficulty of these often was to cross the Ticino, and effect the former, not only their regular opponents, but every old element of Winggory, Americanian, Pro-Slavery and State Rights are opposed. The difficulty of these orders and language points and the control of the solvers and language points. A cons., and he even wrote himself or men. Garibaldi knew that all these solved and removed by a third candidate. A third candidate, which is echown and the charactors concerned to the charactors of concerned to the charactors concerned to the charactors of concerned to the c

canadary which sensing and load party-min and fanaticium would combine immense strength. The success of it may be found in the Charleston Concention, who, dissenting from what may be its action, will call and brisp together a third and independent sominating connection."

The Northern Democracy will thus see what is expected of them. They must make an abject surrender on all points, or the South will boil and take up a new candidate of their own. Any "fishy Northern Democrat" they cannot abide. A doughface like Dickinson and a platform ut terly repediating Douglas-ism in every form, is the only alternative to a Southern man of extreme five-eating and slave-code principles. Failing in both, the South will boil.

PIRE'S PRAK.—The papers of Leavenworth and St. Louis are laboring assidatously to make it appear that there is abundance of gold at Pike's Peak. Having contributed so much to the late furore, which led unhappy thousands into misery and the danger of starvation, it behoves them to turn the tide, if they can, and this they are now attempting. Their columns glow with details of newly discovered placers, and latters without end are given, all telling the same tale of extraordinary success in prospecting form and after a count themselves, as the stateded them same tale of extraordinary success in prospecting form and after a charge of the same tale of extraordinary success in prospecting form and after a charge of the count of the coun same tale of extraordinary success in prospecting for gold. It is remarkable, however, that with all these tempting accounts there comes but little of the gold itself. We hear of any quantity of men making ten and twenty dollars a day, and companies realizing their thousands; but the gold they dig does not manifest itself. There is but one statement of gold received, so far, and that claims only \$1,700 as having been aotually seen and handled. We are justified, therefore, in cantioning all who are in danger of fore, in cautioning all who are in danger of

standing stand receipts of goal from that strength and standard strength and standard strength and standard strength and standard strength and stren

therefore, in cautioning all who are in danger of being led away by these stories to wait a little, until the actual receipts of gold from that region are sufficient to demonstrate the truth of the published accounts.
